of Mr. J. P. Harrison, who was driving to New Iberia with his little grand-daughter, a child of Mr. J. W. Weyche, came very near meeting with an accident that would probably have caused the death of both had it not been that Mr. Harrison back his horse into the large ditch which is on both sides of the railroad track. The manner in which the small round house has been arranged along the tracks on the south side, with the coal shutes on the other, it is almost impossible for a pedestrian, or one riding in a vehicle to see whether or not trains are moving in that locality. In this instance Mr. Harrison had checked up his animal and permitted a train to go by and felt perfectly safe, when an engine on the adjoining track made its appearance after he had driven on the steep embankment without any apparent warning, almost causing a serious accident to the occupants of the buggy. Either the grade should be lowered at that point or the ditches filled in so that one could turn around without falling into the precipice, otherwise some horrible catastrophe is certain to occur there. We trust the railroad officials will either place a flagman at that point or remove the risk which endangers life and limb while in the operation of their

LOCALS.

A session of the Circuit Court for this District was held in New Iberia this week, with Judges Mouton, Leche and Ellis on the bench. We understand they had but little work to do here, the docket being extremely light this session.

IT SAVES LABOR. Floors cleaned with Ocedar soap don't have to be scrubbed or wiped up. Get one from the ladies of the Presbyterian church.

Mr. Edwin Clinton Harvey, of the firm of Sandoz & Harvey, was admitted to practice in the United States District Court for the Eastern District of Louisiana at New Orleans the 12th inst.

Mr. Marcel Derouen, one of the prosperous farmers of the Petite Anse section of the Parish, purchased for the use of himself and family a beautiful Nyberg 50-horse power car. Mr. Derouen like all owners of automobiles will no doubt become a strong champion for better roads throughout the Parish.

It is generally rumored on the streets of this City that our fellow-citizen, Mr. A. G. Barrow, proprietor of the Alma House has strong support for the office of United States Marshal for this District. We would be pleased to see an Iberian receive for once, honors of that nature as we have no recollection of an Iberian receiving from the hands of either the Democratic or Republican parties any office of importance outside the Parish from the Federal authorities.

The Royal Order of Moose, a prosperous Order considering its age held their regular election of officers this week with the following result: Dr. E. S. Fulton, Dictator; Leon Marie, Vice Dictator; A. Diodome, Prelate; Louis Bazus, Secretary; Louis Pfister, Treasurer; A. Dollard, Inner Guard; F. A. Louviere, Outer Guard; D. A. Theriot, Sergeant-at-Arms; Dan Boutte, Past Dictator; Trustees, Edgar Bourg, Geo. W. Stansbury and John Koslosky.

A mass meeting of the citizens of Loreauville will be held to-morrow afternoon at the hour of three o'clock for a general discussion of the proposed Bond Issue by the Police Jury of Iberia Parish. Prominent speakers will be in attendance and the public will be made familiar with all of its conditions and advantages. We predict a large meeting in that Ward because the people of that section are conversant with the need of better roads and the advantages to be derived.

On Thursday morning, at about five o'clock the P. L. Roundout saw mill and its contents of valuable lumber had a very narrow escape from being destroyed by fire due either to tramps sleeping between the lumber piles on the yard or to an act of incendiary. The fire was discovered several acres from the mill proper and was not put out until about two hundred dollars worth of lumber had been destroyed. Had there not been a rain the previous evening in all probability the flames would have got beyond the control of the firemen.

The Rexall Drug Store of Mr. Jos. N. Thibodeaux, situated opposite the Court House was transferred this week to Mr. J. J. Pierson of Thibodeaux, La. Mr. Pierson comes to New Iberia where he is an esteemed citizen of the above place. We anticipate a bright future for him in New Iberia and welcome him and his family in our community.

Mr. Joseph Davis, the East End butcher and hide dealer, shipped out of New Iberia this week a full car load of hides that were purchased within a radius of thirty miles. This feature of Mr. Davis' business is steadily growing and we understand he is paying good prices for hides.

—On the night of March twenty-fifth a dance will be given at the hall of America Fire Company No. 2 for the benefit of Mr. O. E. Stansbury, a citizen of this City and an invalid who needs the sympathy and patronage of the public. Special music has been arranged for the affair and the public is urged to attend. The usual admission of 50c will be charged.

