TO NEW YORK BY SEA.

Editor Enterprise:

Ever since my arrival in this city some weeks ago, I've intended writing you and my friends in New Iberia of my delightful trip by way of the sea on the steamer "Proteus". Should any of you contemplate visiting this great gateway of the America in the near future, I should by all means advise coming by this route.

We left New Iberia on Wednesday morning just as day was breaking—the train had been delayed—but reached New Orleans in ample time to be taken aboard the big steamer which lay at anchor below Canal street, and started on our northern voyage at ten A. M. the same day.

After settling ourselves comfortably in our state rooms, we spent most of the afternoon and evening watching the many objects of interest to be seen on every hand down the Great Father of water. We entered the Gulf of Mexico some time before the sun set that evening. I was especially struck by the line of demarkation between the waters of the river and gulf where they unite as one body. I had previously heard and read of this phenomenon, but you have to see it to realize how wonderfully pronounced it is! We noticed it some half hour after we'd been told we were already in the Gulf.

The waters of the Mississippi are, as every one knows, a dark reddish brown, while those of the Gulf are a sea green. Where the two met as far as the eye could reach to the right and to the left of us, the line of distinction was as plain, visible as though two pieces of goods of the two different shades had been laid along side of each other at this point. The line was perfectly straight. We crossed it at right angles and though the billows, broken on the rocky hand by the passage of the mighty steamer, roared and surged around us, the line was never for a moment broken in any part.

Thursday the water was calm, the rough Friday it was almost stormy and many were sea sick. The good ship held bravely on her way with "rushing prow and roaring wheel." She made such good time that on Saturday evening it was authoritatively announced that barring accident or a storm on the Atlantic we would reach New York Monday morning at 8 A. M. Crossing the Gulf the weather was pretty warm and some of us enquired if it would not be cooler when we started northward up the Atlantic. "We were told 'No,' that on the contrary it might be warmer." In this however our informant was mistaken, for shortly after we left the Florida coast the weather gradually grew cooler and more bracing.

By Sunday most of us wore winter clothing and when at 8 A. M. we prepared to go ashore in New York City, Monday morning, an onlooker, judging from the furs and wraps in evidence, might have concluded it was mid-winter. The trip was most enjoyable from beginning to end. After a few days out, everybody got acquainted and the utmost democracy and kindness prevailed among the passengers. The ship's company also seemed to take a positive delight in seeing that everybody was comfortable and happy. Indeed we were so happy that many of us felt we

would like to have the voyage continue indefinitely. The quiet of the stars above us, the surging billows underneath, and this mighty wonder of man's handiwork, so bravely and courageously plowing its way through the waters of the deep, made the heart swell with emotion too big or utterance! Under its magic spell we would often retire to our state rooms, there to pass the night in a jellum of joy and hope, joy for what man has done and hope for the gladder years that are yet to be.

NOT WISE TO TAKE CALOMEL.

Dodson's Liver Tonic is just as sure in results and always safe, pleasant in taste and has no bad after-effects. As a remedy for a torpid liver calomel has more than met its match in Dodson's Liver Tonic. This medicine does not roughly force the liver on to perform its work. It acts gently but surely.

Calomel depends for its power upon exciting the liver to do more work, and often the liver is too weak to stand such treatment, and after taking calomel you are as a result sometimes worse off than before.

Dodson's Liver Tonic cannot cause any of the dangerous effects that often follow the use of calomel. It is entirely vegetable and pleasant to the taste, and is suitable for children and grown people.

Get a large bottle for fifty cents at John R. Taylor & Bro. under the guarantee that if it doesn't satisfy you that it perfectly takes the place of calomel you will be given your money back with a smile right at the store where you bought Dodson's medicine.

QUO VADIS.

It would require a second Solomon to decide what is the most attractive and popular feature of George Kleine's artistic production of the Cines, photo-drama "Quo Vadis" which is now exciting the admiration of the world. Some spectators enjoy most, the spectacular scenes of the Arena with its ferocious lions, exciting gladiator combats and chariot races; to say nothing of Ursus' thrilling conquest of the savage bulk while others prefer the romantic love story of Valerius and Lygia, which is so completely related. Some admire the characteristic scenes of Nero's court without its brilliant pageantry, magnificent festivals and reproduction of Roman palaces and gardens—and a great many applaud the production for its deep moral and religious note, the impressive visualization of the early struggles of Christianity and inspiring scenes in which the Saviour and the Apostles Peter and Paul dominate. Altogether it is a supreme masterpiece and the one word that fittingly describes it is "marvelous." George Kleine's "Quo Vadis" is announced for Friday, July 24th at the Elks Theatre.

