OIL IN IBERIA.

While the country all around us is being prospected for oil and in some cases with flattering success, Iberia parish has as yet taken no decisive steps to find out whether the valuable fluid is beneath our domain.

The letter in yesterday's Times Democrat from New Iberia indicates the point where the brick struck.

The question now is: Will the Lily Whites remain with the Republican party? Suppose the President carries out his Cuban policy, as regards the tariff on sugar from that country, to the injury of the Louisiana sugar planters.

Fortune Favors A Team. "Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennerly, Tex., "and soon felt like a new man."

A MORAL FROM REAL LIFE. The case of Mrs. Dauphin of New Orleans, reported in the papers from time to time, carries with it the old moral as to the wages of wrong doing and demonstrates anew that the sin finds out the sinner slowly, it may be, but surely, with an inevitableness which the most adroit can elude.

Mrs. Rose La Blanche Dauphin was the widow of Maximilian Dauphin, for many years a high official of the Louisiana Lottery company. Eleven years ago her husband died and left an estate valued at \$100,000.

At a meeting held in the office of Messrs. Broussard, Dulany & Broussard, a number of citizens met to discuss the plans of the establishment of a school in East End of the Corporation.

At a meeting held in the office of Messrs. Broussard, Dulany & Broussard, a number of citizens met to discuss the plans of the establishment of a school in East End of the Corporation.

Superintendent L. O. Hacker, president; Messrs. Henry Smith, Hon. A. N. Muller, Mr. E. Broussard, X. F. Herpeche, Prof. Wilcox, L. T. Dulany, John T. White and others were in attendance.

Here is a case for a writer like Balzac, for a romance of society in which the pen shall be used as a scalpel. True stories of real life, like stories of imitation, carry with them their moral.

Summer complaint is not always brought about by change of air and water. The stay-at-homes are just as susceptible to diarrhoea; due, generally, to over-eating, to unripe fruits, etc., and drinking ice water, all accompanied by painful bowel discharges; and, if not checked, results seriously.

Raised From the Dead. C. W. Landis, "Porter" for the Oriental Hotel, Clamato, Kan., says: "I know what it was to suffer with neuralgia dead I did, and I got a bottle of Ballard's Snow Liniment and I was 'raised from the dead.'"

Does the law of any state recognize the strike situation as it is? If not, why not? Strikes are common and older than the common law.

For Sale—Residence, St. Peter's street. Five bed rooms.—R. S. MAHON.

CASTORIA. The Kidney and Bladder Regulator. Sold Everywhere.

LOUISIANA REPUBLICANS.

Gloster, Miss., Sept. 15, '02.

They say if you throw a brick into a crowd the fellow who gets hit is sure to howl. This is as sure as a law of nature.

Now, Mr. Money did not mention the Lily Whites in his interview concerning the growth of the Republican party in the South, and the Lily Whites should be the last people on earth to take exception to what he said—that is, in public.

The letter in yesterday's Times Democrat from New Iberia indicates the point where the brick struck.

The question now is: Will the Lily Whites remain with the Republican party? Suppose the President carries out his Cuban policy, as regards the tariff on sugar from that country, to the injury of the Louisiana sugar planters.

Fortune Favors A Team. "Having distressing pains in head, back and stomach, and being without appetite, I began to use Dr. King's New Life Pills," writes W. P. Whitehead, of Kennerly, Tex., "and soon felt like a new man."

SAFE OIL TANKS. J. J. Paquette, of New Orleans, announces that he has invented a device that would insure against the explosion of an oil tank, rendering comparatively safe what is now generally considered dangerous.

SAFE OIL TANKS.

J. J. Paquette, of New Orleans,

announces that he has invented a device that would insure against the explosion of an oil tank, rendering comparatively safe what is now generally considered dangerous.

Mr. Paquette applied for his patent on February 6, 1902, and it was granted on June 17, 1902. The feature of Mr. Paquet's device is a lid which rests in flanges, and is made air-tight by means of water or other liquids placed in the groove.

The lid is perfectly free, so that the exertion of certain amount of pressure beneath will hurl it aside. All oil tanks are supposed to have domes at the top, and the lid is placed on the top of the dome.

The device is so simple that the wonder is that it has not long been thought of, but the same can be said about almost all important inventions.

A Liberal Offer. The undersigned will give a free sample of Chamberlain's Stomach and Liver Tablets to any one wanting a reliable remedy for disorders of the stomach, biliousness or constipation.

OSTYER DEALERS KICK. New Orleans, September 17.—The constitutionality of the new oyster law passed at the recent session of the legislature has been attacked in the courts.

