## "The Ford Coupe"

THE Ford Coupe is surely the Salesman's car. Thousands of them are bought every year by firms employing traveling salesmen. Many firms buy fifty or one hundred at a time, because they know, from experience, that the Ford Coupe increases the efficiency of the sales at a minimum of expense.

Contractors, builders, collectors, solicitors, physicians all find the Ford Coupe the most convenient as well as the most economical among motor cars. Lowest in purchase price, lowest in operating costs, and backed by the Ford Service organization—coupled with the durability of the car itself—these furnish the reasons for the Ford popularity.

Let us send you a copy of "Ford—A Business Utility." It tells what other concerns have learned about the Ford in business service. But, better still, let us have your order today. The demand keeps growing. Orders are filled in the order as received—and our allotment is limited a specific number each month.

### Plant A Tree!

The Forestry Committee of Lesche did some fine work last Thursday afternoon when under its supervision, trees were planted in front of the Elks Home.

Crepe Myrtle the beautiful tree so typical of Louisiana, was the kind used and several dozens were planted in between those that are already standing there as a monument to Lesche, of some years back.

Mrs. J. H. Williams was the generous contributor of the trees, and the planting was done by the Boy Scouts under the supervision of the Committee composed of Mmes. Scarborough, M. C. Cunningham and Miss Perkins.

Why not make this tree planting a general thing and everybody plant one in front of their premises just at this particular time? Nothing could be done that would be a greater community asset than general tree planting.

### Natchitoches Parish League of Woman's Voters

In response to the call a number of ladies met at the Comus Tuesday evening when the temporary League of Woman's Voters went into a permanent organization. A constitution and bylaws were adopted, officers elected and all the formal business of organization was satisfactorily effected.

It is a Parish League with its domicile at Natchitoches and it is hoped that every ward and precinct will have a local chapter so that the object of organization can be accomplished. It is non-political, the object being primarily educational and to promote child welfare and the interests of women along every line, so every woman and girl in the parish is cordially invited and urged to join.

The officers who were elected to serve for the first year are: Miss Newell, President; Mrs. Henry, Vice President; Mrs. C. V. Porter, Secretary; Miss Gladys Breazeale, Treasurer.

### Here's For the Year 1921

While many believe the dying year is a good to be done with, because of the many perils our Nation has been subjected to from within; because of the game that has been tossed between capital and labor; because men's minds have been at sea and there has been little solid ground to stand upon, others hated to see old Father Time shake down his last few grains.

In a general way, distraction is less in the air today than it was yesterday and while re-adjustment is young, it is so strong in its youth and gives such promise of steady growth, that it is safe to assume that old levels will be reached before the swaddling clothes of 1921 are cast aside.

We hear much of post-war-reaction towards materialism but ideals have just as much vigor and life—the one has just as much chance as the other, for after all, life is largely what we make it.

So let us determine that we will try to measure up to our ideals that we will, with the new year, give free rein to our instinctive feeling that better things are ahead—that the great festival of hope is but the mile-stone cherished by us for an opportunity for self betterment, for mental and spiritual growth; for a strong community spirit and a determination that all thru 1921 to give a long pull and a strong pull and a pull altogether, for a larger, better, cleaner, more progressive Natchitoches.
