

LOUISIANA NEWS.

Baton Rouge, La.: The executive committee of the Board of Supervisors of the Louisiana State University met in the governor's office with the following gentlemen present: Gov. N. C. Blanchard, Henry L. Frugia, George Hill and Col. Thomas D. Boyd. The object of the meeting was to fill certain positions in the faculty provided for by the board at its last meeting.

Dr. Bennett is a native of West Virginia; was graduated at the Peabody Normal College at Nashville in 1889; received his M. A. degree at the Leland Stanford University, California, in 1896, and his Ph. D. degree at Columbia University, New York, last June. Dr. Bennett has had wide experience as an institute lecturer and as teacher in schools ranging from the country school to the university.

When the rolls first began to come in the increased assessment led many persons to believe that the assessment for this year would go considerably beyond the \$3,000,000 mark. Up to the present time twenty-four of the fifty-nine parishes of the state have sent in their assessments, including among which are New Orleans and Calcasieu—from which the heaviest increases were expected and received—and the total increase of these twenty-four parishes is only \$3,914,000.

General Agent of the Southern Pacific Railroad Company has just returned from a tour of the route of the proposed road from Lafayette to Port Allen, and announces that practically the entire route of way has been promised and that the formal transfer of the property will be made in the course of the next few weeks. The fifteen or twenty miles of the road to be laid in West Baton Rouge parish will pass through the property of twenty-one land owners, and all of these have signed their willingness to have the road on their lands.

The Board of Control of the state penitentiary has received a report of the death of George McQueen, a convict on Angola penal farm. McQueen was formerly a minstrel man and writer of popular songs. Becoming estranged at his wife about two years ago, he threw vitriol in her face, for which he was convicted and sentenced to seven years' imprisonment. During the two years spent in servitude he has made a model prisoner. He was in charge of the plantation warehouse on the river front. The fact that he died of fever, after having been associated at various times with steamboatmen out of New Orleans, caused some uneasiness on the farm, but a close examination of the case by Drs. Dushie and Barrow resulted in a diagnosis of malaria fever.

Alexandria, La.: Leroy Anderson, a negro boy, sixteen years of age, has confessed to being engaged in the daylight robberies which have occurred here frequently of late, and has implicated several others, who will be arrested. Anderson has been placed in jail. The connection of Anderson with the robberies was brought about by a Mexican silver dollar which had been stolen from the office of H. H. Chase, secretary of the Progressive Union.

The contract for the power house of the Alexandria street railway has been let to G. A. Motherhead, a contractor and builder of this city. It will be seventy by eighty feet in dimension, and will be located on lots in the Wyano addition to Alexandria. It will be completed in six weeks. Engineer G. W. Borde of New Orleans, who will superintend the construction of the street car line, will arrive here as soon as possible.

Devers, Texas: There was a light rain here yesterday, which will benefit the rice, sweet potatoes and garden truck, but more rain is needed.

Letter issued to Parents. Covington, La.: St. Joseph's College at Covington has issued the following to parents and guardians of students of the college:

Since yellow fever has never been known to spread within the ozone belt of St. Tammany parish, the Benedictine Fathers have decided to open their institution on Sept. 14. Students may enter on and after that date, provided they comply with the following regulation: Pupils coming from infected places or stopping on their journey for a day in New Orleans, must, previous to their entering the college, stay during seven days in any of the towns of St. Tammany parish, viz: Sibleff, Pearl River, Abita Springs or Covington. This precaution has been deemed necessary to preclude the possibility of developing the fever after their arrival, and to safeguard the students who have already entered the college.

NO ARMISTICE TILL TREATY SIGNED LABOR'S INNING.

Japan Insistent and Russia Expresses Surprise, Claiming Action Is Without Precedent.

Portsmouth, N. H., Sept. 1.—Japan has refused to consent to the cessation of hostilities until the treaty of peace has been signed. The Russian plenipotentiaries, accompanied by their secretaries, called on Baron Komura and Mr. Takahira shortly after noon yesterday and were in conference with them for half an hour. Japan having indicated Thursday night, through Baron Komura, her willingness for an armistice, M. Witte supposed that yesterday he would find them ready to sign. Baron Komura explained that while his government was ready to consent to an armistice, his instructions were that this should not take effect until after the signing of the treaty. The discussion lasted for half an hour, the Russian position being that Japan's contention was without precedent, and that if the armistice was not to take effect until the signing of the treaty it was practically unnecessary. However, the Japanese were insistent, and an agreement was accordingly entered into providing for an armistice which shall take effect the moment the treaty is signed. Mr. Sato, in explaining Japan's insistence that the armistice shall not go into effect until the treaty is signed, said: "It is necessary that not only the commanders of ships, shall be notified, commanders of ships, shall be notified, this necessarily requires a little time. Japan did not desire to have the armistice to go into effect until the commanders on sea and land had been notified, thus insuring the maintenance of the agreement."

