### Parish School Tax Given Favorable Report.

Baton Rouge, June 3.—The Sylvest resolution to increase the parish school tax from three mills to four and one-half mills was reported favorable Wednesday afternoon by the House committee on public education. The amendment to the resolution, instructing assessors of Orleans parish to make their surveys according to the proposed increase in order to save time in the event of its passage, also was given a favorable report.

Increase of the parish school tax is part of the proposed educational program outlined last week by Superintendent T. H. Harris. The additional funds, if granted, will be expended chiefly for the raising of teachers' pay.

Mr. Heinen's measure for the compulsory education of children, Orleans parish excepted, was reported favorable with an amendment. Mr. Heinen fixed the ages between seven and fifteen years. The committee voted to raise the limit to sixteen years.

Favorable reports also were made on the two Schell measures, for the establishment of a normal school for negro teachers and providing that a school district may exist in more than one parish.

Two library bills were halted. One was by Mr. Wilkinson to create a library commission. The other was by Mr. Vickers, providing for a circulating school library. This proposed measure carried an appropriation, declared to be unavailable at this time.

### Auto Owners To Show Title.

The stealing of automobiles has become so common that different states have adopted or are considering laws requiring auto owners to register the title to their machine, just as land sales are recorded. Such a law has just been passed in Maryland. After September 1, all autos licensed in that state must have a certificate of title, secured from the state authorities for a fee of \$1. The certificate must give description for identification of the car and state whether there are any claims or liens on the machine. When the car is sold the certificate of title goes with it, and the new owner must then secure a new certificate.

### Fight Over Soldiers' Bonus.

There has been an immense amount of discussion over various plans for helping the soldiers who served in the war. There is a general disposition of friendliness toward the men who took part, but the question is how the money is to be raised to provide the benefits for them. One plan was to issue bonds, another was to put a tax on all sales of goods, and the latest is to tax stock dividends of corporations and increase the income and tobacco taxes. Both parties are split on the issue, and especially the Republicans one torn between the necessity of pleasing the "soldier vote" and that of decreasing appropriations. The favorite plan is what is called the four-fold option plan. This would allow the soldier to choose between land settlement, vocational training, home aid or a cash bonus depending on length of service. The whole subject, however, is still in the air.

### Lightning Rods As Fire Preventatives.

The lightning rod as a preventive against fire by lightning is thoroughly demonstrated in a recent report of the State Fire Marshal of Texas. During the year 1919 three hundred and eighty unrodded houses were set afire by lightning bolts, while there is not a single fire recorded of houses protected by rods. Some argument, eh?

### Rich Immigrants Coming.

Contrary to expectations there are more immigrants coming to this country than leaving it. During one week the arrivals numbered 13,000 while the departures were but 4000. Strangest of all, some immigrants, especially from South America, are bringing with them large rolls of money. When asked to deposit their money for safe keeping one couple handed over \$114,000 and much fine jewelry. A Spanish woman had nothing smaller than a \$11,000 check. One family laid down so much money that the officials did not have time to count it; it was estimated at \$300,000.

### Newspaper Views.

Des Moines Register.—The announcement that cleverly executed \$50 bills are in circulation should move all plumbers and hod-carriers to examine their small change every pay-day.

Cleveland Press.—The senate might be worse. It didn't kill America's two big leagues.

National Republican.—Democratic Chairman Cummings accuses the Republican party of "moral lerosy." If Mr. Cummings uses up his diseases like that so early in the campaign, what's he going to do for adequate epithets along late in October?

Philadelphia Press.—Poland is thinking of modeling its senate on ours, and if it wants a few model senators to start off with, we could cheerfully lend them.

Muncie Star.—The railroads need \$600,000,000 and the ultimate consumer has a sneaking feeling in his bones that he knows where they are going to get it.

Manchester Union.—Some of the daylight we've been having lately would hardly have been worth saving.

Manchester Union.—The new-fangled overalls styles somehow lack the easy nonchalance of the old-time, one-gallus affect.

Cincinnati Enquirer.—It is a fine paraphrase of an old maxim which says that you can run up the price of lumber on a man but you cannot make him build.

Binghamton Sun.—If America's industrial problem was in Ireland or China, congress could think of a dozen good ways to solve it.

Buffalo Courier.—A garden patch is just as good a sign of thrift as any other kind of patch.

New Orleans States.—A Michigan preacher says there will be no autos in hell. That is a dangerous doctrine to preach, because it may cultivate in every pedestrian the desire to go there.

Columbia Record.—The allies are not so fond of Uncle Sam as they used to be. One always curses an "Uncle" when the time comes to pay up.

Buffalo Curier.—A New Jersey girl, who asked \$50,000 for the loss of a man's love, was awarded six cents. This jury should be allowed to fix prices on foodstuffs.
