THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

## Which Wagon?

The One that Fits the Road—or the One that Rides the Ridge

Recommended by the Government. The standardized wagon fits the prevailing track made by automobiles and is the wagon you will want to buy.

This Wagon is Out of Date. This 60" wide track wagon no longer fits the roads when they are muddy and soft.

WOULDN'T you rather buy the style of wagon recommended by your Government, especially when it is designed to pull easier, ride smoother, and last longer—the wagon that fits the roads and does not ride the ridge?

The Standardized Weber "Auto-track" Wagon saves wear on itself, other wagons, automobiles, and rubber tires.

The Weber fifth wheel and swivel coupling wagon is either sold at a price much too low or most other wagons are sold at prices much too high, quality considered. Compare and draw your own conclusion. To date the leading wagon manufacturers of America have sold at the most conservative estimate 100,000 standardized auto-track wagons. From this introduction it is but a step to universal use of this type of wagon. Wouldn't you rather be identified with progress and recognized as an up-to-date farmer by doing your hauling with such a wagon than to be classed as an unprogressive "back number" by buying a 60-inch wide-track wagon, thereby helping some manufacturer and dealer to "unload" an obsolete type? Think it over—and then come and see us about a standardized auto-track Weber.

## URGE RED CROSS SEAL DAY IN ALL SCHOOLS

Surgeon General Blue Asks That Churches Also Join in Movement to Further Sale

Surgeon General Rupert Blue has issued an appeal to observe Christmas Seal Day in the schools and in all places of worship in the United States, December 5, 6 and 7. The appeal follows:

"Over one hundred and fifty thousand Americans die annually from tuberculosis. This is an appalling waste of life when we consider that tuberculosis is classed as a preventable disease. Moreover, because this loss of life occurs almost entirely in the ranks of the young adult population, health authorities the world over have come to consider the control of tuberculosis as still the most pressing health problem confronting them. Every year the National Tuberculosis Association, by selling Red Cross Christmas seals, raises a considerable sum of money to be used in a nation wide campaign to combat tuberculosis. This year a special effort is being made to interest school children in this work and December fifth, sixth and seventh have been designated as days on which the seals are to be sold in the public schools, synagogues and churches. Because of the seriousness of the situation, I trust that the campaign this year will be particularly successful.

"RUPERT BLUE, Surgeon General, United States Public Health Service".

## CHRISTMAS SEAL FUNDS

Within two weeks over a billion Red Cross Christmas Seals will be on sale in every nook and corner of the United States. These seals are sold to finance the campaign against tuberculosis in this country. Of every dollar received from the sale of Red Cross Christmas Seals, 91.7c remains in the state where the seals are sold for the benefit of the organized anti-tuberculosis campaign in that state.

Out of the remaining 8.3%, the expenses of running the campaign are first deducted, and whatever is left is then divided between the American Red Cross and the National Tuberculosis Association.

The Red Cross Christmas Seal campaign is not for the purpose of financing the work of the American Red Cross or its chapters. It is for the purpose of financing the National Tuberculosis Association and the various state tuberculosis associations. The Red Cross Christmas Seal, launched in 1908 by the American Red Cross, has been issued in the name of the Red Cross since that date. In March 1919 the American Red Cross agreed to allow the National Tuberculosis Association to use its name and emblem on the usual Christmas seal. This year the Red Cross has no other part in the Tuberculosis Seal Campaign. The Red Cross Seal is a Tuberculosis Seal. Those who buy it are supporting the tuberculosis work in their own communities.

To support the programs of work outlined in the forty-eight states and insular possessions for 1920 in such a manner that results in the saving of thousands of lives may be realized, will demand the sale of at least 650,000 Red Cross Seals at one cent each. Tuberculosis can be suppressed. Red Cross Seal offers an opportunity for the widow's mite or the man's thousands. Do your share.
