**CONGRESSIONAL PRIMARY  
FIXED FOR SEPT. 10th.**

On Tuesday the Third District Congressional Committee held a meeting at Morgan City for the purpose of fixing the date of the next Congressional primary on September the tenth for the nomination of a candidate. There were present delegates from all over the district. Resolutions were also adopted indorsing President Wilson's conduct of the war and condolences upon the death of Senator Broussard and Judge H. P. Morvant of Lafourche. Indications point to Hon. Whit P. Martin returning to Congress unopposed this term, since he and his supporters have returned to the Democratic party after seeing the uselessness of the Progressive party in the State of Louisiana. Mr. Martin served his constituents in such a manner that it would have been hard for him to have been defeated, particularly during these war times when it is the wish of the President that no changes be made where the government has had the loyal support of a representative.

For a long time it was thought the friends of Sheriff Wade Martin of St. Martinsville would again get in the contest having come within one hundred votes of being elected in the last election. Wade however, did not care to enter the fight and no one else cared to sacrifice themselves.

**WORK OF THE COLORED  
CIVIC LEAGUE.**

One hundred and forty-two years ago found the people of America stired to the very depths of their souls, Patrick Henry in the immortal words, "Give me liberty or give me death" has set the torch, and Boston and Bunker Hill were the scenes of the bursting storm. Every boy and girl of America know very well the heroic outcome of this great struggle for independence. Our hearts are thrilled as we read the stories of heroism and bravery displayed by men who fought in these great battles. We hail Washington as the father of his country. We laud and honor the names of Marion, Lee, Sumter and Pickens.

To-day, the same spirit that burned in the hearts of the men of '76, now burns in the hearts of the men of our present day, and the great question now arises, shall the liberty and independence for which these great souls fought be snatched from our hands? I imagine I can hear from the lips of one hundred million loyal Americans, America now, and America forever.

"Tis sad, to think of, but yet 'tis true, that no liberty has ever been obtained without the great sacrifice of human souls. Strange it is, how history reverts itself. Our adversaries of yesterday, are our allies of today. To-day the brave sons of America with that tenacious spirit for which they have always been known, fight side by side with the sons of France and England, that the great governments of the people and by the people shall not perish from the earth.

The 142nd anniversary of American independence seems to mark the first step toward welding together, as well as Americanizing these millions of heterogeneous souls that sleep under the protection of the stars and stripes. Never in the history of our little City has the Negro been given the opportunity to celebrate the day that marks the American independence. But to-day, from lake to gulf and from sea to sea all alike pour out blessings upon America, and the cause for which she fights. The more we are accorded the privilege of celebrating our National day, the greater will

grow our love for our country, and the more patriotism will be shown.

Nevertheless, I am sure, our love for America will be unquestioned; for at the hour designated the entire colored citizens of Iberia were found at the Douglas Institute. With scores of cars and other vehicles decorated with red, white and blue, and Old Glory flowing to the breeze, we paraded to the sweet strains of music rendered by our two bands, which was befitting upon this great occasion. There were hundreds of others who were none the less patriotic, for regardless of the burning rays of the mid-day sun afoot, they followed the procession to its termination. Here under the stately oaks of Howe Institute we listened to patriotic addresses, delivered by Dr. T. L. Welch, Miss Josenia Henderson, Prof. A. L. Simon, Hon. Jules Dreyfus and Judge Power. Prayer was offered by Rev. Taylor and America led by Miss Lounetta Livingston.

Far better still, we went over the top. We pledged our five thousand dollars for War Savings Stamps, and then some more led by Dr. T. L. Welch, M. Austin Williams, Prof. A. L. Simon, Dr. C. A. Pemilton, Miss Josenia Henderson, Mrs. A. L. Simon, Mr. St. Claire Jenkins. Your humble servant, and others, we shall know no failure.

Let us hope that our next Fourth will find us, not only celebrating American independence, but the liberation of all the peoples of the world, as well as the greatest victory in the history of America.

