—Announcements have been issued by Mrs. Max Mattes of the wedding of her daughter, Miss Ninetta and Mr. Joseph H. Orr recently of Panama. They will reside in the Isthmus of Panama where Mr. Orr is employed.

—Mr. W. A. Hatch took possession of the restaurant in the Leopold Levy building corner of Main and Bridge streets this week and everything is being put into such condition that it will soon be one of the nicest eating houses in New Iberia. Both Mr. and Mrs. Hatch will exert their best endeavors to build up a large restaurant trade and we are satisfied the people of this City will lend them every encouragement. This property has been conducted as a restaurant for several years and the location is splendid and easy of reach for all who desire good meals.

—Several corn buyers from different parts of the country made their first appearance here yesterday and in all likelihood the grain will bring such prices that it will be profitable for those who have an abundance of it to be placed upon the market. We understand several hundred barrels has already been sold at \$1.00 per barrel. It is very probable that it will bring as much as \$1.25 before many weeks. Our farmers should bear in mind that it is an unwise policy to sell at sacrifice prices and then in turn have to buy it back to tide their stock over until the next crop which is done repeatedly by many of our farmers year in and year out. We are pleased to see a number of them raising hogs with their surplus corn which is a great deal more profitable than selling it for others to feed their stock with who are energetic enough to raise hogs.

—The primaries in January for the Parish offices such as Sheriff, Clerk of Court and Assessor, both Democratic and Progressive, promises to be very interesting because there will be several candidates for each office in both parties. While we have not been authorized to announce all of the prospective applicants for the favors, we have been requested to announce that Mr. Fred Decuir will seek the Democratic nomination against the present incumbent, Sheriff George Henderson. Mr. Decuir has been actively engaged in business in New Iberia for twenty years and is very popular with the masses of the people. He came to this City from Belle Place, where he was born and has one of the largest family connections of any man in the Parish. It is hard to tell which of the Creole families that are not related to him in some manner or other and if he secures the votes of his relatives alone, he will have quite a good start. He has always been one of the foremost leaders in local Democratic politics, and as he says he will be guided solely by the Democratic primaries. Fred is, aside from that known by almost every man, woman and child in the Parish and as a citizen his friends hold him in high esteem.

No. 666 will cure Chills and Fever. It is the most speedy remedy we know.

—Since Mayor Sealy has been inducted into office he has used his best efforts to curtail several items of expense that will prove beneficial to the finances of the City. Through his diplomacy he has succeeded in getting the Police Jury to release the City of \$15.00 per month, which was paid for the use of the ground upon which the jail stands which is quite a saving. He has also been able to have the feed bill for prisoners reduced two and one-half cents each meal per day per prisoner which during the year will amount to a great deal. Another abuse he found on the part of many people and that is to apply for financial aid when in

many instances the parties were not really objects of charity. One party obtained as much as \$5.00 per month from the pauper fund when the parents of this same person holds in their name not less than \$12,000 worth of real estate. Mr. Sealy is not opposed to giving assistance when he is convinced that charity is necessary, but he is determined that no property holder will get another nickel from the City without earning it. In fact, so far he has succeeded in finding jobs for all who really want employment. Almost daily he has women come to him who want to be hired as cooks or servants. It would be well for those who desire such labor to make it known to him. In the curtailment of expenses we notice at the last meeting Judge Hacker, the City Attorney volunteered to have his salary reduced from \$50.00 to \$35.00 per month.

Biliousness and Constipation.

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." Obtainable everywhere.
