THE GREAT INVENTORY SALE

The Big Sale and Its Meaning.

This Summer Clearance Sale is the one event of the season when every department is thoroughly gone through and all small lots are culled out at reduced prices. It's the store's stock reducing time—a time when every item of surplus goods in every department is priced with the one object of closing the lots out in the shortest possible time. We prepare for it in an open-eyed business-like manner. The goods are marked with a full knowledge of the loss to be sustained, knowing that a liberal price reduction at this time means the turning into money much that might otherwise be carried to another season. We will also announce some unusual bargains recently picked up by our resident New York buyer, that no price reduction of regular goods can excel in attractiveness of price. Every article mentioned here you can use NOW. Prices are about one-half what you paid at the beginning of the season. Read carefully this circular. Then come and make your selections. It will pay you and pay you well.

Sale Begins Monday, July 8th, AND WILL END SATURDAY, JULY 27th

\$5.00 Linen Suits at \$3.00.

Sounds mysterious, this selling of such suits. No mystery though—just score once more for our resident New York buyer. He picked three lots for a song and sent them out to us. Good quality washable linen suits at \$3.00. Well made, will fit well and will not fade when washed. More could not be expected from a \$7.50 suit. Very cheap then at \$3.

Pique for Skirts 5c a yard.

Unheard of, isn't it and we wish to emphasize two facts: These goods are all fresh and perfect in every way, and are the regular 10c values. Most of them are white grounds with small colored figures, or stripe of varying widths. Some are blue, some pink, others red. All are fast colors and will not fade. The price is 5c a yard.

Duck, Pique and Crash Skirts.

An unusual offering. Always industrious and practical, the ladies of New Iberia have interfered with our calculations by making a great many of their own skirts this summer. As a result, we find we have on hand entirely too many wash skirts. We have decided to sell every wash skirt in our stock at a price less than the cost of the material unmade. That may sound extravagant, but come and test it: We don't winter any wash skirts in this store. We have untrimmed white piques; white piques with white or blue braid; pure linen crash; plain or with white or blue braid. Novelty linen skirts in checks and stripes. In fact almost any reasonable want. Of the hundreds of skirts on hand the most expensive are offered at \$1, the others for less. All our skirts that are soiled, wrinkled or otherwise damaged are offered at 25c. All the 50c grade are priced at 35c. All the 75c, 85c and 95c are now 50c. All the \$1, 1.25 and 1.50 are now 75c. All above 1.50 up to and including the 2.50 and 2.75 skirts are offered at \$1.00.

Pushing out Parasols.

We have cut the prices on the white and fancy Parasols; we cut them about half. All silk Parasols are offered for the price of a cotton one. Any color and almost any style can be found. It is a lot of samples which we bought at a big reduction and all on hand will be sold regardless of cost. There are many black ones in the lot, but the majority are colored.

Ladies Washable Shirt Waists.

We plumed ourselves this spring upon having the most extensive line of white and colored shirt waists we have ever shown; and that is claiming a great deal. The materials, the colors and the styles were the newest and most popular; and combined the additional merit of price attractiveness.

Some of these styles have been entirely closed out. Others have been sold, except a few irregular sizes. We expect to close out every one before we receive a thread of our fall goods. And this is the way we go about it: All of our 50c grades of white lawn, percale, dimity and colored lawn waists have been reduced to 25c.

All of our 75, 85 and 90c white and colored waists are now 50c. Every one of those \$1.00 and \$1.25 waists that were considered marvels of beauty at those prices, now march out to the tune of 75c.

All Silk Taffeta and Checked Nainsook.

There is a reason for everything. But we have not yet discovered how our New York buyer secured such ribbon values as we are offering during this sale. Every piece is perfect. Every piece all silk. We are offering widths No. 5, 7 and 9 at 5c a yard. And width No. 12 and 16 at 10c a yard. Width No. 22 at 10c, all silk baby ribbon 50c a spool of 50 yards each.

Little Lots of Colored Lawns, White Lawns also.

Some one has very cleverly said that "the highest ambition of every piece of dress goods is to become a remnant," proves its popularity of course. This being admitted, we have proof of the popularity of our wash goods stock. There are about 250 remnants of wash goods varying in length from 2 1/2 yards to 7 yards. The majority are colored lawns,

Short Length Embroideries.

Here's another feast for you. Our New York buyer recently shipped us 10,000 yards short length embroideries. We wish he had sent 100,000 yards. Importer, manufacturer—no body could sell such goods profitably at the prices at which we acquired them. Some one lost money in this transaction, and it's not us. Some one is going to save money by laying in a supply of these embroideries; let that person be yourself.

White Lawns, Dimities and Checked Nainsook.

168 Cases of plain white lawns were bought by our firm in one purchase a few weeks ago. Each case contained from 1200 to 1500 yards. We saved from 2c to 4c on every yard of this lot. Understand now why we can sell these 7 1/2c lawns at 5c, those 12 1/2c values for 10c and the 20c grade for 15c! No trick at all when one can buy direct from manufacturers and use big lots like this. Come share the saving which was made possible by this big purchase.

Men's Wear. Shirts and Drawers.

We have received another batch of those Scrivens Elastic Seam drawers which go in this sale at the remarkable price of 50c. We also close out all Challenge Bleached-drill Drawers at 39c. Hear that! Well don't let this opportunity pass unimproved. Here are a few more specials: Men's 50c grade silk finished brown balbriggan under shirts and drawers sold at 75c a suit during this sale.

OFFICIAL JOURNAL OF IBERIA PARISH AND TOWN OF NEW IBERIA.

CRITICISM OF THE U. S. SUPREME COURT.

