A Lovely Party

Miss Gretchen Ortmeier entertained over forty of her little friends at one of the nicest parties of the season Wednesday afternoon out on the pretty lawn of her parents' home, when all kinds of games kept them busy for a long time. In the first contest Master Robert Harmanson threw the most balls into a basket and his prize was a big stick of candy dressed like a crepe paper lady. In the second, Jack Wallace got the most balls thru holes in a beaver board, and his prize was a nice story book, while Lisa Payne sprigged the cat right on a blue bird's tail and got a pretty mesh bag, and Edgerton Pierson, the boy's prize, a baseball, and Francis Aaron drew the consolation, a candy doll.

Punch, ice cream cones, cakes and all-day-suckers were served over and over by the kind mother of the little hostess, assisted by Misses B. Levy, Suddath, Kathleen Levy and Minnie Lachs, until the little folks couldn't eat any more of the goodies, and everyone of them had a great time.

The plans and specifications for the new colored school that will be erected on the site of Lincoln Institute have all been sent in by the State department and bids for the erection of same will soon be advertised for and after the contract is awarded work will be pushed as rapidly as possible so that the new building will be in readiness for the opening of school or as soon after the appointed time as can be done.

To The Public

Men employed in our mechanical and car departments have been on strike since July 1st against the decision of the United States Railroad Labor Board. The officers and loyal employees of this company are doing all in their power to keep trains operating. If we can have that protection for life and property which the law guarantees, we will succeed. The strikers and their sympathizers, on the other hand, are doing their best, through a campaign of lawlessness, intimidation and terrorism, to prevent our operating trains. The welfare and prosperity of the communities we serve depends upon who wins. The law will be enforced if the public demands it. If the law is enforced, the railway can and will continue to operate. Trains and give that service so vitally necessary if crops are to be moved and producers and consumers alike spared the suffering and financial loss involved in a tie-up of the transportation industry.

Demand That The Law be Enforced!