CHINA BLOCKS GAME. NOT SANCTIONED BY CHURCH

Imperial Boycott Placed upon the Boycott by Edict. Oyster Bay, Sept. 2.—China has placed the boycott of American products under an imperial ban. An edict has been issued by the Government commanding Viceroy and Governors of provinces to take measures for the suppression of the boycott and holding them strictly responsible. The State Department has received a cablegram from Minister Rockhill giving a summary of the edict. The cablegram was forwarded immediately to the president and by his direction Secretary Loeb made it public yesterday.

The text of the cablegram follows: "An imperial edict published today shows that the long and deep friendship has not been tried as now. The United States Government promised to revise the treaty and people should cheerfully await action of both Governments. Boycott is wrong and harming friendship. The imperial edict holds Governors and Viceroy personally responsible. Shanghai yesterday reported the situation improving. Will undoubtedly do good."

Alamo Deeds Filed. San Antonio, Texas: At 10:40 o'clock yesterday morning Floyd McGowan, attorney for Miss Clara Driscoll, filed for record in the office of the County Clerk of Bexar county the deeds from Miss Driscoll to the State of Texas, conveying the Alamo. There were eleven instruments in the title, embracing affidavits as to corners, disclaims from persons but remotely interested and deeds from several owners. Miss Driscoll is out over \$2,500 of her own money in the purchase of the Alamo for the State, besides a great deal of time and effort.

Woman Arrested. Nacogdoches, Texas: Sheriff Buckner arrested and placed in jail a white woman last night by the name of Mrs. Bernie Lambert on a charge alleging that she had violated the local option law and that she has been working with Acree and Galloway, who are in jail on a similar charge.

The woman is quite young and is very pretty. They were bound over to the full term of court, but they have not yet made bond.

New Case in Pensacola. Pensacola, Fla.: One new case of yellow fever developed yesterday. The victim is George Dansey, a young man who came here one week ago from Marianna and secured employment in the district where the fever developed later. He was taken ill Sunday, and Dr. Gutierrez last night pronounced it a mild type of the disease. One patient, W. J. Abell, died early yesterday morning.

The Fever Situation. New Orleans, La.: Sept. 2.—Report to 6 p. m. yesterday: New cases, 99. Total to date, 1,358. Deaths, 4. Total deaths, 281. New foci, 10.

Negro Lynched by a Mob. Rosette, Miss.: Word has reached here that a negro named Bees has been lynched by a mob near the Leake plantation. The negro was charged with attempted criminal assault upon a white girl.

State Printer Resigns. Austin, Texas: Em S. Hughes, for many years State expert printer, resigned yesterday to become general superintendent of the State Printing Company. His successor has not been selected. Hughes made a splendid record.

Briquette Factory Burns. Stockton, Cal.: The Tesla briquette factory and coal bunkers, located on the water front in the western part of the city, have been destroyed by fire, entailing a loss of about \$50,000.

Examiners Meet at Caldwell. Caldwell, Texas: The county board of examiners, composed of Profs. J. W. Smith, Frank Kadanks and Mrs. A. B. Duckworth, convened yesterday morning and there are five white and five colored applicants for certificates to teach taking the examination.

Cuero Schools Open Sept. 11. Cuero, Texas: The public schools open here on the 11th of September with greatly increased facilities in many respects to meet the necessary and growing demands.

LABOR'S INNING.

LABOR DAY PARADE IN NEW YORK IN THE RAIN.

DAMP NO HINDRANCE TO THEM.

Central Federated Union Had to Issue an Order to Keep the Waitresses From Tramping in the Rain.

New York, Sept. 5.—Fifteen thousand workers marched under streaming umbrellas in New York's Labor Day parade yesterday. Although the rain poured with tropical precipitation, only strict orders from the union leaders prevented an even larger number from wading the deep puddles which collected on the asphalt on upper Fifth avenue. The members of the Waitresses' Union, who had prepared to march attired in white dresses and shoes and carrying parasols, were so determined to march in the parade that it required a decree of the Central Federated Union declaring that it was not becoming for women to tramp in sloppy streets, to deter them.

