Housewives Attention!

The greatest problem to housewives is spring cleaning, not only because of its coming after all the grime and dirt of the winter, but because of being handicapped for lack of the necessary "tools with which to undertake this important work that cannot be neglected.

But the solution is at hand, due to the forethought on the part of one of our progressive establishments, the Peoples Hardware and Furniture Company, which has arranged things for the housewives so that it will mean housework subtracted from each day's labor to be spent in other ways.

It will mean a new lease on life for their carpets, rugs, mattresses, pillows, portieres, upholstery, hangings, etc., it will mean a sanitary home all the year round; it will mean thorough and efficient cleaning without backache, or physical strain of any kind, no stooping or bending, one hand can do it all, because for \$1.00 a m to 5 p m the best electric vacuum cleaner on the market can be rented from the Peoples Hardware and Furniture Company, and the house can be cleaned and cleaned thoroughly from attic to cellar with practically no effort.

Either phone 210 or call and arrange for this vacuum cleaner, and then enjoy life.

There is no large or small pest that ranks with the ant, a pest that science has been fighting for generations but has at last, after several successful tests, found a way to conquer.

It is the City Ant Poison which the government has adopted, and what ever the government puts its seal of approval on, can be depended upon as the best.

Last summer Natchitoches had its first general "visitation" from the friendly ant, which had been pestering every other section of the State, giving us a wide berth, but a few who were wise, put out the City Ant Poison sign and these busy visitors recognizing it hurried by leaving not one stray ant to enter the marked gate posts.

All that was necessary was to secure a bottle of this poison pour some of it into the sponge filled containers that come with the bottle and stand under the house. This will be testified to by Messrs. Henry Hughes, Sam Aaron, M. H. Carver and C. L. Breazeale who used it with success.

It can be had at the Peoples Hardware and Furniture Company, and now is the time to use it.

The Book Club

In spite of the torrential downpour that prevailed throughout the evening, many of the members braved it and were delightfully entertained by Miss Gussie Nelken Saturday afternoon when the beautiful Nelken home was most attractive with its decorations of wisteria a particularly artistic Marie Antoinette basket full of this graceful flower with bows of orchid tulle on the newest post in reception hall, calling forth exclamations of delight.

As each guest was welcomed she was given a picture to pin on and when paper and pencils were distributed all had to guess what books they represented.

Then a lesson was given in phonics which furnished much amusement when the letters of the alphabet had to answer the question and nearly every body cut for the prizes which were won in the end by Meses. Montgomery and C. L. Breazeale for the club and Mrs. Edna Kaffie, guest, all three being dainty handmade guest towels.

The plate luncheon was as pretty and artistic as delicious, for amidst a bunch of verbena a butterfly poised, the wings of which were sliced pineapple, with tiny spots of pinolas, body of pimento cheese, antennae of star and diamond shaped cream cheese, pim-pino and nut sandwiches, iced fruit punch, followed by cream puffs and macaroons.

Mmes. Johnson, A. and E. Kaffie were the guests who enjoyed this lovely party with the club.
