The Bridge club met last Saturday afternoon at the home of Mrs. Leon Landry.

ATTENTION!

The modern soldier fights with modern weapons, and the business man, who is constantly on the FIRING LINE, cannot hope for success unless he also goes into battle fully and modernly equipped.
A BANK ACCOUNT is ALWAYS AT ATTENTION; A PROTECTION in times of PEACE - A STRENGTH in times of WAR.

State National Bank

J. B. FERRY, Cashier

NEW IBERIA, LA.

The su-joined telegram relative to Senator Broussard appeared in the Times-Democrat last Thursday: "Senator Broussard's successful fight against the excise tax on sugar in the Senate constituted the main topic of local discussion today. R. F. Delahoussaye, a well known planter, in commenting on the result of Senator Broussard's successful fight for the sugar farmers, said this afternoon: 'Few of us fully realize the magnitude of the service Senator Broussard has rendered us. I am speaking strictly as a cane farmer. The defeat of the excise tax means to every cane farmer in the sugar section of Louisiana 80 cents per ton or something over \$150,000,000, and a saving to the consumer throughout the United States of \$36,000,000.'

Rub-Mv-Tism—Antiseptic. Anodyne kills pain, stops putrefaction.

Some weeks since we mentioned the beautiful tobacco plants raised by Mr. B. F. House, the old Confederate soldier, who also is such a booster of the great advantages of the soil of Iberia Parish. On Thursday afternoon it was our pleasure to sample some of the tobacco raised by Mr. House and we must confess it smokes even better than the Perique we hear so much of raised on the coast. Mr. House has given samples to many of our citizens to show just what can be done here in tobacco culture and ere long tobacco planting will become quite common here.

No. 666 will cure Chills and Fever. It is the most speedy remedy we know.

Master Lyle Fisher the bright 14-year-old son of Mr. Edward Fisher has set the pace of all New Iberia boys, accepting a responsible clerkship at a handsome salary in the office of the Southern Pacific Station at Baldwin, La. The young man acquired his experience as a clerk at the station here after his school hours were finished and when the tempting offer was made him, accepted, and left to resume work the next day. It is his intention to devote his spare hours to study after his day's work is completed and we have no reason to doubt the ambitious youngster will some day win promotion in railroad circles.

Pfister Brothers, our manufacturing jewelers, are making some material changes in their jewelry establishment. On one side of their building they are having erected by Mr. J. W. Taylor a large fire-proof brick vault commensurate with their needs since they have worked up quite a large outside trade. A large stair-case will be built in the middle of the floor space leading to the second story where they carry their general stocks. Several pieces of machinery for the manufacture of jewelry is expected to arrive soon and when it is installed they will be as fully equipped as many of the workshops in city establishments who profess to be wholesalers. They keep constantly on the road securing orders from jewelry stores. Mr. Julius Maier and their business has grown enormously within the past three years.

On Sunday afternoon about five o'clock two negro urchins only about eight years of age were caught on the top of the Globe Clothing Store trying to get into the building through a skylight. These little boys, from what we are informed were the same two who had broken into the hardware store of Mr. Leon Dreyfus some weeks ago. They were held by the police and subsequently turned over to their parents for punishment. It is unfortunate that there is no law or place to put boys of that kind and many of them take advantage of it.

Sash, Blind and Door Factory, special work of all description. Cisterns and Tanks.—Bertrand Lumber Co.

The Chanderville Times of Illinois, dated Sept. 7th chronicles the death in that community of Mr. Chas. E. Foster, a highly respected citizen and husband of a young lady from this City, nee Annette Vuillemot. The wedding of this couple took place in Lonoke, Ark. on January 2d, 1916 where Miss Vuillemot conducted a millinery establishment. After the marriage Mr. and Mrs. Foster removed to Chanderville. The deceased met with an accident while employed at Milwaukee, and his injuries resulted in his death. Mr. Foster also leaves to mourn his death his parents and several brothers and sisters.

Drivers of automobiles in St. Mary parish in the future will have to observe certain ordinances enacted by the Police Jury of St. Mary relative to lights, and also certain speed ordinances created by the villages of Charenton, Baldwin, Centreville, Garden City and Verdunville whom have set the speed limits to fifteen miles or less. In the illumination of cars none are to be permitted on the gravel road in St. Mary with a head light unless it be arranged that no portion of the reflected light shall rise more than forty-two inches above the level surface on which a vehicle stands. Heavy penalties are to be imposed on all auto drivers or owners who fail to meet the requirements of the Police Jury. Sheriff Peot has issued printed copies of these ordinances and officers along the St. Mary line will see that they are properly observed. So many of our people use this particular highway—too much publicity cannot be given the ordinances which have been framed to protect life and limb. October the 10th is given for everybody to arrange their machines accordingly.

