PERSONALS.

—A negro woman named Lena Lewis, employed as one of the ironers at the New Iberia Steam Laundry had the misfortune yesterday morning of getting her left hand caught in the machinery and burning the hand almost off before she could be extricated from the machinery.

—Mr. Desires Hebert who resides near Jeanerette, died last Saturday night after a short illness, aged 54 years. The gentleman leaves a widow and several children to mourn his loss. The remains were taken to Pattersonville, La., the family burial grounds for interment.

—Use Tucker's Croup Syrup for the baby at Taylor's Drug Store.

—Mr. Leon Lemaire of this City has been engaged all the week taking a census of the number of children now enrolled in the Sixth Ward public schools of New Iberia. Every four years it is the duty of the Assessor of the Parish to have the work done so that a settlement can be made with the State authorities giving this Parish its pro rata for the maintenance of the schools. Mr. Lemaire expects to be engaged in this work at least ten days more before he can complete the enrollment.

—Miss Lizzie White accompanied her as far as New Orleans.

—Mrs. Mount of Morgan City, daughter of the late Frederick Vazey of this City is reported to be very ill at this writing. Her friends wish her speedy recovery from her serious ailments.

—Quite an enjoyable time was had at Shady Side last Sunday, in which an enjoyable ride was given by the young men of that place from Shady Side to Morgan City on Bayou Teche, stopping at the latter city to witness the Aviation Meet, given in that city. Among those to enjoy themselves were Dr. Alden E. Chauvin, the popular Shady Side specialist; Mr. Jos. Delaune, Mr. H. A. Dieth, Mr. Thomas J. Graham, Mr. Joe Kelly, Misses Victoria Crowder, Amy Wilson, Celestine Crowder, Lavonia Harris, P. C. Nango, Messrs. Rudolph LeGrosvenor and T. P. Carey, joined the party at Morgan City, having had to leave on No. 6 to attend to some pressing business at that place.

—There will be service at the First Presbyterian Church next Sunday at 11 a. m. and 7:30 p. m. Rev. J. M. Paradis in the pulpit.

—Died, at the residence of his father, Clavis Louviere, on Thursday, March 23d, at 3:30 o'clock p. m., Florian Louviere, born February 2d, 1893. The funeral was held at the Catholic Church yesterday evening at one o'clock.

—Mr. and Mrs. A. Conrtois had the sad misfortune last Thursday of losing by death their little daughter, Gertrude Clara Gourty, born July 12th, 1910. The funeral services were held yesterday morning at nine o'clock from the Catholic Church.

—Moss' Club Sauce now 15c. Buy a bottle.

—It is generally rumored on the streets that the resignation of Dr. Warren G. Young, as President of the local Board of Health was received by Mayor Fowler last Thursday morning. Whether or not Dr. Young felt the duties imposed upon him by the State Board of Health would require too much of his attention, owing to his large practice, or because he felt that some of the regulations would be a hardship on the people, we have been unable to learn. Just who will replace him on the Board is another conjecture, but from what we are informed the law makes it imperative that there be two physicians on the Board, one of whom must act as President.

—Attention is directed to the advertisement in another column, announcing the opening in this City of a branch of the Draughon's Business College, of Nashville, Tenn. The gentleman in charge, Prof. John McDaniel, is well known to several of our citizens as a practical educator and who has been connected with the colleges of the above gentleman for many years in different parts of the South. New Iberia is in need of a school of the kind Mr. McDaniel is to open, that will fit the young men of our City with training sufficient to enable them to fill responsible positions and we sincerely wish them success in New Iberia. As will be observed, it is the intention also to open up night classes if sufficient enrollment of pupils can be secured. It is not often such men as Mr. Draughon selects so small a community as ours to launch one of his schools and our citizens should encourage him in the undertaking.

—Word comes to us this week of the loss of eleven head of stock in the Fifth Ward of the Parish on the place of Mr. Demosthene Broussard, one of our farmers. For some time past it has been reported that this fatal stock

disease was in this Parish, but little credence was put to the story. Dr. J. A. Goodwin has taken charge of the situation at this writing being busy all the week inoculating stock belonging to the neighbors of Mr. Broussard and it is hoped will eradicate the disease in this manner, there being no positive cure for Charbon. The only thing to be done is to quarantine the places effected from other stock, which precaution cannot be done too soon. The Police Jury should interest themselves in this matter at once and give the farmers protection by a rigid quarantine of the places effected. Money spent in this manner among live stock in this Parish by our Parish officials, saving thousands of dollars to the taxpayers before the epidemic becomes general will be money well spent and a commendable act on the part of that body.

