

**COUNT ROON'S PEACE PROGRAM ANNOUNCED.**

Germany Demands British Fleet and Few Other "Trifles."

Paris, July 1.—Great Britain must turn over its war fleet to Germany, return Gibraltar to Spain, and restore Egypt and the Suez canal to Turkey. Great Britain, France and the United States must pay Germany an indemnity of at least \$45,000,000. Belgium and French territory must be surrendered.

These are among the conditions included in the German peace program published in the Nachrichten of Goerlitz, Prussia, by Count Roan, a member of the Prussian House of Lords, according to a Havas dispatch from Basle, Switzerland.

Count Roan says Germany is entitled to the following terms, because of its strength, and until they are realized there should be no armistice and no cessation of submarine warfare:

Annexation of Belgium, with administrative autonomy in the interior.

Annexation of the entire Flanders coast, including Calais.

Annexation of the Brier and Longwy basins and the Toul, Belfort and Verdun regions eastward.

Restitution to Germany of all her colonies, including Kaio Chau.

Great Britain to cede to Germany such naval bases and coaling stations as Germany designates.

Great Britain must return Gibraltar to Spain, cede its war fleet to Germany, restore Egypt to Turkey and the Suez canal to Turkey.

Greece must be re-established under former King Constantine, with frontiers as before the war.

Austria and Bulgaria will divide Serbia and Montenegro.

Great Britain, France and the United States must pay all of Germany's war costs, the indemnity being a minimum of \$45,000,000. They also must agree to deliver raw materials immediately.

France and Belgium are to remain occupied at their expense until the conditions are carried out.

**INTERNAL REVENUE SHOWS BIG GROWTH.**

Washington, July 1.—Internal revenue collections for the fiscal year which ended yesterday totalled \$3,672,000,000, compared with \$800,000,000 the year before and with \$3,400,000,000, which it was estimated the war revenue, measures passed by congress last fall would yield.

Internal Revenue Commissioner Roper, in announcing these figures tonight, estimated the cost to the government of making the collection was \$12,000,000, and disclosed the bureau's force of 4000 employees had been doubled during the year.

"National patriotism and solidarity engendered by the war has contributed largely to our success," said the commissioner's statement. "The way in which taxpayers have generally assisted and cooperated has been a constant source of inspiration. It is our purpose to equalize the tax burden by collecting from every person and industry the full amount of tax due the government, and not one cent more, and, on the other hand, to return any excessive taxes collected."

**EXPRESS COMPANY, OPERATED BY MCADOO STARTS MONDAY.**

Washington July 1.—The American Railway Express company today assumed charge of the express business heretofore conducted by the Adams, American, Wells Fargo and Southern companies—about 95 per cent of the entire express traffic. Gradually the names of those companies on wagons, trucks and advertising will be replaced by the new company's title.

The old companies will exist as corporations holding the \$33,000,000 or more stock of the American Railway company, which will operate privately under Director General McAdoo's supervision and with 10 per cent higher rates sought by the four companies long before the merger.

**IRRECONCILABLE!**

By GERTRUDE ATHERTON, Author of "The Californians," "The Conqueror," "The Bell in the Fog," Etc.

A few days ago an American whose loyalty has been undeviating from the beginning of the war said to me: "If the Germans win I shall become an immediate convert to their Kultur, arguing that since they had won against such fearful odds, and with practically the whole world lined up against them, their theory of life and conduct must be right and ours wrong."

Gertrude Atherton. The incident would not mention if it were not for the reflection that the American race worships Success. For generations it has toddled to wealth, no matter how ill-gotten, and every man who achieves power, by whatever devious ways, is secretly envied and openly courted. The majority of Americans are easy going, indifferent, unidealistic and not very clever. They are also intensely personal and only ask to be let alone.

It is possible that the mass, therefore, unless it has a real awakening, would, provided the Germans, in the remote event of victory, were adroit enough to leave them a large amount of individual liberty, shrug their shoulders and say: "Well, guess they must be right or they couldn't win out. Nothing to do but come round. Times change anyhow."

**"Abominable Prospect."**

This is an abominable prospect, but it is to be faced. Our world, over here, in the event of German domination, would be divided into two classes—mean converts and proud Irreconcilables—for even in this new and composite country there are enough men and women with high ideals and inviolate souls to despise a race without a gleam of spirituality, of sportsmanship, of decency and good manners, in whom cunning has taken the place of intelligence, and that wins, only by driving its millions of cowed subordinates to mathematical slaughter. One cannot even respect such a race enough to hate it. It is as if one had been attacked by a herd of wild animals from the jungle. Those that escape being devoured may at least withdraw as far as possible, not re-model themselves into a semblance of wild beasts with a lust for human flesh.

**"Cock-Sureness a Bluff."**

I have not the faintest notion that the Germans will win. All the probabilities are against it. Moreover, if one projects his mind forward it is inconceivable that history can read that way. The general conditions of the world are not what they were in the Fifth Century—that is to say, unless the idea grew insidiously that it was the destiny of the Germanic race to win and rule the earth; in other words, that it was the destiny of Earth to revert to the Fifth Century and begin over again. It is incredible that such a thought should take possession of any educated man's mind, but the trouble is that our famous (and offensive) cock-sureness is only a bluff. As a race we are not really sure of ourselves. We prove that by blindly accepting the European-made reputation and hesitating to create and come out boldly for our own. Those of us that think and have the power to visualize the future must be on the alert every moment to counteract this tendency of an uncrystallized race to accept the success of might as a matter of course and unconsciously adapt itself to the "inevitable." We must be known as the IRRECONCILABLES, and if we take a definite uncompromising stand there will be only one result—the men of real courage who might otherwise look upon a new future "philosophically" will not only wake up under the direct example, but will be ashamed to be reckoned as mere numbers in the great mass of sheep or convicts. There is no such insidious lowering of morale threatened as this, because it is not of German, Fascist or Socialist origin. It is born of common human weakness and national snobbery. The result will be a vast mass of inertia, and only a party of sleepless Irreconcilables will combat and diminish it.

Black Tread Red Sides

Where Beauty Is More Than Skin Deep

WE never saw a motorist who wouldn't admit that the Black Tread and Red Sides combination in Diamond Tires makes the handsomest tire equipment he ever saw.

But we re here to tell you that you can't see the real beauty about Diamonds,—their husky strength and long mileage. You read about it on your speedometer after thousands of miles

Take our "tip"! Try one Diamond! It'll cost you less than the average tire, and before long, you'll want Diamonds "all around".

Diamond Tubes don't deteriorate while you carry them as "extras." They hold their life for years.