Several desirable residences for rent—Apply to Sharp & Nuckolls.

—Last Sunday night, about nine o'clock, the warehouse of the Lamperetz bakery just back of the City Market was discovered on fire. Fortunately it had been raining for several hours previous, otherwise the building is so situated that it might have proved a disastrous conflagration. Both the residence of Mr. E. Taul and that of Mr. A. Armitator is within thirty feet of the shop and would undoubtedly have suffered much damage before the fire department could have checked the flames. Mr. Gustave Lamperetz informed us that his damage amounted to not more than \$75.00 as very little flour was stored in the building at the time and the principal damage was caused by the volume of water that had been thrown on the floor.

—Last Sunday a very large number of men, young and old, joined the Knights of Columbus and the Holy Name members in their Annual Communion at St. Peter's Church. It was a magnificent spectacle to see so many men make a public profession of the faith that was in them. On Sunday March 23d, (Easter Sunday) the first Mass at St. Peter's will be said at 5:15 a. m. Rev. J. M. Langlois having consented to the change in the hour in order that those taking part in the excursions on that day will have ample time to attend divine worship.

—The wedding of Miss Hinda Schmulen of Lafayette and Mr. Sam Adler of New Orleans, which took place last Wednesday evening at the home of the bride, attracted a number of Iberians. Among them who were present at the ceremonies which was performed by Rabbi Bergman were Mesdames Max Levy, Lazard Kling, Maurice Scharff, Jules Dupuy, Jacob Davis and Misses Mabel Levy, Pearl Davis and Messrs. Joe M. and Nathan Davis.

—On the eve of April 3d, the installation of the officers-elect of the Elk Lodge will be held in their spacious Lodge Rooms. On that occasion as usual a sumptuous "Dutch Smoker" will be given complimentary to the large membership through the liberality of the new officers. The affair promises to eclipse anything of its kind ever given before by the Elks. No doubt all of the boys will there eager to satisfy the inner man.

—A case of much importance this week before the District Court was that of Assaid Elias, the Cyrian vs. the City of New Iberia for \$25,000 damage for the loss of his wife who was supposed to have been killed by coming in contact with a live wire which ran across his premises. The plaintiff is being represented by Mr. Lazarus, a lawyer of New Orleans and Hon. Walter J. Burke, while the Corporation is also being ably represented by City Attorney L. T. Dulany. From the manner in which the witnesses were cross questioned the case will be a hard fought one before a decision from the Supreme Court is finally handed down. Among the witnesses who testified were Drs. Shaw and Sabatier, E. F. Millard, Lawrence F. Villerman and Paul Cordova. All of the evidence being submitted on Thursday evening, it was finally decided to submit briefs in the case in about two weeks or as soon as the Court stenographer could write the evidence and do away with the oral argument.

—Our attention has been called to the dangerous double track crossing of the New Iberia and Northern Railroad just in front of Lallande store, on Jane Street. On Tuesday morning last Mr. J. P. Harrison, who was driving to New Iberia with his little grand-daughter, a child of Mr. J. W. Weyche, came very near meeting with an accident that would probably have caused the death of both had it not been that Mr. Harrison back his horse into the large ditch which is on both sides of the railroad track. On that occasion as usual a sumptuous "Dutch Smoker" will be given complimentary to the large membership through the liberality of the new officers. The affair promises to eclipse anything of its kind ever given before by the Elks. No doubt all of the boys will there eager to satisfy the inner man.

—A case of much importance this week before the District Court was that of Assaid Elias, the Cyrian vs. the City of New Iberia for \$25,000 damage for the loss of his wife who was supposed to have been killed by coming in contact with a live wire which ran across his premises. The plaintiff is being represented by Mr. Lazarus, a lawyer of New Orleans and Hon. Walter J. Burke, while the Corporation is also being ably represented by City Attorney L. T. Dulany. From the manner in which the witnesses were cross questioned the case will be a hard fought one before a decision from the Supreme Court is finally handed down. Among the witnesses who testified were Drs. Shaw and Sabatier, E. F. Millard, Lawrence F. Villerman and Paul Cordova. All of the evidence being submitted on Thursday evening, it was finally decided to submit briefs in the case in about two weeks or as soon as the Court stenographer could write the evidence and do away with the oral argument.