Mr. Bryan's severe comments upon the recent supreme court decision have been denounced as reckless and wanton, but when it is recalled what Chief Justice Fuller and the senior associate justice, Mr. Harlan, said concerning the same decision, Mr. Bryan's comments do not appear so reckless. Justice Harlan declared from the bench that the result of the views of the majority of the court, if maintained, "will be a radical and mischievous change in our system of government. We will in that event, pass from the era of constitutional liberty guarded and protected by a written constitution, into an era of legislative absolutism." The chief justice almost outdid Mr. Bryan by saying that the majority view meant this, "to overthrow the basis of our constitutional law." When four out of nine justices manifest such opinions in the quiet, sedate atmosphere of the supreme court room, it can hardly be expected that politicians whose function it is to stir the feelings and focus the views of the people will be Chesterfieldian in their language.

It is easy to deride Mr. Bryan, but suppose you tackle Chief Justice Fuller or Justice Harlan. They are not in politics. They want no office. They aspire to lead no party. It is a serious matter if this country is on the brink of any kind of an "absolutism"—Justice Harlan's word; and it is no joke if "the basis of our constitutional law" is about to be overthrown, or already has been overthrown. If those judges were justified in speaking as they did, the use of strong language in the press or on the stump is justified. Was the cry of anti-imperialism a wanton or a foolish one—the Republican was the first newspaper in the United States to raise it—saying that four out of nine justices of the supreme court agree in the sentiment uttered by Messrs. Fuller and Harlan? Was Mr. Bryan an enemy of his country or untrue to the real interests of a democracy, in taking up the issue and assailing his opponents in the last presidential campaign because of their imperialist program? Four out of nine justices are with him in his opinion of the truth, then the anti-imperialist agitation can never cease to be proud of.

Conceding that the minority judges have some basis for their views, then the only persons, not wedded to aristocratic ideals, who in the end will be able to derive much satisfaction from their course will be those who fought consistently the entire imperialist program from its inception down to the present day. They have no reason, and never will have, to regret opposing the peace treaty, or denouncing the Philippine war, or supporting the presidential candidacy of W. J. Bryan in 1900. For they were striking their blows, unavailingly though they were, at the great critical hours of the struggle when those "necessities" were being made which have now been forged by the majority of the court into an argument for the constitutional validity of an imperialistic regime.—Springfield (Mass.) Republican.

When You Take Groves' Castoria

When you take Groves' Castoria you know that you are getting the best of everything. It is a purgative, a cathartic, a laxative, a stomachic, a tonic, which gets rid of the biliousness, the indigestion, the flatulence, the gas, the headache, the dizziness, the nervousness, the irritability, the constipation, the diarrhoea, the cholera, the dysentery, the colic, the cholera morbus, the cholera infantum, the cholera asiatica, the cholera tropica, the cholera epidemica, the cholera sporadica, the cholera endemic, the cholera exotica, the cholera importata, the cholera autochthona, the cholera indigenous, the cholera local, the cholera regional, the cholera national, the cholera international, the cholera universal, the cholera omnium, the cholera universum, the cholera totum, the cholera cunctum, the cholera universum, the cholera totum, the cholera cunctum, the cholera universum, the cholera totum, the cholera cunctum.

Lord Salisbury, in his last speech on the Boer war, says: "We are defending the king's territory against the invasion by neighbors whose international law had no complaint against us and who were merely actuated by the greed for territory and the desire of enlarging their dominions." So Great Britain went to war against the Boers merely to protect British territory against forcible invasion by the two republics! Our politics has not a little hypocrisy, but nothing in depth and breadth equalling this solemn cant from the British premier.—Des Moines Leader.

A Marriage Bureau.

New York, July 15.—The World has the following: London, July 15.—Frank S. Willard has arrived in London from New York to establish a bureau for arranging marriages between titled Europeans and American heiresses. Being interviewed to-night he said: "You would be amazed by the number of women in the United States who would eagerly change their money for socially position gained by wedding a title. We expect to do business all over Europe, but naturally a British title is the most negotiable."

It is easy to deride Mr. Bryan, but suppose you tackle Chief Justice Fuller or Justice Harlan. They are not in politics. They want no office. They aspire to lead no party. It is a serious matter if this country is on the brink of any kind of an "absolutism"—Justice Harlan's word; and it is no joke if "the basis of our constitutional law" is about to be overthrown, or already has been overthrown. THE GHOST

Of our boyhood resolved itself to an old tree when we had courage to examine it. Manhood has its ghosts, which, to the man who has courage to confront them, prove to be as harmless as the ghosts of boyhood. One of the ghosts which scare a great many people is the ghost of lung disease. But experience shows this ghost to be very harmless. In cases almost innumerable "weak" lungs have been made strong, obstinate coughs stopped, and bronchial affections cured by the use of Dr. Pierce's Golden Medical Discovery. And these cures have been wrought in many cases after the doctor had said—"There is no help for you." Don't give in to the superstition of a past age. Give the Golden Medical Discovery a fair and faithful trial. It always helps. It almost always cures.

It is easy to deride Mr. Bryan, but suppose you tackle Chief Justice Fuller or Justice Harlan. They are not in politics. They want no office. They aspire to lead no party. It is a serious matter if this country is on the brink of any kind of an "absolutism"—Justice Harlan's word; and it is no joke if "the basis of our constitutional law" is about to be overthrown, or already has been overthrown. HOUSEWORK

Too much housework wrecks woman's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Derailed menaces, leucorrhoea and falling of the womb result from overwork. Every housewife needs a remedy to regulate her nerves and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI

is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter: Glendale, Ky., Feb. 10, 1901. I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help. I washed last week and was not one bit tired. This shows that the Wine of Cardui is doing me good. I am getting better than I ever was before, and sleep good and healthy. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day. Mrs. Bessie Jones.