—The Iberia Motor Car Co., Ltd., is fortunate in being the distributors of the famous Regal automobiles. This line was chosen by their former mechanic and they have every reason to be proud of his choice. His record as a mud car has not been equalled. Last June and July, during the unusually bad weather which prevailed two of their demonstrators traveled continually making mud trips through roads almost impassable. On one particular occasion a trip was made to Abbeville, when along the road could be seen broken down vehicles which had been abandoned by their owners. On the return trip from Abbeville, Mr. John Ewell was invited to make the trip to New Iberia. The Regal car left Abbeville at three o'clock p. m. and stopped at Erath about one hour and a half and Mr. Ewell was astonished to witness the ease with which the Regal pulled through the mud. His astonishment grew beyond bounds as the car approached New Iberia passing through terrible mud holes and over roads covered with water. The water having been so long on the roads that the mud beneath was over the axles. The Regal seemed to possess such power however, that if defied mud, water, slush, ruts, holes, bogs and all and proceeded on its way to New Iberia as if there was naught to stop it. It reached New Iberia at 7 o'clock p. m. and the next day for over a month after continued its mud trips and to-day that same car is in the rental business ready to repeat many thousands of miles in the mud.

—New Iberia Lodge No. 39, K. of P., met in regular session last Wednesday night to a large and well filled lodge room. The occasion being the initiation of a candidate to the Rank of Page, together with regular business on hand. The team work was well carried out by the staff of officers and was highly appreciated by the attending brothers. At the next session there will be a double bill, two candidates for the rank of Page and one for Esquire.

—We handle Paroid Roofing for use in building the Philo Coops.—Bertrand Lumber Co. Phone 125.

—Mr. F. M. Welch of the Iberia, St. Mary and Eastern Railroad informs us that all the preliminaries are about complete for the road from New Iberia to Berwick, connecting here with the Frisco or New Iberia & Northern and the road will be complete on October 1st, 1911. It is only a question of a short time before actual road bed work will be in full blast, connecting New Iberia with the sister towns south of here that are at present connected also by the Morgan's Louisiana & Texas Railroad. Surveys and bridled some of the better informed men on diseases among live stock. We were told, that the services of Dr. J. A. Goodwin, an able veterinary surgeon of New Iberia, were brought into requisition and after his diagnosis of some of the cases of this puzzling malady, positively pronounced it Charbon. Mr. Demosthene Broussard has already lost eleven animals. Other farmers have suffered in like manner and have lost some valuable animals. The farmers here feel very dubious about the matter and are very apprehensive lest it should become epidemic.

The planters were quite busy this week barring off their stubbles and shaving them.

The farmers in the Coteau section were very busy this week planting cotton.

This section of the Parish experienced a welcome rain last Saturday evening and night, gratifying the wishes of the farmers. The rain was very timely and will prove of untold benefit to growing vegetation of all kinds, as the winter in this section has been the driest known for years.

Many people from this section went to New Iberia on Friday and Saturday to see the Bird Men Fly. Mrs. Aristide Toups and Miss Orla Romero of Lafayette were the guests of Mr. and Mrs. Henry Landry one day this week.

Mrs. J. T. Landry and Miss Adrienne Landry of Sagura visited Mrs. Henry Landry on Monday. Mr. Henry Landry shipped this week from Loze's Station four carloads of corn to the Alexandria Mill and Elevator Co. Ltd., of Alexandria, La.

Died, at her late residence, four miles from Youngville, on Tuesday at nine a. m., Mrs. Desire Landry, aged 70 years. The funeral took place from the Catholic Church in Youngville at nine a. m., Wednesday. Interment was in the Youngville Catholic Cemetery.

S.S.S. OLDEST & BEST BLOOD PURIFIER

The blood is the vital force of life; the health-preserving element and motive power of the system. Every organ, nerve, muscle, tissue and sinew of the body is dependent directly on the blood for nourishment and strength. As it circulates through the system it furnishes to these different members the healthful properties needed to sustain and enable them to perform their duties. So long as the blood remains free from infection we are apt to be healthy, but any impurity, humor or poison in the circulation affects some portion of the general health.

Blood mud may come from various causes, such as a sluggish condition of the system, imperfect bowel and kidney action, indigestion, etc.; or it may be derived from whatever the source the blood must be purified before the body can be healthy. Pustular eruptions, pimples, rashes, and the various skin affections show that the blood is in a feverish condition as the result of some humor, or the presence of an irritating, fiery acid. Rheumatism, neuralgia, sciatica, etc., are common from an excess of uric acid in the circulation, while Catarrh, Sores and Ulcers, Scrofula, and Contagious Blood Poison, are all deep-seated blood disorders.

