WITHOUT AN ISSUE.

We note that the leading spir-
its of the Lily White Republicans
say that they propose to make a
fight at the Congressional election
next November. It is right that
they should try to keep up their
organization, and to make some
sort of attempt to poll a respectable
vote at the coming election. They
have to do this, or lose favor with
the national administration. It is
necessary, if they wish to retain
the federal patronage.

But it is the idlest kind of prate-
to say that they will carry even a
small corner of any of the con-
gressional districts, for they have
not a single inducement to offer the
voter.

The tie, the only tie that bound
together this little band of gen-
tlemen politicians, was woven out
of a shadow in the first place.

They united while under the im-
pression that it was a case of self-
preservation, with the Republican
party their only friend and pre-
server. With this belief and all
of the enthusiasm of the newly
converted, and a good campaign
fund, they succeeded in convincing
a few of the voters. Not many, it
is true, but more than they could
expect, now, with all of their prop-
erly knocked from under them, and
surrounded as they are by great
piles of experience's withered leaf-
lets. The enthusiasm is gone—
stung to death by a veritable hive
of ought-to-bees, and it ought to be
disheartening for even the optimists
of the party to think of the
dread confusion that will come
when their campaign orators at-
tempt to reconcile the ante-mortem
promises of the Republican party
with a few important post-mortem
truths.

Truths are truths, and twist
thing and turn them as you will
the following truths will appear
and reappear during the coming
campaign to chase away any plan
of the Republicans to convert this
section.

1st. A Republican administra-
tion aided by the prominent Re-
publican leaders of Congress in-
cluding Hanna and Quay, attempt-
ed to force reciprocity with Cuba,
in spite of the protestations of the
sugar people, and every assurance
from the sugar interests of the
United States that said reciprocity
would ruin the domestic industry.

2d. The Republican administra-
tion would have carried out its
scheme but for the strong oppo-
sition of many of the Democrats
in the House, and the unanimous
opposition of the Democrats in the
Senate.

Those are important facts in the
case, as far as the sugar protection
feature is concerned. They can't
be denied, nor can they be twisted
into any shape that would fool the
voters.

It doesn't take a politician to
understand how easy it might be
for the Lily Whites to butt them-
selves to death against the flint
like wall of facts they will have to
“go up against” next November.

They will be placed in a startling
position.

Surely, they are in a position
where they cannot endorse the
sugar policy of the national admin-
istration. To do so would offend
the people who depend on the con-
tinued existence of the domestic
sugar industry. Not to do so might
offend the Republican powers that
be.

They can't consistently attack the
Democrats for their friendly action
in the interest of the sugar pro-
ducer. Not to do so would be a
tacit admission that the Democrats
acted entirely proper and right.

It is not possible for the Lily
Whites to evolve a winning issue
out of the present political situation
and on the other hand, it will re-
quire a fine display of sagacity on
the part of its guiding lights to
keep the organization from com-
plete disruption.—Houma Courier.

Repulsive Features.
Blackheads, pimples, greasy faces and
muddy complexions, which are so com-
mon among women, especially girls at a
certain age, destroying beauty, disfiguring
and making repulsive, features which
would otherwise appear attractive and
refined, indicate that the liver is out of
order. An occasional dose of Herbine
will cleanse the bowels, regulate the liver,
and so establish a clear, healthy com-
plexion. 50c at Estogre Drug Co.

It is hardly worth your while to
resolve to do a thing, unless you
take next step and proceed to do it.

SECRETS

At the Price of Suffering.

Women on their way to tend invalidism caused
by poverty suffer much pain and sorrow.
Eyes are prompted to suffer alone in illness,
and remain in the dark as to the true cause
of their trouble.

My dear friend, take the doctor's place of her
side, and she has no occasion for an interview. She
has her own doctor, and her modesty is protected.
Daily application over the region of the
breast and above the abdomen, throughout preg-
nancy, will enable her to undergo the period of
confinement in a cheerful mood and not un-
dermined.

Mother's Friend

is a Liniment, and for external use only. It is
aborient and will not stain women's pretty
fingers. It would indeed be shameful if the
sufferer of modesty were necessary to the suc-
cessful home of healthy children. All women
about to become mothers need need only to
use a drop and for \$1.00 secure the price child
birth remedy.

Secret maternity medication and healthy
babies are the result of the use of Mother's
Friend.

Our book "Motherhood" mailed free. All
THE BRADFIELD REGULATOR CO.,
ATLANTA, GA.

BAVOU TECHE DAMMED.

Hon. Jules Simon, of St. Martin,
who arrived in the city last night
and quartered at the Commercial,
brings an interesting story from
home which may have a New Or-
leans end to it. St. Martinville,
like all the rest of the state, has
suffered severely from the drought,
and many of the smaller streams
in that neighborhood have run dry.