Mother Stanislaus Tells of Recovery

Throat Troubles, like continued coughs and colds, often seriously affect the lungs. If you have not found any improvement from the treatment you have tried, investigate the many reports showing benefits and, in numerous cases, complete recoveries, brought about by the use of Eckman's Alternative. This is a medicine for Throat and Lung Troubles, favorably known for more than fifteen years. Read this case: Convent of St. Anne, Sanford, Fla. "Gentlemen: In February, 1911, four doctors examined my throat and pronounced the necessity of an operation. Having heard at Peekskill, N. Y., Motherhouse of the Sisters of St. Francis, where I was visiting, of Eckman's Alternative, I determined as a last resort to try it. After taking four or five bottles large pieces of diseased tissue came away. I continued the Alternative, to my grateful and daily relief. In ten months I was restored to perfect health. I would be glad to write or talk to any person who may have a doubt about it. I would like them to see and hear from my own lips, if they so desire, all I would say of it." (Signed) MOTHER STANISLAUS. (Above abbreviated, more on request.) Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Write to Eckman's Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists. Estorge Drug Co., New Iberia, La.

There is no question but that the Byrne Simplified Shorthand is the greatest system in use today. It has over 30,000 enthusiastic writers; it holds the world's record for speed in a given length of time, is the most simple, legible and rapid system in use, as is shown from the following remarks by our students who first studied other systems:

"I take pleasure in telling the public that the Byrne Simplified Shorthand is the only system I previously studied Pitman 8 months, used it in actual practice for four months; at the end of weeks study of the Byrne I was a better writer than I had ever been with the Pitman."

"I have been a Sloan-Duploy stenographer for 15 years; I found the system inadequate. I then took the Gregg under Mr. Gregg of Chicago, but found it illegible. I then took up the Byrne which I consider the stenographic marvel of the age."

"I first studied Pitman Shorthand, then took up the Byrne, and found the Byrne to be 35 per cent shorter and that it could be written at a much higher rate of speed, and read like print."

"I studied Pitman 4 months, gave it up in disgust; I then took up Perin and studied it almost night and day for six months, but was not competent to hold a position. I then took up the Byrne for three months and find I can hold any kind of a position."

"I graduated in Graham shorthand, writing 100 words a minute after nine months study. After studying the Byrne Simplified, together with Byrne Practical Bookkeeping, for 4 months, I could write Byrne much faster and regard it superior to any other system."

"I thoroughly mastered 14 systems, seven of the most prominent Pitman systems, Gregg, Chatter, Byrne, and four minor systems, and find the Byrne much easier to read, that it can be written with one and one-half times the speed that can be made with any of the other 13 systems."

"I spent 27 months trying to learn Pitman shorthand, but owing to the hundreds of rules, hundreds of exceptions and thousands of word signs, I failed to become a good stenographer. After studying Byrne in your school two weeks, I had a more practical working knowledge of shorthand than I did after 27 months' study of the Pitman."

"After studying six different Pitman systems I was unable to hold an ordinary office job, but with five weeks' study of the Byrne I went into the District Court and did reporting successfully, and was appointed regular Court Stenographer."

"While studying any system of shorthand other than the Byrne when the Byrne can be learned in half the time or less, read with greater ease and written at a higher rate of speed which means better salary and promotion. It does not cost half as much to complete a course in our school as it does one of the other systems in other schools. We hold the exclusive right to teach the Byrne in this section."

"Write for catalogue containing full endorsements and names and addresses of the above and of others who have tried the other systems and abandoned them for the Byrne. Our Bookkeeping and Telegraphy are as far superior to the other systems as is the Byrne Shorthand. Don't fail to write or phone for our large free catalogue. Tyler Commercial College, Tyler, Texas."

Hon. Henri Gueydan of Gueydan has just notified the Secretary of State that he is a candidate for the Democratic nomination for Congress, and he has forwarded the required deposit.

His campaign committee for Vermilion Parish would like to call attention to the following facts: We should send to Congress the biggest, broadest, and best equipped man we have, and we believe Gueydan to be the man.

He has made a study of the sugar and rice industries. He has for years been a leader in drainage movements in Southwest Louisiana. He has had four years experience in legislation as a State Senator. He was an indefatigable worker.

He speaks fluently French and Spanish, and his knowledge of the Latin-American people would be of service to the government. He is a man of enormous energy and industry, of the highest integrity, of the purest ideals, cleanly ambitious, and practical with it all. He is a hard-hearted business man and honest.

He is one of the very few men we know who can be depended on to give the best there is in him for the good of his constituents, and to put their welfare ahead of his own.

GUEYDAN PAYS VISIT TO TERREBONNE.

Hon. Henri L. Gueydan, once candidate for Lieutenant Governor, twice candidate for Congressman from the Third District, and still candidating, visited Houma Tuesday and Wednesday of this week. He is still on the hunt for votes, and spent most of his time visiting the leaders in the town who deliver the votes. With what success his entry into and exit out of Houma met with, is problematical; that is, to the rank and file who have not given much thought to politics lately. The chances are that Mr. Gueydan will have the Democratic nomination handed him on a silver tray this year, as there does not appear to be any one who cares enough about it to go after it. People who have made a study of conditions in the Third District say that Mr. Gueydan will not have any opposition for the Democratic nomination, but that the real fight will come in the general election, between himself and a candidate of the Progressive Party into whose ranks a large number of the old-line Democrats have gone, among them being Berry, Price, Stark and Judge Martin of Lafourche; Peterman of St. Mary; John Mark Assumption, Edwin Broussard of New Iberia, and many other noted supporters of the Democratic Party in the Sugar District.—Houma Journal.

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich.—"I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up. I read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.
