The Kind You Have Always Bought

Is Use For Over 30 Years.

It is a primary rule of both business and common sense that where a man buys more than he sells, he will never be independent. That rule applies to the farmer more tightly than to any other class, for the simple reason that the farmer, or most of them especially in the South, can produce on their own soil not only the crop to bring home cash but food as well, which he is now paying other men to produce for him. Make your farm self supporting by raising your own home supplies. Avoid debt.—Rayne Tribune.

Take HERBINE for all disturbances in the bowels. It purifies the bowel channels, promotes regular movements and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Estorge Drug Co.

Michigan philanthropists have announced the establishment of an extensive department for the three-fold purpose of keeping young men out of prison, aiding paroled convicts to keep the promise they made to prison authorities and preventing discharged prisoners from returning to prisons. Discharged convicts are to be given a helping hand; they are to be provided with jobs, and are to be assisted along legitimate lines.

NEWSPAPER OPINION.

"Much bosh is said and written about woman's voting. Governmentally little difference would result. If politics are too filthy for woman no gentleman can engage in it. These folks worrying about woman losing her Charm" if she votes, do not rave over the degrading influence of the wash tub, of the hoe, and of the slaving toil in the home. The Wave is glad to see woman invading every vocation known to man. Woman can sell goods, run offices, engage in trade do anything a gentleman can do and still retain her sweetness, purity and charm. God speed the day when man and woman go hand in hand in every vocation, the day when one standard will be set for both. If woman is weak nothing will strengthen her but responsibility. If a woman wants to vote no just power will interfere."—Wave, Port Lavaca, Tex.

USE OF CALOMEL IS RAPIDLY FALLING OFF.

Fewer People Risking Dangerous Drug—Thousands Taking Dodson's Liver Tone Instead. The use of calomel, which is a poison and a form of mercury, seems to be decidedly diminishing nowadays. Dodson's Liver Tone takes its place so reliably in cases of constipation and liver trouble that its popularity is spreading more widely all the time. Dodson's Liver Tone is a harmless vegetable-liquid. What calomel does unpleasantly—often with danger—for constipation and sluggish liver, Dodson's Liver Tone does for you safely and pleasantly, with no pain and no gripe. It does not interfere in any way with your regular business, habits or diet.

So successful, so reliable and so popular a remedy has its imitators, naturally. But beware of them. You can easily detect the difference. Dodson never makes extravagant statements. His Liver Tone has been made from the first to take the place of calomel. He says that it "liven's the liver," overcomes constipation agreeably and makes you feel good. If you are not satisfied completely with Dodson's Liver Tone, John R. Taylor & Bro will hand back the purchase price (50c.) to you cheerfully, instantly and without question. Hence you run no risks to health or pocketbook in giving it a trial.

Toward the Right.
I find the great thing in this world is, not so much where we stand, as in what direction we are moving. To reach the port of heaven we must sail sometimes with the wind and sometimes against it—but we must sail and not drift nor lie at anchor.—Oliver Wendell Holmes.

Gauls First to Shoe Horses.
It is not known who were the first horseshoers, but historians declare that the Gauls before the Christian era were the first to apply artificial protection of the hoof. The art was first introduced into England by William the Conqueror, who lived during the years 1027-1087.—Horseshoer's Journal.

Ancient Time-Telling Methods.
The invention of the sun dial is generally attributed to a Grecian astronomer who died about 547 B. C. The dial was followed by the hour-glass and this by the water clock, which marked time by the escape of water through an orifice. These were introduced into Rome about 158 B. C., but are believed to have been in use in Chaldea and Egypt for a hundred years previous to that date.

Doubling Human Life.
In 1866 the public health conditions of New York were in so low a state that the average length of life of the inhabitants was 30 years. In 1912 these conditions had been improved so that the average length of life was 66 years. Thus the value of human life, reckoned in terms of time alone, had more than doubled in less than half a century.—Century Magazine.

Good Description.
Little Emily's mother had gone shopping. Upon returning she brought home to Emily a pair of pink socks fashionable for smart children in summer. That evening some ladies called upon her mother. Emily left the room, and a short while after the three-year-old returned with her socks on. "Look!" she exclaimed to the visitors, "mother bought me a pair of low-neck stockings."

Kind That Goes Astray.
A dispatch from Pottsville, Pa., says that a letter mailed 52 years ago has just reached its destination in that city. Without reading the story, we are willing to wager 10 to 1 that it contained a remittance that the addressee simply had to have the day after it was written or have all sorts of trouble.

Ancients' Idea Concerning Dreams.
Plato, Aristotle and Cicero believed that dreams foretold future events if rightly interpreted. Artemidorus of Ephesus, who lived about the middle of the second century, wrote books of elaborate rules telling how to interpret dreams. Among other things he says that he who shall dream he has lost a tooth shall lose a friend.
