

CIVIC LEAGUE NOTES.

At a meeting of the Civic League held on Monday last, the ladies listened to a very able and lucid explanation by Dr. Goodwin of the objects and plans of the Fair to be held in New Iberia September 24, 25 and 26. Dr. Goodwin in soliciting the aid of the members of the Civic League laid stress upon the necessity of the people of this vicinity of looking to the Agricultural and Stock raising advantages as the only hope for their industrial advancement.

The ladies ambitious to assist in anything for the improvement of Iberia are quite interested and appreciate to the full the value of this Fair in bringing our resources to the notice of our neighbors and of instructing our own people in up-to-date methods in agriculture, stock raising and poultry raising. To assist the gentlemen who are working for the success of the enterprise, the League will have a meeting on Monday next and urge a good attendance for the purpose of enrolling as many workers as possible for this good cause.

At last Monday's meeting it was moved and carried that the small monthly fees heretofore exacted by the Civic League should be discontinued, and all back dues remitted, as it is considered that a strong membership, with the strength of union in work and influence, could work inestimable civic good in our midst. This present time is an auspicious one to add to the membership of the League as well as to recall negligent members. Will not the women of New Iberia, arouse their civic pride, join the League at its next meeting on Monday next, and assist the public-spirited men of the Teche Fair Board of Directors who are striving to revive the drooping business conditions of our section.

A meeting of the Civic League to decide whether there will be a sufficient working force among our ladies to assist the Teche Fair management, will be held at five o'clock Monday, August 30th at Hotel Frederic.

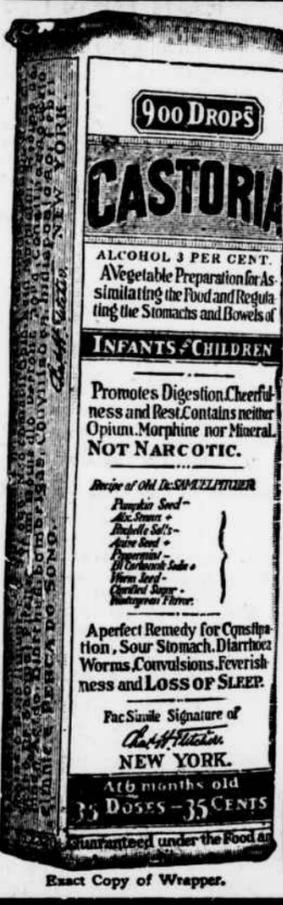

THE BOY SCOUTS TRIP.

On Thursday morning nine of the New Iberia Boy Scouts made a trip to the Salt Mines. The trip going was uneventful but upon arriving on the grounds and before they could rest their lunch and seek permission to enter the swimming hole, here came a 'high official' riding on a spirited horse to know who was responsible for this crowd. Suitable answer was made through the Scoutmaster. The permission was kindly granted. It seems that just the week before an irresponsible crowd took charge of the pools and stole all the bathing suits. This wild crowd ought to be apprehended for abusing a gracious privilege.

There need be no fear of the Boy Scouts trespassing on property. Every Scout is trustworthy and can be relied upon to do the right thing. The principles of Scoutercraft is what every boy needs and it will make him more manly and helpful.

The bathing and diving was enjoyed by the Scouts. During the noon hour the local store did a big business in the line of pop, cakes, etc., so that it is commercially profitable to have Scouts around. They boost business. There was abundance of lunch for everyone. A most interesting feature was some of the tests passed. Two Scouts built their fires successfully. One Scout tried to boil his potatoes and fry his bacon. It was interesting to watch him proceed. When the water had just about come to a good boil and the potatoes seemed to be safe on the outside with a great deal of pride the Scoutmaster presented with a cooked potato to enjoy with his lunch. Of course the Scoutmaster cut the potato into four pieces so that he and others may enjoy the skillful cooking of a trained Scout. When lo! and behold the potato was raw in the middle. One lesson in Scoutercraft was learned, things are not what they seem. Here is where nearly all the Scouts fall down the first time. They must learn how to cook anything well done so it can be eaten. The bacon test also failed as just at the critical moment the Scout lost his "bacon" by having it fall in the fire and making it unpalatable. There are many things between the lip and the cup and a Scout must not think he has his "bacon" until it comes up in good form.

Mines was enjoyed by everyone under the direction of the skilful guide Bill Mosely. Some of the Scouts held tightly onto their guide as we speed swiftly up and down. Some of the Scouts firmly declared that when we were "going up" we were "going down" and when we were "going down, we were "going up." This is the same experience that Uncle Remus said Brother Rabbit had: "Some go up and some go down, that's the way of the world."