Fine Day in Chicago. Chicago, Ill., Sept. 5.—Ideal weather conditions prevailed here for the observance of Labor Day. The labor party, numbering several thousand marchers, was the chief attraction. Notwithstanding a ruling by the Federation of Musicians requiring a similarity of uniforms for bands, President Kennedy of the Federation said that the attempt to bar nonunion employed bands from the parade would not be enforced. Many local organizations decided not to participate in the parade, having arranged separate programs.

Perhaps the Last Parade. St. Louis, Mo., Sept. 5.—Labor Day was celebrated yesterday by a parade representing all the lines of trade and industry, and comprising 17,000 men, and this may be the last labor parade here, as leaders of the labor movement, it is said, are not in favor of the parade features of the day's celebration, and the parade was carried out this year only by a small vote.

Grangers and Miners Celebrate. Little Rock, Ark., Sept. 5.—In accordance with Governor Davis' proclamation, Labor Day was observed throughout Arkansas by an almost general suspension of business. Under a recent enactment it is a legal holiday in this state. Members of the American Society of Equity, embracing many farmers, and of the United Mine Workers, joined in a celebration at Paris, Logan county. There was no formal celebration in Little Rock.

Bryan Spoke. Omaha, Neb., Sept. 5.—A speech to union labor by William J. Bryan was the principal feature of the exercises with which Labor Day was celebrated in Omaha.

Mr. Bryan spoke at Courtland Beach, where he was greeted by almost 5000 people.

Unfortunate Incident. Chicago, Ill., Sept. 5.—The efforts of the police to keep the street clear for the Labor Day parade resulted in the accident shooting yesterday of Mrs. Anna Hopkins during an exchange of shots at Michigan avenue and Madison street, between the police and a man who gave his name as William Laska.

When Laska was ordered to get back into the crowd he drew a revolver and began shooting. Men in the crowd rallied to the aid of the policeman on duty at the corner, and Laska, after being severely beaten, was arrested. Mrs. Hopkins was taken to a hospital in a serious condition.

Russian Official Murdered. Gori, Caucasus, Sept. 5.—Police Commissioner Kalloff was shot and killed yesterday. The assassin escaped.

France's Time Limit. Tangier, Morocco: The French ultimatum fixes a time limit expiring Sept. 5. If the French Legation withdraws, it is said, the British Minister, who fully supports the French demands, will also withdraw. A popular outbreak is anticipated if France makes a naval or mild demonstration.

A feeling of panic prevails, and most of the stores are closed, owing to a conflict in the suburbs between the followers of Raisuli and other tribesmen.

Peace Celebration in Liege. Liege, Belgium: On the initiative of the French commander to the Belgian International Exposition, now in progress here, a day will be set for a grand celebration of universal peace, to occur as near as possible simultaneously with the signing of the treaty at Portsmouth, N. H.

Devers, Texas: There was a light rain here yesterday, which will benefit the rice, sweet potatoes and garden truck, but more rain is needed.

Old Cattle Stealing Method. Cuero, Texas: Cattle stealing by way of changing brands to nothing on record is the latest and most approved method. The business had about come to an end in this county (at the end of the rope, which it is hoped may not have to be resorted to again).

Harsha Revival at Tanglewood. Tanglewood, Texas: A protracted meeting began Tuesday night at the Presbyterian church. Rev. Dr. Harsha, the synodical evangelist for Texas, preached the opening sermon.

FEVER'S AFTER EFFECTS

Did Not Disappear Until the Blood Was Renewed by Dr. Williams' Pink Pills.

Typical fever is sometimes called nervous fever. During the course of the fever the nerves are always profoundly disturbed, and when it is over they are left so sensitive that the patient has to be guarded against all excitement. In the tonic treatment then demanded, regard must be paid not only to building up flesh but also to strengthening the nerves. A remedy that will do both, make sound flesh to repair waste and give new vigor to feeble nerves, is the most convenient and economical. Such a remedy is Dr. Williams' Pink Pills for Pale People. One proof of this is the experience of Mr. Charles Worth, of East Vassalboro, Maine. He says: "I had a severe attack of typhoid fever late in the fall which left me very weak and debilitated. My head ached, my breathing became very difficult after the least exertion and there was numbness in both hands. I suffered in that way for fully six months. As I did not grow out of it, did not see fact see the slightest improvement as time passed, I decided to use Dr. Williams' Pink Pills as I knew of some cases they had effected in cases like mine. "Almost as soon as I began taking them I could see decided improvement and after keeping on with them for several weeks I was completely well. I consider Dr. Williams' Pink Pills a most valuable remedy, and I am in the habit of recommending them to others afflicted as I was."