Article 230 of the constitution of Louisiana provides: There shall also be exempt from parochial and municipal taxation, for a period of ten years, from the 1st day of January, 1900, the capital, machinery and other property employed in mining operations and in the manufacture of textile fabrics, yarn, paper, cordage, leather, shoes, harnesses, saddlers, hats, clothing, flour, machinery, articles of tin, copper and sheet iron, agricultural implements and furniture and other articles of wood, marble or stone, soap, stationery, ink and paper, boat building and fertilizers and chemicals; provided, that no less than five hands are employed in any one factory.

Article 230 further provides: There shall be exempt from taxation, for a period of ten years from the date of its completion, any railroad, or part of such railroad, that may hereafter be constructed and completed prior to Jan. 1, 1904; provided, that when aid has heretofore been voted by any parish, ward or municipality to any railroad not yet constructed, such railroad shall not be entitled to the exemption from taxation herein established, unless it waives and relinquishes such aid or consents to a re- submission of the question of granting such aid to a vote of the property taxpayers of the parish, ward or municipality which has voted the same, if one-third of such property taxpayers petition for the same within six months after the adoption of the constitution.

DESPERATE DYNAMITER.

Seattle, Wash., Sept. 18.—A special to the Times from Skagway, Alaska, says: About 3 o'clock yesterday afternoon an unknown man walked into the Canadian Bank of Commerce carrying a revolver in one hand and a dynamite bomb in the other and demanded \$20,000, threatening to blow all in to eternity.

Cashier Pooley and Teller Walkie were the only men in the bank. Walker ducked to get his gun and run back of the room, yelling to Pooley to do the same.

"No, you don't!" yelled the man, and dropped the bomb. The clerks had just gotten out of the window. The bank was wrecked. The robber's head was smashed and one arm blown off. People living above the bank were blown into the air.

J. G. Price, formerly prosecution attorney, who was entering the bank at the time, was hurt, but not seriously. The dynamiter died without regaining consciousness. The bank lost \$1000, chiefly in gold dust, which was lying on the counter.

PAPER MILLS COULD BE OPERATED WITH RICE STRAW AS A RAW MATERIAL. "The day is not far distant when mills will be established in Louisiana for the purpose of manufacturing wrapping paper out of rice straw. When that time comes the hundreds of millions of pounds of straw that is now burned and destroyed in different ways will net the Louisiana planters thousands of dollars."

The speaker was J. W. Prentiss, at the St. Charles Hotel, this morning, says the New Orleans Times. He has just returned from Southwest Louisiana, where he owns nearly 20,000 acres of yellow pine timber land.

Mr. Prentiss lives in Bangor, Me., where he is extensively engaged in the sawmill industry and lumber business.

"Up in my State," continued the speaker, "the paper mills are practically putting the lumber men out of business, and compelling them to seek other sections of the country, and it is only a question of time until they will invade the South. Already the paper men have learned the value of bagasse for the manufacture of paper and recent experiments have proven the value of rice straw. The invasion will prove so costly to the State. At the present rate paper is manufactured the time is bound to come when the paper men will have to look for something else other than trees containing large pulps. Trees of the South are not as suitable for paper as those in the North; at least they do not grow in great forests like the spruce in Maine, for instance. Of course you have lots of trees here suitable for making paper, but they are so scattered that the cost of gathering them would be enormous. Naturally, therefore, when the paper industry starts in the South bagasse and rice straw will be the material used. Take Calcasieu parish, for instance, where my timber lands are located, there are no less than 2000 tons of rice straw to the acre wasted every year. This could be utilized with much advantage by a paper mill."

DEMAND OF ADMINISTRATION. SUCCESSION OF HOSMER HECTOR. State of Louisiana, Parish of Iberia, 19th Judicial District Court.

Whereas, Joseph Moses, a resident of Iberia Parish, has applied to the Hon. the 19th Judicial District Court, holding sessions for Iberia Parish, to be appointed Administrator of the above entitled and numbered Estate.

Notice is therefore hereby given, to all whom it may or doth concern, to show cause, if any they have, within ten days from the first publication hereof, why the prayer of said petitioner should not be granted.

Witness the Hon. T. Don Foster, Judge of said Court, this 18th day of September, A. D. 1902.

A. J. MAUMUS, Deputy Clerk.

Kodol Dyspepsia Cure

Digests what you eat. This preparation contains all of the digestants and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspepsias have been cured after everything else failed. Is unequalled for the stomach. Children with weak stomachs thrive on it. First dose reliever. A diet unnecessary.

To Cure a Cold in One Day. Take Laxative-Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Cures all stomach troubles Prepared only by E. C. DeWitt & Co., Chicago The St. Louis Dispensary, since the Dec. 1st