Those living near bayou Teche
have had plenty of water until re-
cently, when it was discovered
that the bayou was running dry.
Though about 50 feet wide at St.
Martinville, and usually having
about 8 feet of water in it, it now
has only little over a foot, and three
miles above town it is dry.

The people began to worry, and an ir-
rigation pump had to cease opera-
tions. There was an investigation,
which resulted in the discovery
that an enterprising lumberman
forty miles up the bayou had dammed
the bayou. This man is named
Zegel, and he owns quite an exten-
sive saw mill plant near Port Bar-
rie. This is situated in the south-
ern part of St. Landry parish.

The people of St. Martinville did
not think it right that he should
deprive them of water supply, so
last Sunday a committee of citizens
went up to Port Barrie to wait upon
Mr. Zegel and ask him to cut his
dam. This he positively refused
to do. They returned home dis-
appointed, but not daunted. It is
against both the federal and the
state laws to dam or obstruct a
navigable stream, so a complaint
was written and forwarded to the
secretary of war, asking him to
have the dam removed. A letter
was also sent to Hon. Lee Garland,
district attorney of St. Landry
parish, requesting him to take the
proper steps.

Though Mr. Simon came down
here on private business, he said,
last night, that he would call on
United States District Attorney
Howe this morning and see if some
relief could not be granted his
people.

Mr. Simon says that there are
about 18,000 acres planted in rice
near St. Martinville, and it is a
magnificent crop. It has had
plenty of water from bayou Teche
until recently, and, consequently,
has thrived. The people are hop-
ing to secure a good price for their
crop, as the crops in Vermillion
and lower Acadia have suffered
severely and a good shortage is
looked for.—Picayune.

that remedy that cause a cold in one day

THE POWER OF A NEWSPAPER

The power of a newspaper to aid
a town is well recognized in some
communities and they show it by a
liberal support. As cases in point:
Kaplan is a small town on the
Abbeville Rayne branch of the S.
P. railroad, which has just been
started. To assist in building up
the town a paper was felt to be a
necessity, and so the residents
subscribed \$5000, to start one.
The same thing was done at Esther-
wood, a small town near Crowley.
Crowley was started the same way,
and the people know that their
confidence in printer's ink is not
unwarranted. That is why they have
always supported their papers and
they have two splendid ones be-
cause they are supported. Two
weeks ago the Crowley Signal was
organized as a stock company with
a capital of \$50,000, and the Crow-
ley News, which we consider one
of the brightest papers in the
country, is also backed by heavy
capital. In the towns of Breaux
Bridge the merchants showed their
hearty appreciation of their paper
by signing an agreement to patron-
ize only those wholesale houses
that give their local paper an ad-
vertisement. Such practical sup-
port given to home papers is more
than repaid by the papers which
all do much and often for the up-
building of their homes. The
people of Lafayette should like
other progressive towns remember
the many services that their papers
render the town, and on all occa-
sions, give their home papers their
hearty support, financially and
otherwise.—Lafayette Advertiser.

HEAD ACHE

"Both my wife and myself have been
using CASCARETS and they are the best
medicine we have ever had in the house. Last
week my wife was frantic with headache for
two days, she tried some of your CASCARETS,
and they relieved the pain in her head almost
immediately. We both recommend CASCARETS."
CHAS. STEINBOCK,

PROMISES OF DEAD SEA FRUIT.

Quite an animated discussion is
now going on over the question
whether the administration's "war"
on the trusts is a bluff or not. We
do not care what it is called, but
we do know that it is a lame and
impotent undertaking, productive
of no results. Mr. Roosevelt's
programme is to have bills passed
by congress which insure publicity
of the proceedings and business of
trusts, and which make a combina-
tion in restraint of trade a felony.
It is announced that he will have
these bills passed by the present
congress at its next session. This
may or may not be a bluff, but if
there is any one thing politically
certain, it is that this congress will
do nothing of the kind. Why do
we say this? For the simple reason
that the Republicans have had
control of congress for more than
five years, and they have defeated
the very measures which President
says he will have introduced. In
the Fifty-sixth congress, an effec-
tive amendment to the Sherman act
embodying the very suggestion
Roosevelt now makes, passed the
house, but passed under the Mistle-
toe Bough in the senate and was
smothered in the old attic chest.
We should like to ask those who
believe in the president's sincerity,
what good it would do to pass a
law making the formation of trusts
a felony, when according to a law
now on the statute books it is a
penitentiary offense, and this same
president waives entirely the criminal
prosecution of the trust fellows,
and in a ladylike manner merely
has them enjoined? They care
about as much for an injunction as
a sailor cares for rain.

It is understood that all schemes
for bringing Cuba into the fold of
the Union include the annexation
of General Gomez, though he will
be something in the nature of a
luxury.

Don't Fail To Try This.