—Our attention has been called to the dangerous double track crossing of the New Iberia and Northern Railroad just in front of Lallande store, on Jane Street. On Tuesday morning last Mr. J. P. Harrison, who was driving to New Iberia with his little grand-daughter, a child of Mr. J. W. Weyche, came very near meeting with an accident that would probably have caused the death of both had it not been that Mr. Harrison back his horse into the large ditch which is on both sides of the railroad track. The manner in which the small round house has been arranged along the tracks on the south side, with the coal shutes on the other, it is almost impossible for a pedestrian, or one riding in a vehicle to see whether or not trains are moving in that locality. In this instance Mr. Harrison had checked up his animal and permitted a train to go by and felt perfectly safe, when an engine on the adjoining track made its appearance after he had driven on the steep embankment without any apparent warning, almost causing a serious accident to the occupants of the buggy. Either the grade should be lowered at that point or the ditches filled in so that one could turn around without falling into the precipice, otherwise some horrible catastrophe is certain to occur there. We trust the railroad officials will either place a flagman at that point or remove the risk which endangers life and limb while in the operation of their

—On the night of March twenty-fifth a dance will be given at the hall of America Fire Company No. 2 for the benefit of Mr. O. E. Stansbury, a citizen of this City and an invalid who needs the sympathy and patronage of the public. Special music has been arranged for the affair and the public is urged to attend. The usual admission of 50c will be charged.

Several desirable residences for rent—Apply to Sharp & Nuckolls.

—Last Sunday night, about nine o'clock, the warehouse of the Lamperetz bakery just back of the City Market was discovered on fire. Fortunately it had been raining for several hours previous, otherwise the building is so situated that it might have proved a disastrous conflagration. Both the residence of Mr. E. Taul and that of Mr. A. Armitator is within thirty feet of the shop and would undoubtedly have suffered much damage before the fire department could have checked the flames. Mr. Gustave Lamperetz informed us that his damage amounted to not more than \$75.00 as very little flour was stored in the building at the time and the principal damage was caused by the volume of water that had been thrown on the floor.

—Last Sunday a very large number of men, young and old, joined the Knights of Columbus and the Holy Name members in their Annual Communion at St. Peter's Church. It was a magnificent spectacle to see so many men make a public profession of the faith that was in them. On Sunday March 23d, (Easter Sunday) the first Mass at St. Peter's will be said at 5:15 a. m. Rev. J. M. Langlois having consented to the change in the hour in order that those taking part in the excursions on that day will have ample time to attend divine worship.

FINISHED LAUNDRY

Our system of sorting and wrapping finished work is just about perfect. You receive every piece you send to us, thoroughly cleaned, starched, ironed and also properly wrapped in a manner that is as keeping as it is class work and denotes quality. It results you want, and we can produce results. Try us. We guarantee our work.

Will thank you for advising us when and how we fail to serve you. Phone 501—Our wagons will call on notice.

NEW IBERIA SANITARY LAUNDRY.

—Mr. Havert S. Sealy, one of the co-partners of the New Iberia Sanitary Laundry made a hurried trip to New Orleans last Saturday to investigate the merits of a machine known as the Prosperity Collar Moulder which he has since installed in their up-to-date factory. We were invited to the Plant last Wednesday morning to witness the operation of the machine which was being manipulated at the time by one of the young lady employees. The Moulder works without any friction whatsoever and produces a collar with a round smooth edge, leaving a space sufficiently large for the insertion of a tie when in use. The machine simply presses the collar in the operator and there is no danger of either an unnecessary crease or tear as was often the case with other machines used by the average steam laundry. It is the intention of the proprietors of the New Iberia Sanitary Laundry to turn out the best work that can be given with as little wear and tear as possible on the goods and we have reason to believe they have secured a machine that cannot be replaced for many years to come.

Plies Cured in 6 to 14 Days Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blisters, Bores, Pimples, Piles, etc. to 100%.

—Within the past few months we have heard of several large porkers being slaughtered in the near vicinity which exemplifies how cheaply meat for local consumption can be raised hereabouts with but little expense and trouble to those who will engage in that line of business. Last week Dr. A. G. Emmer of this City, who owns a nice tract of land outside of the confines of the City on the East Side of the Bayou
