INSURANCE AGENT.

PERSONALS

Mr. and Mrs. N. C. Crandall, with their son and family, are visiting their daughter, Mrs. H. N. Brown.

Mrs. Frank Dietlein and daughter Miss Alice returned Tuesday to their home in Opelousas after several days visit here with Dr. and Mrs. Junius H. White.

Dr. Collins of Baton Rouge spent several weeks here, the guest of Dr. J. A. Goodwin.

The Tuesday Five Hundred club met at the residence of Mrs. Dr. Edmond Landry. The prize was won by Mrs. Harry Smith.

Miss Marietta Delahoussaye left last Saturday for Lafayette to attend the Industrial Institute.

Miss Maxie Taylor was a visitor in Jeanerette this week for a few days.

The Five Hundred club met Thursday morning at the home of Mrs. Havert Sealy. The prize was captured by Mrs. John Buquor.

Mrs. L. O. Vidrine returned Tuesday from a visit to relatives in New Orleans.

Mr. Fitzhugh Murray has returned home from Glencoe where he was employed.

Mrs. A. J. Suberbielle will entertain the Bridge Club at her home Saturday afternoon.

Miss Cora Bourgeois of Jeanerette is the guest of Miss Gussie Brown.

Miss Louise Estorge of Abbeville was a week-end visitor here at the home of Misses Estorge.

Mrs. Henry A. King and children have returned from a visit to Baton Rouge.

Miss Nellie Scally was a visitor here last Friday for a few hours.

Mr. William Broussard returned Thursday to Lafayette, having visited relatives here.

Mr. Wilson Harkins has returned home from several months spent in Brownsville, Texas, where he was employed.

Mr. and Mrs. George Cousin are visiting their son George in Columbia, S. C.

Mrs. Henry Smith entertained a few friends last Saturday afternoon at Bridge. The prize was won by Mrs. F. G. Blumenthal.

Mr. Louis Prejean returned home Thursday from Houston, Texas, where he went on a business mission.

Mrs. Paul LeBourgeois entertained the Five Hundred club at her residence on Center Street.

The young men of Iberia entertained their young lady friends with a dance Thursday evening at the Knights of Pythias hall.

Mrs. Daniel Southern and baby of New York are the guests of Mr. and Mrs. Harry Hall.

Mr. Leonard Barrow returned Monday from a week-end visit to New Orleans.

Mr. Jeff Arndez was a business visitor to Loreauville Thursday.

Mr. Thomas T. Carey was called to Franklin Monday to act as Court stenographer in a Civil case.

Mrs. Thos. T. Carey presented her husband with a fine daughter on Wednesday morning at 5:25 o'clock.

Hon. Mareel Derouen and Mr. Landry of the Seventh Ward left on Thursday for San Antonio, Texas to purchase several carloads of mules.

The home of our young friend Mr. Walter F. Villermin was made happy again last Tuesday owing to the arrival of a fine bouncing nine and a half pound boy.

Mr. S. O. Nuckolls left on Thursday for Dallas, Texas and other points west of business in connection with his brokerage business.

The friends of Mrs. W. G. Hatch of Olivier Station regret to learn that she is confined to her bed by illness.

Mrs. John Emmer who has been on the sick list for several months is not doing as well as her friends would wish. It is hoped she will soon recover.

Mr. and Mrs. P. E. Sandager of Jeanerette are stopping at the home of Mrs. A. J. Cammack for a few weeks. From here they will go to Marlin, Texas to spend a few months after which they will go East. The beautiful property of Mr. Sandager was sold to Mr. Leo Conrad some months ago and will be converted into a rice farm.

LOCALS

The regular services of the Presbyterian church will be held to-morrow morning at eleven o'clock. Prayer meeting on Wednesday afternoon at 7:30 P. M. The public is cordially invited.

On Saturday between the hour of twelve and one o'clock, the photograph gallery conducted by Mr. John Mc Davenport which adjoins his home on Washington Avenue was totally destroyed by fire despite the prompt arrival of the fire department. The building adjoined his home and it too had a very narrow escape. From what we learn the fire was caused by the explosion of an oil stove.

