## Can a Man Afford to Lose?

NOT UNLESS HE HAS INCREASED HIS INSURANCE IN ACCORDANCE WITH THE TIMES.

Everybody is being urged to take more fire insurance. The fire companies are sending word to manufacturers, merchants, and householders that they are foolish if they do not increase the insurance on their property and effects, for the reason that stock, material, replacements, and so on, all cost much more than they ever did before.

We have many times pointed out that disability insurance bears the same relation to the individual that fire insurance bears to property. Living is expensive nowadays. Long periods of disability are positively ruinous. Accident and sickness insurance needs to be increased by from 50 to 100 per cent.

In fact, only a very small percentage of the insuring public has ever had adequate disability protection. A vast number have never had any at all.

We are prepared to take care of all kind of insurance. Call us.

## Resoling Your Shoes Doubles Their Life

THROWING away good shoe uppers means wasting half of the service you should receive from them—because uppers practically always outwear the soles. Resoling costs from one-third to one-fifth as much as new shoes—it doubles the life of your shoes.

We use the finest materials and workmanship in our resoling—and give every customer's requirements close, personal attention.

Where the most durable and comfortable soles are wanted, we use KORRY-KROME, a mineral-tanned leather that OUTLASTS OAK OR BAKK-TANNED SOLES TWO-TO-ONE.

It is pliable, comfortable and permanently water-proof—is splendid for use of policemen, mailmen, businessmen, romping children, and others giving shoes hard service.

Bring in your old uppers—you'll find our service intelligent and our prices consistent with the quality of the work done.
