Town has been filled with registrants of 19-36 years the past few days, who have come in with their questionnaires to have filled out properly, a board, composed of Messrs. Carver, P. Breazeale, C. M. Cunningham, V. L. Roy and Dr. J. S. Stephens being appointed as a Board of Instructions, to assist in every way possible the registrants who may need their services.

A light rain fell for several hours Friday, that, while not heavy enough to do much good in the way of filling cisterns in certain sections of the parish, where the scarcity of water has made the long drought keenly felt, it refreshed vegetation a little and stifled the intense heat that was prevailing. A cool wave followed Saturday, and beautiful Indian summer weather is still in its wake, breaking the backbone of the hottest summer we have had in many a year.

### Letter From France.

Many will recall with pleasure Mrs. Leontine Janin, of Paris, who was born and reared here, as was also Dr. Janin and her first husband, Dr. Edward Cloutier, with whom she went to France to make her home shortly after their marriage, and to whom one daughter was born. While this daughter never visited the home of "her fathers," she loved and revered everything American, and kept in touch with the family thru correspondence. She married a prominent physician, and when war broke out they were in Egypt, but immediately returned to France and went into Red Cross work. A late letter to Mrs. Pamela Fontenot shows her interest and love for her people, with whom she hopes to come in contact by giving her address, that the families can send their soldiers by copying from it published below, parts of which were translated for publication:

GRAND HOTEL, DE L'EUROPE, SUC LE PARC, VICHY LE 21 Aout, 1918.

I am at Vichy on "convalescence furlough" since the end of the offensive of July 15 in Champagne. I shall tell you nothing of that offensive, for one who was not present can form no idea of its horrors, know only that we, the infirmarians, remained during nine days, exposed under a shanty, sleeping amid cannon and shell. The bombardment continued day and night; we assisted the wounded of the sector, French and allies. How often I then thought of my American kinsmen—my sole surviving relations! I must have cousins, perhaps uncles, among all those American troops who come to help us vanquish the Boches, those monsters! Please be so kind, dear friend, as to ask my aunt and numerous cousins to write me, and give them my address and my husband's to all the members of the family who are now in France, and the others who may come later.

My husband and I are not together at the front. The war regulations are such that husband and wife are not allowed to serve on the same ambulance. Last year my husband received his fourth decoration, also the Cross of the Legion of Honor. I had the happiness to assist at the ceremonies. Having undergone many fatigues and dangers at the time of the second battle of the Marne, in May and June, he was then at Epiernay, as Chief Physician of the Hospital of Evacuation, he was obliged to command the evacuation of all ambulances in that sector, and afterwards his own. He is now at Segammes as director of a large and important hospital.

After my convalescence at Vichy, I expect to go to Paris, which will be about September 1, from which place I shall be sent to a new post of which I know nothing.

Address me as before, care of Mrs. Montmartel, etc.—Mme. Hobbs, 5 Rue Carpeaux, France.

I shall be happy to meet my American soldiers here. My husband, Major de l'ere, there, in the main, Chef de l' H. C. A. 28, France, Sector Postal 3.

Courage! The war is going on furiously, thanks to the concurrence of the United States. We are hopeful that the war will end next year. As we say here: "We shall soon have them, the Boches; in fact, we have them already!"

Your cousin,  
AMELIE CLOUTIER HOBBS.

## Announcement to Our Customers

We have had under consideration for some time the adoption of some plan looking to the solution of the credit problem in our business, which would meet the approval of our patrons and be mutually advantageous to them and ourselves—some method of reducing the number of accounts receivable upon our books and making it worth while for those who pay cash who are in position to do so, and also enabling us to extend a fair amount of credit upon reasonable terms to customers desiring it.

1. To allow a discount of three per cent on all cash sales.
2. To allow a discount of two per cent on all accounts paid on or before the tenth of each month following the date of purchase.
3. Not allow any more credit to any customer who allows their account to go over sixty days and an interest of six per cent will be added to accounts over the sixty days.

This is not a reflection upon any one's financial responsibility, but a straight proposition, which should be met by all in a business way.

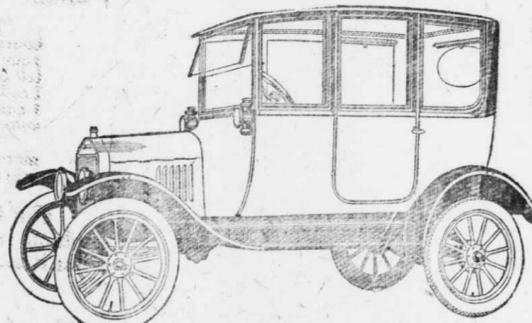

We thank you for your patronage during the past and hope you will continue to call upon us when anything in our line is wanted.  
Respectfully yours,

Peoples Hardware & Furniture Company

# FORD

## THE UNIVERSAL CAR

The Ford Sedan, with its exceedingly comfortable and refined furnishings, its neat appearance and every-day-in-the-year utility, is an especially attractive motor car for women, meeting so fully all the demands of social and family life—a delight to women who drive because of the easy, safe control. Summer and winter it is always ready—never a doubt about that nor never any fears for trouble on the way. Then the cost of operation and up-keep is very small. Sedan, \$775 f.o.b. Detroit.