METHODIST ITEMS.

The subject suggested by a member of the congregation for next Sunday is: "Whosoever is born of God doth not commit sin." This is a theme of interest to the spiritually minded and points the way to the "Life of Victory." The service begins at 11 A. M.

Last Sunday a large crowd was present to hear the sermon on "The Holy Trinity." This is a foundation truth of Christianity and affords an adequate basis for our redemption. It is to be found in Sacred Writ, in all the Creeds, and in all the aspirations of men as is expressed in the great religions.

The Senior League had a large attendance last Sunday night. Their social was given at the home of Mrs. E. B. Daniel's on Friday night. They expect to go to Charenton on Thursday of the coming week.

The Woman's Missionary Society were entertained on Tuesday afternoon at the home of Mrs. H. N. Pharr.

The Clover Leaf Class which is taught by Mrs. A. S. Lutz had their study hour on Friday afternoon at the home of Miss Ruth Gebert.

SENATOR BROUSSARD HIGHLY RECOMMENDED.

In the August number of the Traffic World, published in Chicago, we find the subjoined article which we take pleasure in reproducing:

"Robert Foligny Broussard, senator from Louisiana, probably the best-informed man in Congress on many phases of railroad regulation, author, with Representatives Doremus and Knowland, of the section in the Panama Canal act that forbids the ownership or control of water lines by railroads, would like to be made a member of the Senate interstate commerce committee. He became a senator on March 4. So far as known, the Democratic steering committee of the Senate Kern of Indiana is chairman, has not assigned Broussard to committees. Some shippers who know about Broussard's fight for them in the making of the Panama Canal act and for the retention of the Commerce Corporation are figuring on how they can do something to persuade the Democratic steering committee to place the Louisiana senator where he can do them the most good by assigning work to him in which

he can take an interest because it is of man's size. Letters from shippers and from organizations of shippers, addressed to the Democratic caucus, in care of either Senator Kern or Senator Clarke of Arkansas, president pro tempore, of James Hamilton Lewis, the Democratic whip, would be placed before the committee and before the assembled caucus. They would tend to show Broussard's colleagues that while they may think of him only as an advocate of a duty on sugar, he is known to them as a man whose familiarity with railroad regulation gives him a standing with men who don't know or care anything about the sugar fight."

'GRAUSTARK' HERALDED AS ONE OF WORLD'S GREATEST DRAMAS.

The entire nation is ringing with the success of "Graustark," Essanay's first feature, released direct to the exhibitor under the V. L. S. E. In New York, Chicago, Boston, Philadelphia, San Francisco, Atlanta, and, in fact, practically every city throughout the country, "Graustark" has been the big drawing card for the past few weeks.

This great six reel photoplay, dramatized from the novel of George Barr McCutcheon, is one that has brought out the enthusiasm of every spectator who has viewed it. Exhibitors declare that never have they had a photoplay that has brought such universal approval, nor one that has created such universal comment. Theatres have been thronged night after night with crowds, who left declaring it was the best photoplay they had ever seen. Repeated calls for rebookings have been made.

Critics on newspapers and magazines everywhere have joined in praising this play. They have lauded it for its excellent production, its scenic beauty, its dramatic and thrilling action, the exceptional acting of Essanay players, and for its intense plot that holds all spectators spellbound. And "Graustark" is a play that finds a sympathetic chord in every heart. It is the story of a love behind a throne. There is no man nor woman not interested in a love scene. When it becomes the love of conquest of a young American for a princess, it attains a romanticism that is overwhelming in interest.

It is no ordinary love, but a love of a man who is willing to sacrifice all, his life, for the woman to whom he has given his heart. This is what raises "Graustark" from an ordinary play and places it in the class of one of the world's greatest dramas.

Elks Theatre, Thursday, Sept. 2nd.

Children Cry FOR FLETCHER'S CASTORIA

LOUISIANA FIRE LOSS FOR HALF A YEAR.

The fire loss of Louisiana for the first six months of 1915 was nearly a million and a half dollars according to a statement issued by Fire Marshal C. H. Trousdale.

There were 1,348 fires and 319 exposures with a property loss of \$1,401,826 throughout the State from January to June, 1915. The fire loss during this period in New Orleans was \$308,416, the number of fires 629, and the exposures 126. These figures include 194 fires and 20 exposures with a loss of \$8,222 reported only by fire insurance companies, same being small fires of which the department had no knowledge.

