

**PLANT VELVET BEANS WITH CORN CROP.**

"Plant velvet beans in your corn patch this year," is the advice offered Louisiana corn club boys by W. R. Perkins, forage crop specialist, Extension Division, L. S. U. "Turn the beans under in the fall, use the same piece of land for your club work next year and watch the improvement in your crops."

"There are several good varieties of velvet beans, but we suggest that you plant the Early Speckled (100-day) variety. They will make ample growth on the land you have selected and will produce a good crop of seed. Plant from one-third to one-half bushel of seed per acre. This will give you a bill of velvet beans every 10 or 12 inches. Plant them on the row between the hills of corn at the first working of the corn unless the corn is not planted until after the middle of April. Cover the seed about one inch or one and one-half inches deep. It is best to inoculate the seed, though on good land or where stable manure has been used as a fertilizer inoculation may be omitted. The vines do not grow fast until mid-summer, and they will not be in the way when the corn is being cultivated. Later in the season they will wrap up everything and will interfere somewhat with gathering the crop and the selection of seed. This disadvantage, however, is very small when compared with the fertilizing value of the crop."

"The mature seed of the velvet beans should be gathered after frost and the vines turned under deep. If you will plant this piece of land in corn next year you will get a much better crop and will have conducted a demonstration that should be worth a great deal to every man in the community who sees it."

"Do not fail to plant velvet beans."—L. S. U. Press Bulletin

**Safe Medicine for Children.**

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most actual in relieving coughs, colds and croup. Obtainable everywhere.

Flowers for the living are better than flowers for the dead. So thinks Dr. Frederick L. Hoffman, who was sent out by the Prudential Insurance Company to look up what the Hawaiian planters were doing for their laboring men in the way of sanitary uplift and general upkeep of their help. He claims that what the Hawaiians do is in advance of what the owners of factories do in the Southern States, in Cuba and Porto Rico. They have hospital facilities, free medical aid even to a relatively low grade of orientals and Filipinos who are often destined and predestinated to degradation by unwholesome surroundings. Some years ago the writer was in Holland and saw the first attempts that were made for Russians in beet fields and factories in trying to house them. Barracks were such that the Hollanders would not live in them and this was true of Germans. A noted German claimed that not until the owners themselves raised the standard, would the standard of workmanship be raised. Dirt, untidiness, lack of comforts do not raise the moral of a working class. But everywhere there is a rising tide of interest in these matters.—La. Planter and Sugar Manufacturer.

**CASTORIA**  
For Infants and Children  
In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

One of the blessings growing out of the present war is the overthrow of the Romanoff dynasty in Russia, which has so long held the people of that country in ignorance and subjection to a state of practical slavery, making that country the hot-bed of anarchy, brought on by the spirit of unrest engendered by the cruel oppression of its subjects.—Ruston-Leader.

Drives Out Malaria, Builds Up System  
The Old Standard general strengthening tonic, GROWER'S TASTELESS CHILL TONIC, drives out malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

**THE PERIOD OF RUMORS**

The flashes Saturday of German raiders and submarines along the Atlantic coast assure us that we have with us the season of war rumors. Until the novelty of actually being in a real war wears off we may look for a varied daily assortment of sensational reports most of which will turn out to be canards.

Such was our experience in the Spanish-American war. It will not be forgotten how often imaginary fleets appeared off the American coast, nor how often fables originated in the Mole St. Nicholas.

Submarines may sneak into American waters, if it is true Germany has a base for them on the Mexican coast. But it is altogether improbable that any German raider is going to invite the inevitable destruction which would be her fate by skirting the American coast line.

German raiders have wrought considerable destruction of neutral and belligerent shipping; but they have heretofore given the American coast a wide berth and have largely confined their operations to those portions of the seas where they were least likely to run foul of British or French warships. If the patrols of British vessels along the American seaboard have been sufficient to keep them away, what reason is there to assume that they will venture within gunshot of the American coast when the odds will be so much greater against them now that they must run the gauntlet of both American and Allied warships.

People will do well to take war rumors with a large grain of salt. The German are not supermen, much as they first led the world to believe so. Sporadic visits of submarines may be expected; but Germany has her hands too full close to her home bases to be able to make any serious demonstrations against the American coast.—N. O. States.

**Spring.**

Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved however by applying Chamberlain's Liniment. Obtainable everywhere. (Advertisement.)

Many a man is denounced by men as a traitor who have not half the patriotism as he has. Some of them don't even know what patriotism is.—Ruston-Leader.