S.S.S. is a natural blood purifier and tonic. It is made entirely of the juices and extracts of roots, herbs and barks of recognized curative ability, and is an absolutely safe medicine for young or old. S.S.S. goes into the circulation and removes every trace of impurity, humors and poisons. It refreshes and enriches the blood and cures promptly and permanently Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood disorders. S.S.S. is the most reliable medicine for those whose blood has become weak and whose suffering from Anemia, Malaria or other debilitating trouble. Book on the blood free. S.S.S. is for sale at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

BUILDS UP THE HEALTH.

I have used S. S. S. quite extensively, and know it to be the best of blood purifiers. It is vegetable, as you claim, and does not injure the system in the least, but on the contrary builds up the general health, and ridding the blood of all poisons and impurities. I feel better in every way since taking your medicine, and am firm in the opinion that it is all you claim for it to cure skin troubles. G. K. HESS, 716 Willow St., Lebanon, Penn.

A PARABLE.

Said Christ our Lord, "I will go and see... How the men, my brethren believe in me... He passed not again through the gate of birth... But he made himself known to the children of earth... Then said the chief priests and rulers and kings: "Behold, now, the giver of all good things: "Go to, let us welcome with pomp and state Him who alone is mighty and great!"

With carpets of gold the ground they spread, Wherever the Son of Mary should tread; And in palace-chambers, lofty and rare They lodged and served him with princely fare: Great organs surged through arches dim, Their jubilant floods in praise of him; In church and palace and judgment hall, He saw his image high over all.

But still, wherever his steps they led, The Lord in sorrow bent down his head, For, from under the heavy foundation stones, The Son of Mary heard bitter groans. And in church and palace and judgment hall, He marked great fissures that rent the wall— And opened wider and yet more wide, As the living foundation heaved and sighed. "Have ye founded your thrones and altars then, On the bodies and souls of living men? And think ye that building shall endure Which shelters the noble and crushes the poor?"

"With gates of silver and bars of gold Ye have fenced my sheep from the Father's fold: I have heard the dropping of their tears. In heaven, these eighteen hundred years." "O, Lord and Master, not ours the guilt; We built but as our fathers built: Behold thine images how they stand, Sovereign and sole through all the land. "Our task is hard— with sword and flame To hold thy earth forever the same. And with sharp hooks of steel to keep— Still as thou left them for ever thy sheep."

Then Christ sought out an artisan— A low-browed, stunted, haggard man— And a motherless girl whose fingers thin— Pushed from her faintly waning sin— These set he in the midst of them— And as they drew back their garments hem— For fear of defilement—"Lo here," said he "The images ye have made of me!"

Plagiarized from a noted worker in the vineyard of the Lord, who passed to his reward near the close of last century—leaving behind him clarion calls to righteousness, which must go ringing with increasing volume down the corridors of time till the millennium shall come to gladden this grain of sand and tears we call "The World." MRS. THORPE.

HOW SHALT NOT.

1. Thou shalt not go away from home to do thy shopping, nor thy sons nor thy daughters.

2. Thou shalt not patronize thine own merchants, but thou shalt be driven from their homes to find their children.

3. Thou shalt patronize thine own merchants, also the printer, and they shall patronize thee.

4. Thou shalt pay thy bills very promptly that thy credit may be good in the land where thou dwellest and thy neighbor greet thee gladly, then deposit thy surplus in the banks of thine own town.

5. Thou shalt not knock the props from under thine own town in order to be revenged upon thine enemy lest thou perish with him.

6. Thou shalt not incline thine ear to the voice of pride nor permit vanity to overcome thy heart.

7. Thou shalt spend thine earnings at home that they may come and give nourishment to such as come after thee.

8. Thou shalt not bear false witness against the town wherein thou dwellest, but speak well of it in the ears of men.

9. Thou shalt not covet thy neighbors' seed wheat, nor his meat hogs, nor the cow, nor the crib, but whatsoever thou desirest thou shalt buy of him and thou shalt pay the price thereof in the coin of the realm.

10. Thou shalt keep these commandments and teach them to thy children unto the third and fourth generations, that they be made to flourish and wax while thou art left to rest with thy fathers.—Ex.

WIZARDS OF THE NATIONAL AVIATORS.

Arrived at 8 a. m. on Special Train over the Southern Pacific Railroad from Thibodaux.