Mr. Anatole Dugas, one of the prosperous farmers of Little Fausse Pointe was the recipient this week of a fine Holstein bull shipped to him direct from the State of Wisconsin.

The friends and acquaintances of Mrs. C. S. Jackson will regret to learn of her death which occurred at the home of her mother at El Dorado, Arkansas. Deceased resided here with her husband for several years, in fact considered New Iberia her home. Her grief-stricken husband has the sympathy of many friends.

On Monday night last, between the hours of eleven and twelve the family of Dr. E. S. Fulton as well as himself had quite an exciting time subduing a fire in their household. It seems they are accustomed to burning a small light in an adjoining room to the one occupied by themselves, and rodents of all sizes being quite common upset the lamp which fell to the floor spraying oil on a wardrobe starting a quick blaze. The Doctor made for the cistern and commenced carrying buckets of water to subdue the spreading fire and succeeded after several suits of clothing had been charred and otherwise destroyed. The Fire Department was called to the scene of the fire, but before the hose could be stretched the danger was over.

In real estate circles several pieces of property have changed hands recently and we are proud to state there are but few empty houses in New Iberia at this time. Much of the demand for houses is due to the oil development which brought a number of outsiders here and in some instances our own people have returned to again take up their residence in New Iberia. Last week the property of the estate of the late Chas. Lee was transferred to Mr. Henry Patout whom we understand will remodel it to be used as his permanent home. In many instances fresh paint is being applied to many houses and as a whole things look much brighter as a consequence.

Rev. J. M. Langlois of St. Peter's Catholic church will hold a special mass next Tuesday morning, Sept. 18th at 8 o'clock for all of the selected young men who have departed for the army as well as those of our young men who will leave for the training camp the subsequent day of the mass, the 19th inst. Non-Catholics are also invited to attend the services. Seats in the middle aisle will be reserved for the soldier boys who are requested to visit the church in a body. The public in general are also requested to lend their presence at the mass in behalf of the departing soldiers.

Genuine Red Creole Onion seed for sale. Call up Dr. J. A. Goodwin.

Advertised letters week ending, September 8th, 1917: Miss May Burton, Murphy Carroll, John Donis, Jas. Damerewell, Frank Gilbert, Miss Bertha George, Andrew Hart, Mrs. Learfena Johnson, Miss Elder Lopez, Sam Levy, Mrs. Pralcaire Moor, Miss Mae and Clara Moran, Miss Beulah Macha, Overland Knight Co., Miss Mary Dorigues, Mrs. Margret Thyme, Mrs. Alvira-Tailor. When calling for the above letters mention Advertised.

METHODIST CHURCH NOTES.

The Board of Stewards met on Tuesday night of this week. The Sunday School is beginning to make arrangements for the observance of rally day.

Rev. H. W. May, the Presiding Elder, will preach next Sunday at 11:00 A. M. Quarterly Conference will be held Saturday night at 8 P. M.

Sunday, Nov. 4th, has been set apart as Sunday School Day. On that day throughout the State, all the Sunday Schools are requested to give special emphasis to getting all the community out to Sunday School. We should make it the greatest day in the year for the Sunday School.

Ladies your spare time can be profitably spent making Hand-Made Infants' Wear. Send samples or write for particulars.—Maison Rouff, 126 Chartres Street, New Orleans, La. 9-15-47.

Communicated.]

Regarding the Enterprise's development in East End, a chapter of accidents or blunders has been the brief history of this new venture. The gas that has been bubbling and the oil indications which have astonished all intelligent observers for many years, are still there. Oil men, who are familiar with wells in Oklahoma and California say that this remarkable formation is identical with that of those most famous wells. The boring here had only reached eighteen hundred feet, striking a big gas pocket. Then, to have found oil there would have been but a surface production, usually, generally is soon exhausted. No doubt some courageous company will strike it rich some glad day. Faith and hope and indomitable perseverance are necessary to successfully take from the earth her hidden riches and Uncle Sam needs them badly now.

An 18-year-old Utah boy is the inventor of a combined rule and triangle that solves problems in trigonometry, geometry and mechanical drawing.

BIG SUGAR PLANT

USES NATURAL GAS.

Houma, La., Sept. 12.—The Terrebonne Sugar Company has closed a contract with the Terrebonne Gas Company by which the latter will furnish natural gas from its wells at Montegut for fuel for the former during the grinding season. The Terrebonne Sugar Company owns one of the largest cane sugar plants in the United States, it is claimed. The boilers of this concern are capable of generating 25,000 horsepower.

Are you thinking of a present to give that "Soldier Boy" before he leaves. A regular Military Wrist Watch would be the most practical and useful thing you could give him. We have a complete assortment for your selection.