When the nerves ache and tremble it means that they are starving. The only way to feed them is through the blood, and the best food is Dr. Williams' Pink Pills. They are absolutely guaranteed to be free from opiates or other harmful drugs. They are sold by all druggists, or may be obtained directly from the Dr. Williams Medicine Co., Schenectady, N. Y.

The Stranger Needed a Knife. "I was traveling some months ago in the mountains of North Carolina," said Mr. J. P. Dickens of Boston, "and stopped at the log cabin of a farmer to get a little rest and a bite to eat. The farmer's wife was a kind-hearted soul and set about getting me a dinner with most hearty hospitality. At the table one of her children, a lad of twelve, said to her in a loud tone: 'Maw, give the stranger a knife.' His mother answered that she had given me one, which was true, but again the youngster piped up: 'Maw, I tell you to give him a knife; don't you see he is eatin' his greens with a fork?'"

Catarrah and Colds. A person suffering from any catarrah, whether of the head or chest, should sleep alone and if possible without another room occupant. Towels, soap, etc., used by the patient should not be touched by any other person. No one should "take" his breath and kissing must be forbidden by the domestic parliament. However, many good folks have lost faith in all precautions. When any member of the family has a cold they say resignedly that it is bound to go through the house and, to tell the truth, it usually does.

Sure Cure at Last. Monticello, Miss., Sept. 4. (Special)—Lawrence County is almost daily in receipt of fresh evidence that a sure cure for all Kidney Troubles has at last been found, and that cure is Dodd's Kidney Pills.

Among those who have reason to bless the Great American Kidney Remedy is Mrs. L. E. Baggett of this place. Mrs. Baggett had dropsy. Dodd's Kidney Pills cured her.

"I was troubled with my kidneys," Mrs. Baggett says in recommending Dodd's Kidney Pills to her friends, "my urine would hardly pass. The Doctors said I had Dropsy. I have taken Dodd's Kidney Pills as directed and am now a well woman."

Dodd's Kidney Pills cure the kidneys. Cured Kidneys strain all the impurities out of the blood. That means pure blood and a sound, energetic body. Dodd's Kidney pills are the greatest tonic the world has ever known.

The ranks of carpenters have had distinguished men such as Irigo Jones, the architect; Romney and Ople, the painters; Prof. Lee, the sculptor, John Gibson.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of DeLance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturer to be superior to any other brand, but because each 10c package contains 16 oz., while all the other kinds contain only 12 oz. It is safe to say that the lady who once uses DeLance Starch will use no other. Quality and quantity must win.

By breeding and feeding his fowls in a special way, a Wiesbaden chemist has been able to increase the natural quantity of iron in eggs that they are mediating an useful for the cure of various diseases.

When you buy Bing, insist on getting Red Cross Blue. Don't take a cheap imitation. Your grocer sells it.

Mortality in every occupation has decreased in the last ten years. This is due to the better means of ventilation and sanitation which we have at present and the greater precautions exercised in every field of endeavor.

An Italian engineer has invented a successful elevator for raising sunken vessels. It consists of compressed air chamber of canvas and wire, each equal to a lifting capacity of sixty tons, and it is possible to attach as many of these as may be necessary.

The word "amateur," originally French, from the Latin "amator," a lover means a lover of any particular art, but not a professional follower of it.

A correspondent of Nature says he had his portrait painted by two well-known artists and calculated that in each case about 20,000 strokes of the brush were made.

On the State railroads in Germany the doors of the carriages are the same as the tickets of their respective classes; thus first-class carriages are yellow, second-class green and third-class white.

Holland is the one European country where coffee can be imported free of duty.

JOHN T. WHITE, REAL ESTATE AGENT.

Small farm 3 miles from town, 150 arpents, house and barn. \$50 per arpent. Small farm of 161 arpents, adjoining above, \$50 per arpent. Lots on upper Bank avenue \$100, near new canal. House and lot No. 421 St. Peter street, \$2000.