Mr. John Bruder who has been conducting a hat cleaning establishment at 142 Railroad Avenue for some time has removed his establishment to 423 West Main Street. Mr. Bruder has built up an extensive business since establishing himself in our community and no doubt being in a more central location will receive considerable more business in the hat line.

FOR RENT on shares, three arpents of land in the Corporate limits on Bayou Teche.—Apply to 707 East Main Street.

The Hall-Suberbielle Company consisting of Messrs. Harry T. Hall and J. P. Suberbielle have made arrangements to open a branch brokerage office at Memphis, Tenn. Mr. Suberbielle will leave next week for the above place to represent the concern. These gentlemen will continue to operate their corn shellers here next season also.

Break your Cold or LaGrippe with a few doses of 666.

Hon. John M. Parker, the Food Administrator of Louisiana visited New Iberia on Thursday last and addressed the colored citizens of New Iberia on the food situation and how it should be conserved, if we hoped to be successful in winning the war. The meeting was held at the St. James Methodist Episcopal church during the session of the Louisiana Annual Conference of Negro ministers which was presided over by Rev. Dr. W. P. Thirkield the Bishop of the St. James Church. Aside from the large audience of colored citizens from here who were present was a delegation of white citizens who had been especially invited to be present. From here we understand Mr. Parker delivered an address at Franklin to the white people.

1917 MODEL FORD FOR SALE HAROLD KAHN.

Mr. Robert A. Jacob, our live real estate dealer sold this week for Dr. Guy A. Shaw his six hundred acre tract of land which lies within a few miles of Loreauville. The purchaser was Mr. J. P. Seaton of Eagon, Acadia parish. The land brought the magnificent sum of \$21,000.00. The newcomer and purchaser, from what we are informed, will plant rice on the land at once. This is the second large tract of farm land sold recently to Acadians in this Parish. Some weeks ago the beautiful property of Sheriff Landry which is situated near Spanish Lake was disposed also at a nice figure. It seems of late there is great demand for large tracts for the planting of rice and many outsiders have their eyes on the lands in this Parish.

Ruby-My-Tism—Antiseptic, Relieves Rheumatism, Sprains, Neuralgia, Etc.

The Morgan City Review contained the subjoined account of an order of the War Department inducting into immediate military service Mr. J. O. Hedd formerly of this City: "The Local Board is in receipt of orders from the War Department authorizing the induction into immediate military service of J. O. Hedd, formerly of Ramos, La., now located at Gable, S. C. A telegram was sent to Mr. Hedd, ordering him to report to the nearest Local Board for physical examination and if found physically qualified for service, that the necessary approval would be forwarded to him with a request to the nearest Local Board to furnish transportation to Washington, D. C. where he is ordered to report to the Commanding officer 20th Engineers, N. A. Camp American University."

Sash, Blind and Door Factory, special work of all description. Cisterns and Tanks.—Bertrand Lumber Co.

In the question and answer column of the Times-Picayune appeared the following account of the Italian triplane that will be of great service during the present war: It is as follows: "It is assumed that you refer to the huge bombing triplane that Italy has recently produced. This new machine is of the Caproni type. It climbs 3250 feet in thirteen minutes; 6500 in twenty-seven minutes and 10,000 feet in sixty-seven minutes. It carries three men, three shell guns, 7500 pounds of bombs and fuel for six hours. Its 900-horsepower engines drive it at a maximum speed of eighty miles an hour. This machine is regarded by the Italians as the superior of the long range cannon as it can, of course, drop explosives far beyond the range of the heaviest artillery. In order that the immense structure might be solid as a whole and yet not be too heavy, power is generated by three engines distributed over a full third of the wing span, thereby lowering the leverage of the weight on the truss. The engines are each incased in a streamline body in order to decrease the resistance. The middle body is shortest; hence its three-bladed propeller is mounted in the rear. The outer bodies have two-bladed tractor propellers."

A 1916 Studebaker car for sale. Good condition. Two extra tires with bargain. Apply this office.

