ELECTRIC LIGHT is almost identical with Sun Light and shows the relative value of colors. Scarcely any heat is generated.

It is More Economical than any other illuminant.

Electricity is used exclusively throughout the world for the illumination of the largest and smallest stores and business houses, for the public prefers to trade or work in an Electrically Lighted Store.

A Brilliant Electric Sign

IS A SURE TRADE WINNER—the quickest and best appeal you can make—your message burning through the night in letters of fire that cannot be ignored.

THE CHIEF ATTRACTION OF THE MODERN HOME—the Electric Light is the stamp of modernity. The house not lighted by electricity, no matter how many other advantages it may possess, has a serious drawback.

It gives a soft, steady glow, easiest on the eyes and enables the use of many valuable appliances.

To Power Users

We are furnishing Electric Power to almost all the power users in this city. This is the best piece of evidence which may be offered and show results.