Whenever an honest trial is given to
Electric Bitters for any trouble it is re-
commended for a permanent cure will
surely be effected. It never fails to tone
the stomach, regulate the kidneys and
nerves, stimulate the liver, invigorate
the bowels and purify the blood. It's a won-
derful tonic for run-down systems. Elec-
tric Bitters positively cures Kidney and
Liver Troubles, Stomach Disorders, Nervi-
ousness, Sleeplessness, Rheumatism,
Neuralgia, and expels Malaria. Satisfac-
tion guaranteed by Estogre's drug store.
Only 50 cents.

Pretty

Is an adjective which seems to be
dominated by the young lady at
the typewriter. It is astonishing what
an array of beautiful women are found
in stores and offices. In fact, the
typical American beauty will be
found sitting at the typewriter, rather
than bolting in a carriage in the park.

And yet this pretty young girl
needs always to be reminded that
"beauty is only skin deep," unless it
roots in health. When the health is
undiminished by womanly diseases,
the luster soon passes from the eyes,
the cheeks grow thin, the body loses its
plumpness.

Dr. Pierce's Favorite Prescription
cures "blacks," which weaken women
and which destroy their strength and
beauty. It establishes regularity, stops
weakening drains, heals inflammation
and ulceration and cures female weak-
ness.

"Several years ago I suffered severely from
female weakness, prostrated and emaciated,
and aged by Pierce's Favorite Prescription
with its old effect," writes Fannie Fishburn, of Wash-
ington, Iowa. "I had not been well for a
few years past but if I should ever have any re-
turn to my former health, I will give you the
Prescription." I have recommended it to a
number of my friends, and they all agree
to try a bottle and if they are not benefited
I will pay for the medicine. In every case
I have had it in the price of 25c.

Dr. Pierce's Pleasant Pellets cure sick
headache.

HUNDRED MILES A DAY.

New York, July 20.—The Abiel
Abbott Low, a thirty-eight foot
launch equipped with a kerosene oil
engine and in which Capt. Henry
Newman, a well known New Eng-
land boatman, accompanied by his
sixteen-year-old son, sailed from
College Point, L. I., on July 9 on a
three thousand mile voyage to
Palmouth, Eng., was reported hav-
ing been spoken by the French bark
Tourville from Nantes and the
American liner St. Louis from
Southampton and Cherbourg, which
arrived here today. The little boat
exchanged colors with the big liner
on July 18 in latitude 41.34 north,
longitude 55.35 west. The two oc-
cupants seemed to be in the best of
spirits and waved their caps to the
officers and passengers of the St.
Louis. Capt. Newman, before
sailing from this side, said he ex-
pected to reach England in less
than thirty days. In the nine days
he had been to sea when sighted
by the St. Louis, she had covered
approximately a distance of 875
miles—almost a hundred miles a
day—at which rate she would reach
her destination, if no mishaps be-
fall her, in a month's time.

Kodol

Dyspepsia Cure

Digests what you eat.
This preparation contains all of the
digestants and digests all kinds of
food. It gives instant relief and never
fails to cure. It allows you to eat all
the food you want. The most sensitive
stomachs can take it. By its use many
thousands of dyspeptics have been
cured after everything else failed. It
is unequalled for the stomach. Child-
ren with weak stomachs thrive on it.
First dose relieves. A diet unnecessary.

Cures all stomach troubles

Prepared only by E. C. DeWitt & Co., Chicago
The St. Louis contains 2 1/2 times the local dose.

There is every reason to believe
that the Philippine friar lands
question will be precipitated into
the coming campaign by the insis-
tence of the American Mission at
Rome that the Vatican order the
withdrawal of all Spanish friars
and monks from their parishes.
Governor Taft appreciated the ef-
fect which the attitude of the Ad-
ministration toward the friars
would have upon the Catholics in
this country, for in a report to the
Secretary of War he deprecated the
political interest in the controversy.
"It is unfortunate," he said,
"that the public should clothe the
settlement of an issue purely legal
with political significance, when it
ought not to have and does not
one."

The Perfect Liver Medicine.

Mrs. M. A. Jolley, Fable, O. T. writes:
"I have used Herbine for a number of
years, and can cheerfully recommend it
as the most perfect liver medicine, and
the greatest blood purifier. It is a medi-
cine of positive merit, and fully accom-
plishes all that is claimed for it." Malaria
cannot find a lodgment in the system
while the liver is in perfect order, for
one of its functions is to prevent the absorp-
tion of fever producing poisons. Herbine
is a most efficient liver regulator. 50c at
Estogre's drug store.

Why the mosquitoes fool around
women's open-work stockings so

GUILLOTINE MUST GO

The guillotine seems to be
doomed. A war of words now
waging in the Senate threaten to
extricate capital punishment, and
with it France's grim and blood-
stained instruments of public ven-
geance.

The crisis was brought on by the
case of a man named Bideaux,
condemned by the Courts to death.
Formerly the place of execution
was