West Peters, the second negro captured and tried for the murder of young Freddie Lamperez on the night of February 12th, 1913 was found guilty of manslaughter by the Jury in the District Court last Friday night. After the evidence was all before the Court and Judge Simon pointed out the penalties to be imposed should they, the Jury bring in a verdict of guilty they retired to their rooms and in twenty minutes handed in a decision convicting the negro to life time in the State penitentiary. Aside from the circumstantial evidence adduced during the trial the fact that the accused only four days before being brought before the Court, with others, had attempted to make his escape from prison is thought had a great deal to do with his conviction. We understand Mr. I. W. Gajan has asked for a new trial at the next session. If it is granted unless the accused is entitled to a bond he will have to remain in prison until the next criminal session. The other negro who served two years for the same crime is said to have returned here after his liberation from the penitentiary.

To Cure a Cold in One Day. Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. H. W. GROVE'S signature on each box. 50c.

The order of Dr. Garfield, the fuel controller of the United States, closing down for five consecutive days all industries east of the Mississippi including Minnesota and Louisiana, was obeyed promptly last Friday when the order went into effect. In New Iberia our owners of industries that used coal and other fuel showed their patriotism by complying with the order in its detail. Some few store keepers who were not cognizant of the law and its relations to their business burned wood instead of coal thinking that they were within the law. Next Monday according to our interpretations of the orders of Mr. Garfield all of the stores and business houses will be closed tight, with the exception of food dispensers who will be permitted to open up until the noon hour and no fires are permitted, even in that case. Many of the people may not appreciate the orders of the Government, but under no circumstances should we jeopardize the Government in its determination to win the war. These times when thousands of our young manhood are at the front and others going forward to fight for the cause of democracy throughout the world, it behooves every good loyal American to give his aid and assistance to the President and those who are assisting him in shaping legislation that will help us to win a glorious and quick victory over our enemies.

WANTED—One good house or house canvasser. Steady employment. Room for advancement.—Apply 208 French St., Sunday, 12 to 2 P. M.

The Commercial Journal of Thibodaux, La., contained the subjoined article recently anent industries that also apply to New Iberia:

"Needful industries should be inquired into at the present time. There is absolutely no reason to wait until the war is ended and matters have adjusted themselves to think of the different channels of industry into which money might be invested in this rich and prosperous section of ours. More good would come to the government by paying indemnity and taxes on industrial enterprises than on uninvested capital or the meagre returns therefrom. It may be argued this is not the time, but it is every bit as reasonable now as it would be when matters are adjusted and uninvested money has found its way into the ruts and hiding places it found previous to the war. What we should be interested in primarily is the establishment of such industries as will induce healthy pay rolls to keep business brisk, to increase population and to develop the rich and abundant opportunities which have always been ours and have been so sadly neglected. We will continue to wait until it is too late. With government control of railroads, rates should be adjusted in time so as to make no one section in a better position than the other. Let us therefore inform ourselves fully and correctly along industrial lines and the development thereof."

New Iberia, Louisiana.

Dame rumor is current that outside capitalists are contemplating erecting in our City a large rice mill during the year, in time for the next year's crop. In this respect it behooves the business men of New Iberia not to let the opportunity slip to secure this industry for this community, as it is only through the location of industries that we can hope to see our community prosper, and it is every citizen's duty to lend a helping hand when these rare opportunities are presented. It is also reported that there is fine prospects for the establishment in New Iberia of a syrup making sugar mill by local capitalists. Whatever inducements these promoters desire should also be accorded them so that this industry will be an accomplished fact. For some time it has been generally known that a bonus of some twelve hundred dollars could secure the removal from another point of a large oil mill that would give employment to some forty or fifty employees at least six months in the year, and still no steps have been taken to raise the amount. This is a matter that should be looked into at once and brought to a realization if we hope to see New Iberia take its place as an industrial center and it behooves our citizens to lend encouragement to the enterprise, more especially the large real estate owners. The truth of the matter is every citizen in New Iberia should be interested and willing to assist in landing industries here if they hope to see our City advance and the people generally prosper as a consequence. Despite the fact that we have one of the best agricultural sections of the entire United States it is imperative that we have more industries in our midst. With a population as large as ours depending solely upon agriculture we can never hope to see the masses as prosperous as they might be were conditions different. With the establishment here of a number of industries giving lucrative and steady employment to the people the year around there would then be no need for our citizens to seek our fields for the maintenance of their families such as they have been doing for the past five years. These are matters that concern every resident

of our little City, and it is everybody's duty to lend encouragement to every movement calculated to secure these much needed enterprises.
