LOCAL NEWS.

The opposing factions of the Drainage Commercial Canal project, have buried the hatchet and have agreed upon a plan which will satisfy all parties in interest, and all are now heartily at work to bring to a successful issue the great work which will do so much for the agricultural and commercial interests of this section. A commercial canal to the Gulf is now assured.

Owing to unavoidable delays the publication entitled "Southwest Louisiana Industrialist" and of which we wrote last week, will not be issued until the middle of next week. As has already been stated this periodical is devoted to the advancement of the material interests of this section and New Iberia in particular and will be a handbook for those seeking homes and investments either in an industrial or agricultural way. New Iberia has never done anything to bring herself before the people of the surrounding parishes, much less the people of the United States, and this publication is intended to supply that want. We earnestly solicit our citizens to become subscribers to this monthly journal which costs but 50c per annum. Send us the names of parties to whom you wish the monthly sent and they will be mailed from this office. This is a matter in which the whole community should take interest and will do more for the advancement of our prosperity than any other agency heretofore offered.

—Tradition of the ancients held that when it rained on the 8th of June, St. Medard's day, that it would rain for forty days, and if it did not rain, it would be followed by a long drought. Last Sunday was the 8th and there was not a single cloud to mar the blue canopy of heaven, not a sign to prognosticate that rain was near at hand. If the prophecies of our forefathers be true we may expect dry times, and as a precaution we would advise our friends to be sparing with their cistern water. Regardless of the prophecy regarding the 8th of June, there is every indication of a drought from the present signs of the times, we hope though, that our forecasts will fail. Rain is now needed to refresh and give vigor to the promising crops that appear everywhere. A drought at this time would result in great damage to our planters. There are some who may be ignorant of the reason why it is said that it rained on the 8th of June it would rain forty days. Tradition claims that it was on that date that the great deluge overflowed the earth, when the floodgates of heaven were opened and rain fell upon the earth forty days and forty nights and destroyed every living thing upon the earth, as recounted in Genesis, Chap. 7. The calendar of those days no one knows on what day or month the deluge commenced.

—Quite a flutter was created among our retail dealers by the recent true bills of the Grand Jury, which reported over fifty violations of the Sunday law, not all of which were saloon keepers. The aggregate of fines will be a handsome addition to the school fund. Not all were fined alike as Justice was tempered with mercy and the violators ability to pay had something to do with the case. Mutual congratulations were extended as the different violators compared notes. Whether or not the Sunday law is a just one, is a matter for discussion, but one thing is certain, as a school fund producer, it has no equal, and there is no doubt the fine is paid with a better grace knowing the good use to which the money will be put.

—We have a most promising stalk of cotton from the crop of Mr. J. F. Chissano, this parish. It is about four feet in height and covered with forms and blossoms, and is a fine stocky plant about 1/2 inches in diameter at the ground. The recent rain will help all the crops, especially cotton.

—Our energetic merchant, Mr. E. J. Carstens, has just returned from a visit to Morse, La., the guest of his son, Dr. W. F. Carstens, where his prophetic soul has been much disturbed by the activity and energy displayed by the people of that section. Their various industries are forging ahead and riding on the waves of prosperity. The tireless energy of the western man and his business methods had the effect on Mr. Carstens of stimulating him to greater effort here at home, with a hundred fold better advantages. So look out for E. J., for he is loaded from now on and will advocate progression, canals, manufactures, business expansion, etc.

—On Wednesday afternoon a most welcome rain came to gladden the hearts of our agriculturists. It occurred about four o'clock and was accompanied with considerable wind and hail. The wind did some damage, unroofing the opera house and the rice mill and breaking down trees and fences, but no great damage was done. The heavy rain which followed was of incalculable value to all the crops.

—The Satterfield Cotton Gin Co. of West End have completed the installation of their plant, which is now one of the most complete in this section, everything being brand new and of most modern pattern. The company is ready or nearly so, for the new crop, and will get its share of the "fleece" when the time comes, if business qualities, good treatment and cash basis can avail.

We respectfully request all persons wishing to do business with us to address Advance Thresher Co., Crowley, La., as we are not represented by Jas. W. Wyeche.

—This community was greatly shocked by the news of the death of Miss Anna Harlow Sampson, which occurred at Beaumont, Texas, on Tuesday last. The remains of the beloved young lady were met at the depot and escorted to the Episcopal church, where the sad obsequies were conducted by her pastor Rev. C. C. Kramer, who spoke feelingly of his young parishioner. General sorrow and grief were expressed, in some instances uncontrollable. Miss Sampson was born October 22d, 1870, and was consequently nearly 22 years old. She was the daughter of Mr. Junius Sampson, at one time a large planter here, owning the Marshfield plantation, but now a resident of Beaumont, Texas. The deceased was universally popular, as the great number of sorrowing young people who attended attested. To the parents and relatives we offer our sincerest sympathies.

—An oil company has been formed in St. Martin parish for the purpose of developing the oil indications recently observed in the plantation of Messrs. Satterfield and Staley, an account of which caused considerable excitement a few weeks ago. A good sum of money has been raised for the purpose and boring will be commenced as soon as the machinery and materials can be got on the ground, which will be some time next week. Mr. Fournet the promoter is now in Texas for that purpose.

—Our readers will notice the advertisement of Mr. W. H. Degeneres, who will furnish our householders and employers of labor with help of every description. This bureau will be of great help and convenience to everybody and by registering your wants with him, you get employment or an employee as the case may be. To our lady readers in getting servants this will be a great convenience. We commend the enterprise.

—The good sisters of Mount Carmel convent are making preparations to hold their annual commencement exercises on their beautiful grounds on the 24th inst., when a number of pupils will be awarded diplomas and medals from this popular institution of learning. As usual, it will be followed by an interesting program in which many of their bright pupils will participate. Doors will be thrown open to the public at 7 o'clock, P. M.

—A very pleasant and enjoyable birthday party was given at the home of Mr. John Angers over the Bayou, (Brooklyn) last Sunday afternoon. The occasion was the natal day of Robert and Rose Angers. About forty-five girls and boys were present, who enjoyed themselves immensely in games and songs and other innocent amusements. Delicate refreshments of cream, cake and lemonade was served and relished by all. Many presents were made to Robert and Rose, not so great in value from a financial point, but rich in love and friendship. The happy ones departed about 8 o'clock, having enjoyed themselves very much. Miss Etta Angers was the genial, thoughtful hostess, who made the affair a success.

—Last Sunday was witnessed by about two hundred people at the Iberia Park grounds the base ball contest between the Senior Club of this city under the captainship of Mr. Albert Ribbeck, and the Opelousas Club. The Iberia boys deserve special credit for their good work in defeating their opponents, which was won by a score of five to three.

Anything in the stationary line can be found at all times at the Enterprise News Store.

—The past week has been one of heat, as high as 98 degrees has been observed on the local thermometers. Luckily the hot wave was broken on Wednesday last by a generous rain, accompanied with considerable hail which cooled the atmosphere decidedly. One compensating condition is the delightfully cool nights permitting refreshing sleep. The crop prospect still continues good, slightly improved by the recent rains, which was especially beneficial to the rice crop, on which it was beginning to be a serious problem to keep water, owing to the rapid evaporation.