The three hundred people who go to make up the big Meet are here. You ought to see the "lay-out" working on the Iberia Park lot this morning with the wagons coming in in quick succession. He is one of the wheels of the system and has to use his head quickly. As the tents is being erected, you wonder at the confusion. Everything seems to be dumped any old place, and the men look as if they were working in a perfect chaos. But things are in the right places and every man has a certain duty to perform at a certain time. If he forgets that duty, or fails to do it, it only happens once. Some one else will be doing it who won't forget.

Early indications today give promise of excellent flying weather for the air men on the first day of their Meet here.

A brilliant period of preliminary flying will occupy the two or three hours before the tournament. The Hangar Tent in which the racing monoplane and biplane will be housed, is now erected. Aviators have begun turning up, testing out motors and testing the stability of their craft in the air.

The Hangar Tent is also their repair shop, and is now lively with corps of expert mechanics, who will live there during the entire flying "Meet." This Hangar Tent has already become a center of interest for hundreds of visitors.

On the flying field, with its half mile of grass level, 14 gayly colored flags trace the aerial course. Starting in front of the grand stand the flying gladiators will give a near view of their airman ship. Each aviator has his distinctive style of launching and alighting. The American flyers are noted for their under-the- "springs" from the sky.

"Springs" from the sky, approximately swift dives from 3000 to 200 feet, will electrify the crowd at Thibodaux. The machines after turning the last flag will approach the grand stand at a speed of a mile a minute, increasing this as they sweep past the crowds. Iberians who have witnessed the flying last Sunday at Morgan City, all speak of the flight of the dragon-winged monoplane as being perfectly typical of real flying. The big Farman is the most difficult of all machines, but when flown by such wonderful airman as Evans and Walter Johnson, it becomes impressive.

The Blériot driven by Lieut. Miller moves like a motor under the terrific impulse of a 100 horse-power whirling Gnome. Among the experts, the greatest expectancy in any flyer is entered in the Danish bird-man Stevens, who joined the National Aviators in Thibodaux Thursday morning. His Curtiss Biplane is assembled, and at the sign of ready given by Mayor J. S. Power, it is expected some record may be broken, the local order of the Knights of Columbus will be rewarded for having engaged the National Aviators to hold a "Meet" in New Iberia.

"Since putting the above article in type the throng of people who visited the aviation grounds yesterday were much disappointed at the outcome. After awaiting several hours for the machine to be rolled from its tent, one of the aviators tried to make an ascent which landed him in the high fence surrounding the grounds of the Park, due it is said to the propeller of some engine being in a broken way attached to the wings of the machine. He was succeeded by another flyer, who after making his appearance and taking note of the velocity of the wind announced to the audience that if the weather permitted an ascent would be made this evening. However, there was much dissatisfaction expressed by the guests in attendance and it is very doubtful, with the inclement weather this morning, if the attendance today will justify another attempt on the part of the bird men to give the second exhibition as advertised."

YOU TAKE NO RISK. Our Reputation and Money are Back of This Offer. We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. Could anything be more fair for you? Is there any reason why you should hesitate to put our claims to a practical test?

The most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. They are very pronounced, gentle and pleasant in action, and particularly agreeable in every day. They do not cause diarrhoea, nausea, flatulence, griping or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

We urge you to try Rexall Orderlies at our risk. Two sizes, 10c and 25c. Remember, you can get Rexall Remedies in this community only at our store.—The Rexall Store, J. N. Thibodaux.

The question as to whether a rose bush springs from a seed or a cutting reminds one of the argument whether the chicken or the egg was first. Nevertheless, our meaning is clear. What we want to do is to encourage people to grow roses by whatever means best suited. It is the rose we want. Whether it grows from the seeds or cuttings it smells as sweet.—Iberville South.

REGAL PLUGGER.

Among the 150 cars all looking their best for the week's exhibition at the St. Louis show which closed last week, there was no one car in the collection which attracted more attention and comment than the Regal Plugger. All week long this car held a continuous reception for its crowds of admirers and held them as a magnet holds steel filings.

And the Regal Plugger was not dressed up for show purposes. It rolled into its berth in the east hall just as it came off the road, its sides bedecked with tags and stickers from every cross road and hamlet of the country, its hubs and mudguards encrusted with the soil of every State in the Union. There it rested during the week, renewing acquaintance with many of the folks in the west who had cheered the rugged roadster on some of its record-making trips through the country.

Aside from the women's and children's amusement in reading the names of the towns and towns-folks on the tags and stickers, the car offered the stud of the automobile and the prospective and hesitant buyer proofs of the durability, the reliability and the economy of the Regal car that drove home selling arguments like a pneumatic hammer.