The loss of Shreveport was \$150,065 in 98 fires and 30 exposures; Baton Rouge, \$43,056 in 26 fires and 10 exposures; Lake Charles \$38,894, 46 fires and 6 exposures; Alexandria, \$23,277, 23 fires, 4 exposures, and Monroe, \$54,629 in 66 fires and 28 exposures.

The figures show an increase in some of the cities, but a notable decrease is shown by New Orleans when compared with the same period last year. It can be said that the State as a whole presents a decrease.

The principal fires during the six months was the Aleus Box Factory, New Orleans, in May, entailing a loss of \$99,939; the fire in the lumber yards of the Lutech-Moore Cypress Co., Lutech, January 22, causing a damage of \$34,853 and the fire of the Enders Furniture Co., Shreveport, February 5, loss \$27,284.—Ruston Leader.

ALL WRONG.

The Mistake is Made by Many New Iberia Citizens.

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys. You must set the kidneys working right.

A resident of this vicinity shows you how.

Mrs. Frank Becker, 119 Fifth St., Lafayette, La., says: "I have never used a medicine equal to Doan's Kidney Pills for curing kidney trouble. I was troubled more or less for years by my kidneys. At times I suffered a great deal from a dull, throbbing ache across my kidneys and inflammation of the bladder. Whenever I have one of these attacks Doan's Kidney Pills always give me quick relief."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Becker had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

OATS MAY BE PLANTED IN SEPTEMBER.

The genuine rust-proof oats from Louisiana-grown seed may be sown as early as the second week in September, if the moisture of soil is sufficient to germinate the seed, or they may be sown as late as the latter part of November. From early sowing good pasturage will be furnished in four weeks from date of sowing. We prefer not to sow less than a bushel and a half and not more than two bushels per acre. The land should be well prepared and the seed covered to a depth of one and a half to two inches. Late sowing should not be covered so deep. If a grain drill is not available, a good disc harrow drill is not available, a good disc harrow serves the purpose well to cover the seed. An ordinary iron-tooth harrow will serve as a last resort. Sowing seed in advance of the turn plow is sometimes practiced, but the results are uncertain, and this is not considered good practice.

As to whether or not the land should be pastured during wet weather depends upon the quality of the land. If the soil is deficient in vegetable matter, and has a large amount of clay, it is liable to become very hard in dry weather, is pastured during the wet weather. Little if any Louisiana land will be injured by pasturage when the soil is dry enough to permit of plowing. If land is to be selected especially for winter pasture crops that do not form a permanent sod, the sandy soil should be selected.—W. R. Dodson, Director Experiment Stations, L. S. U.

Orders taken for engraved embossed letter heads let us show you our samples. Keep your money at home by placing your order with the Enterprise.

LADY AUDLEY'S SECRET.

Lady Audley crumpled up the letter her husband had given her to read. It had come at last. After years of contentment and happiness, a ghost of the past had arisen to destroy her peace.

Several years before, she had married the son of a wealthy father who had disinherited his son for marrying against his wishes. The young husband later went to Australia in an attempt to make a fortune, leaving his wife.

Alone, destitute, she accepted the proposal of Lord Audley, who did not know that she had been married before. Now after years of comparative happiness, her husband hands her a note from his nephew, telling that he was bringing with him the man who had been her husband, the man from whom she had not heard for so long. She sees her chance for happiness fading rapidly.

What should she do? What could she do? The answer forms one of the most dramatic climaxes ever thrown on the screen and affords Theda Bara, the famous vampire woman, full scope for her wonderful powers of dramatic and emotional expression.

Elks Theatre, Tuesday August 31st.

A Doctor's Prescription for Cough An Effective Cough Treatment.

One-fourth to one teaspoonful of Dr. King's New Discovery, taken as needed, with soothe and check Coughs, Colds and the more dangerous Bronchial and Lung Ailments. You can't afford to take the risk of serious illness, when so cheap and simply a remedy as Dr. King's New Discovery is obtainable. Go to your Druggist to-day, get a bottle of Dr. King's New Discovery, start the treatment at once. You will be gratified for the relief and cure obtained.

(Advertisement.)

One of the lamentable accidents of the late storm, was the death of Mr. Alfred Gates Todd, who was lost near Morgan Point, Texas, where he was at work when the hurricane came. He with four others, took refuge in a small hotel, which disappeared in the wind and waves. He was born in Franklin 34 years ago, and was the youngest son of our fellow-townsmen, Mr. Alex S. Todd. He left here in his young manhood with a strong determination to make his own way, and he did. Young Todd was known as an industrious, quiet and deserving citizen, and held in high esteem by a wide circle of friends. Our sympathies go to his relatives in their sad bereavement. It is not known here whether or not his body has been recovered.—Watchman.