**CALOMEL SALIVATES AND MAKES YOU SICK**

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

**COTTON JUMPS \$4.50 BALE ON WAR MOVES.**

The war developments over the Easter holidays caused a rise of \$4.50 a bale in the price of cotton on the local market Monday. Futures rose 84 to 89 points in the first few minutes of trading. The ring in the new exchange was christened by one of the most sensational sessions seen in this year of sensational markets in cotton. The declaration of Congress of a state of war with Germany, the actions of other neutral nations, continued bad weather over the belt, a strong demand for spot cotton at very high prices and reports of large contracts for cotton goods for war purposes being placed by the government were the main bullish features of the morning.

**Insomnia.**

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere. (Advertisement.)

**A \$160 HAY PRESS FOR \$20.**

It usually takes time to arrange for cooperative purchase of improved implements or machinery, so it's none too early now to decide what lines you would like to buy in this way. We are constantly running up on examples of the wisdom of cooperative purchase. Only a few days ago, for example, a friend remarked to us: "I bought a \$160 hay press last year for \$20." The statement was rather startling, but he at once explained how he did it: "I paid \$20 each, seven other men paid \$20 each, and got just as much service out of the press as if I had owned it all myself. So to all intents and purposes, I simply bought a \$160 machine for \$20. And seven other men did the same thing."—The Progressive Farmer.

**Bad Cough? Feverish? Grippy?**

You need Dr. King's New Discovery to stop that cold, the soothing balsam ingredients heal the irritated membranes, soothe the sore throat, the antiseptic qualities kill the germ and your cold is quickly relieved. Dr. King's New Discovery has for 48 years been the standard remedy for coughs and colds in thousands of homes. Get a bottle today and have it handy in your medicine chest for coughs, colds, croup, grippe and all bronchial affections. At your druggist. 50c.

Formerly when a man got swelled over his job, we would call him down by the crushing remark: "Here's some potato." We also would speak contemptuously of the lowly though fragrant onion. Now, see what the present day has brought to the potato and onion. All of which recalls the truth of the biblical saying that the "lowly shall be exalted, and the proud shall fall."—Ex.

**Children Cry FOR FLETCHER'S CASTORIA**

Here is something of interest to gardeners. If you will saturate tough paper and wrap it closely around the stems of cabbage, collards and other tender plants from close down to the ground up to the leaves it will prevent the cut-worm destroying them. They will eat leaves from cabbage and collards, but unless they cut them all it does not destroy the plant.—Leader.

**Piles Cured in 6 to 14 Days**

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives ease and rest. 50c.

**MILITIA MEN PENSIONED BY U.S. GOVERNMENT.**

Incorporated in the bill to pension certain veterans of the Indian Wars, which passed at the last session of Congress and was signed by the President on March 4th, a few minutes before the expiration of his first term, was provision for the pensioning of the State militia, as well as members of the regular army, which participated in the campaigns against hostile Indians on the Western Frontier.

This bill has an interesting history, dating back to a meeting in Denver, Colorado, on Thanksgiving Day 1909. On New Year's Day 1910 a permanent organization was formed and Mr. Henry Hegwer was elected Commander-in-Chief. On taking his oath of office, Mr. Hegwer took a solemn obligation never to give up until Congress passed a bill to reward these soldiers who endured such hardships under conditions which were never equaled in any other warfare in the history of this country.

The carrying out of his solemn promise to his comrades has necessitated Mr. Hegwer's coming to Washington on three different occasions since he had the bill introduced in 1910. After the passage of the bill, Mr. Hegwer found that so much remained to be done in order to secure individual justice to his comrades that he has moved the headquarters of the United Indian War Veterans to 608 3rd street, Washington, D. C., and is giving his time to advising and keeping all veterans of these campaigns—regardless of whether they are affiliated with his organization or not—posted on their status under this bill and is furnishing copies of the same free of charge to all who apply.

Respectfully submitted  
W. N. FREEMAN,  
1214 O Street, Washington, D. C.

**CLIP THIS AND PIN ON WIFE'S DRESS**

Cincinnati man tells how to shrive up corns or calluses so they lift off with fingers.

Ouch ! ! ! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain. He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

People will go daft on something or another continually. Sometimes it is one thing, sometimes another. The whole world appears to be crazy on the subject of war just now. But we notice that there are few of the craziest ones who want to participate in the fighting except with their tongues and lips. They prefer taking it out in cursing the Germans at long range.—Ruston-Leader.