Here's the reason. Ever since July 5, 1909, when fresh from the factory, the Regal Plugger whizzed down the streets of New York City and headed for the country, the car has been on the go. Its entry into Atlanta, Ga., in December, 1910 on the completion of the All Southern tour, was a triumphal procession. The whole town turned out to greet the iron steed which had shown that there was no copath in the Southland too tortuous for the Plugger and that the Everglades of Florida were not impassable to the right car.

On the completion of that All Southern trip, the speedometer showed that the Plugger had covered 33,015 miles, approximately 1.2 times around the world. It has done the same car in every interval for its first tryout—the trip from New York to San Francisco. Thirty-five thousand miles means practically twenty Glidden tours. This feat has been accomplished with a 30 horse power automobile that has encountered every conceivable condition of travel.

It has taken hills as steep as a bungalow roof with plenty of power in reserve; picked its way over rocky, tortuous country where roads existed only on the maps, still running smoothly and quietly; bumped the "Thanky Marns"; dug through gumbo roads and muddy passes with the ease of a boy going through slush ankle-deep; snorted around sharp curves when failure to respond to the driver's tug meant a dive over a precipice. With all this hair-tingering, it has always leaped out on the smooth road with the speed and ease of a hound after Reynard.

Notice of Homologation. SUCCESSION OF MR. PHILIZIE VATOR, DECEASED, WIFE OF EMILE MASON, JR. 19th Judicial District Court, State of Louisiana, Parish of Iberia.

Whereas, Emile Mason, Jr., a resident of the Parish of Iberia, Administrator of the above entitled and numbered Succession, has filed in this Honorable Court, his final account and tableau of Administration as Administrator of said estate, together with his petition praying that the same be homologated and approved. Notice is hereby given to all whom it may or doth concern 'o show cause, if any they have, within ten days from the first publication hereof, why the prayer of petitioner should not be granted. Witness the Honorable James Nimon, Judge of our said Court this 22nd day of March, A. D. 1911.

A. J. MAUMUS, Dy. Clerk of Court, Iberia Parish, Haecher and Muller, Attys.

Subscriptions taken at this office for the Times-Democrat and New Orleans Picayune.

BUSINESS COLLEGE FOR NEW IBERIA.

Prof. John McDaniel, who has been conducting DRAUGHON'S PRACTICAL BUSINESS COLLEGE for some time, is now in New Iberia, where he will conduct a FIVE MONTHS' DRAUGHON'S BUSINESS COLLEGE, if sufficient number of students can be secured. This school will give the education of this section the opportunity of getting a Business Education right at their door, thereby saving them traveling expenses, cost of board, etc., that would be necessary in attending a Business College away from home.

NIGHT and DAY School will be conducted. Special rates will be given to the first THIRTY students who enroll. Those who enroll at the beginning of the term will have time to graduate.

Prof. Draughon states that DRAUGHON'S PRACTICAL BUSINESS COLLEGE, which has been established for twenty-two years, fifty-eight permanent colleges in eighteen states, are indicated by more banks than all the other Business Colleges in the United States. (COMBINED) For particulars address: PROF. JOHN McDANIEL, New Iberia, La.

SHERIFFS' SALE. MRS. MATTIE DUBOIS, WIDOW OF THOMAS DUBOIS, VS. ADRIEN DECHUTE. State of Louisiana, Parish of Iberia, 19th Judicial District Court.

Please to take notice that by virtue of an order of seizure and sale, issued out of the above Honorable Court and to me directed, I, George Henderson, Sheriff, through Frank J. Mestayer, Deputy Sheriff, have seized and will offer for sale and will sell to the last and highest bidder, FRANK J. MESTAYER, at the front door of the Court House in the City of New Iberia, Louisiana on

SATURDAY, APRIL 29th, 1911, the following described property, to-wit: A certain tract of land situated in the 2nd Ward of Iberia Parish, La., on the West side of the Bayou Teche, measuring three arpents and six centesimos, more or less, front on the forty arpent road, by the depth to the twenty arpent line from said Bayou, being part of the Ball tract containing and measuring sixty four arpents in superficial area, more or less, and bounded on the North by property of Gajans or switch, South by that of Lemaire (property heretofore sold by Gajans), East by Gajans or twenty arpent road and West by forty arpent road.

To pay and satisfy the sum of four thousand dollars with 8 per cent interest per annum from January 1st, 1910, until paid, with 10 per cent attorney fees on the principal and interest and all costs of these proceedings. Given officially this 25th day of March, A. D. 1911.

GEORGE HENDERSON, Sheriff, per Frank J. Mestayer, Dy. Sheriff.
