## SCHOOL NOTES.

A very interesting program was enjoyed by the school Tuesday morning which was given by Miss Whittle's room.

Claude Magee, one of our boys of the U. S. Marines of Port Royal, S. C., was a school visitor twice during the week.

A hearty invitation is extended to all the public to attend a program given by the Excelsior society next Friday in the school auditorium.

All the minds of the school pupils and teachers have been closely connected with the examinations this week.

The school pupils will soon enjoy having plenty of water to drink as the tank will soon be completed. We also have quite a number of new chairs in the school and of course all the pupils enjoy sitting in them.

## Do Your Christmas Mailing Now.

Each community has its boys in training or at the front with the army or navy. When Christmas time comes, those boys will be pretty lonely. This Christmas will be different from any they have ever known. They will think a lot of the folks back home. They will do a lot of wishing that they were home themselves, just for Christmas day. And it will be mighty hard on the one who is given reason to believe he is forgotten.

In the whole country there is not a mother, not a sister, and not a sweetheart who has a boy in France who isn't proud of the fact. None wants her particular boy to think he is forgotten. None wants her boy to be without his package from home, when the other boys in his command get their packages.

To make sure that none will be empty handed on Christmas day every mother, sister, sweetheart and friend must do her Christmas mailing at once.

There is no more time for delay. The postoffice department has sent out a general notice that to assure delivery of Christmas packages in France or to boys in the navy they must be mailed not later than November 15th. But none should wait until the last day, the department warns all. The mails are certain to be congested at that time. The chances of delay will be increased.

For the boys in American camps you need not hurry. But get your Christmas packages for the boys abroad and in the navy into the mails now. Be sure and have them ready by November 10th, and remember, the 15th of November is the very last day.

## Let Us Remember.

Every flag that flies opposite the German one is by proxy the American flag, and that the armies fighting in our defense under these flags can not be maintained through this winter unless there is food enough for them and for their women and children at home. There can only be food enough if America provides it. And America can only provide it by the personal service and patriotic co-operation of all of us.

The small daily service in substitution can be done by all; the saving in waste by the majority, and the lessening of food consumed by many. This individual daily service in 20,000,000 kitchens and on 20,000,000 tables multiplied by 100,000,000, which is the sum of all of us, will make that total quantity which is the solution of the problem.

Judge Chretien construed anti-lottery law to hold that possession of tickets or paraphernalia is prima facie evidence of guilt.

## Why We War With Germany

"The Glorious Deeds" of which the Kaiser Boasts Furnishes Another Reason for Sending Our Troops to France.

Listen to the Kaiser! "They" (the foes) "have slandered the German name, but they cannot extinguish the glory of German deeds."

Yes. The ineffable glory of the execution of Edith Cavell. That will never die.

Yes. The moving finger has written on the roll of honor the story of the murder of women and children on the Lusitania. They are dead, but they speak. That glorious deed, too, never will be expunged from the record.

Yes. The rape and rapine of Belgium. The foul, slanderous tongues of young girls, crying for mercy as they are dragged into captivity, will echo through history, but they cannot dim the luster of German kultur. Its reputation is made for time and eternity.

Yes. The lying subterfuge of Germany's relations with America, the plots, the political devilments of all kinds against a friendly nation, these, too, are deeds the unperishable glory of which is a precious Teutonic possession and cannot be taken away.

Yes. The slaughter from the air of school children and non-combatants. Let us not overlook this achievement, of which even a modest fiend might be proud. Nothing, not even the most malignant tongue of an unscrupulous enemy, can rob the German Nation of this glorious deed.

Let the Kaiser not disturb himself. The "glorious deeds" of Germany will live and in living will damn eternally their author.—Chicago Herald.

It was decided at a conference of Secretary Lansing and the Italian ambassador that Italy should have any supplies it wants to the limit of its tonnage capacity.

Interesting readings were given showing the part the church in Canada and England is taking in the present war.

While the readings were in progress the ladies present were doing Red Cross knitting, the work showing greater progress now than at any time since the organized work was started.