P. A. LANDRY, Sheriff.

**WHERE JOHN H. OVERTON STANDS UPON IMPORTANT QUESTIONS AFFECTING LOUISIANA.**

Upon the question of tariff on Louisiana products, Hon. John H. Overton, candidate for United States Senator to succeed Senator Robert F. Broussard, in an address to the Louisiana Legislature at Baton Rouge, May 23, declared his position as follows:

He favors tariff on sugar, rice, lumber, wool and other Louisiana products and if elected, he will fight for the maintenance of such tariffs, even if that involves refusal to be bound by the Democratic caucus in such matters. He stands for the policy maintained by Samuel Douglas McEnery, Edward Douglas White, Murphy J. Foster and Robert F. Broussard as representatives of Louisiana.

HE FAVORS liberal appropriations to protect Louisiana lands from inundation by flood waters from the Mississippi.

HE FAVORS the improvement of Louisiana waterways and the construction of the Intercoastal and other canals to give Louisiana products cheap transportation.

HE OPPOSES women suffrage by Federal enactment. HE FAVORS it as a privilege granted by the voters of Louisiana.

HE FAVORS the upbuilding of the port at New Orleans and such other Louisiana ports as may be found practicable.

HE FAVORS the diversion of the surplus waters of the Red and Atchafalaya to be used for transportation and irrigation in south and southwest Louisiana, in such way as to work no injury to existing industries.

HE FAVORS the constant recognition, both economic and political, of the rights of the laboring man.

HE FAVORS all measures for the upbuilding of the State's agricultural and industrial resources.

HE PLEDGES unswerving support to all government war measures and war activities.

You are going to become better acquainted with John H. Overton before Primary Election Day, September 10th. The people who know him best like him best. He will deliver an address in this community in an early date.

**CHILD'S RELIEF FUND.**

So far the little fund of Thirty-six Dollars and Fifty Cents we are attempting to raise by subscription from the readers of The Enterprise to care for a few orphan children of France continues to grow in accordance with our desires. It will be well for those who give this amount in 10c coins to bear in mind that as soon as we realize the first \$36.50, which is sufficient to care for a little orphan one whole year, we will add the sum of \$1.00 as stated in our last issue. Every cent placed in our hands will be duly accounted for and as soon as it is raised it will be forwarded to the proper persons for the care of a little child. It would be well for these subscriptions to come in as rapidly as possible, so we can then commence work on the second fund for the same purpose. Remember if every reader will come forward with only ten cents they will be instrumental in assuring support for as many as six children, and the sooner we commence on the second campaign the better. Do not overlook this charitable work so necessary for the sustenance of these unfortunate little waifs. Drop the dime in an envelope with your name and address to The Enterprise. Ten cents from each reader is all we ask, and Iberia must not lose its reputation to be the most charitable people in the State. What a consolation it will be to you during the cold dreary winter months to know that you have assisted in affording food and shelter for a poor little unfortunate child that is neglected because its fatherland is engaged in fighting off the enemy. Loosen up your purse strings and enroll yourself among the number who are contributing to this worthy cause. The amount realized so far it as follows:

**PRIVATE LANGLA WRITES HOME.**

Mr. Bertrand Langla received the subjoined letter from his young son Bertrand, Jr., a cannoneer in the First Battery Troop now stationed at Anniston, Alabama. His brief communication reads as follows:

June 30th, 1918.  
Dearest mother, father and brother—Received the box of tobacco, also the box of cakes, candy and preserves. We went a bunch of us in the hills this afternoon and certainly had a good time. I brought the box along with me and we enjoyed it. My comrades said it was the best home-made sweets they ever tasted and it was. Just got a letter from Bernadette. Well dearest ones the time is approaching for the embarkment of the long sea voyage to France; but you all must not worry about me because I am too glad that I am going over and I may get the first shot at the Germans in my regiment for the reason I am Second Cannoneer in the first firing battery. I am the one that does the aiming and set the cross and range levels. Papa these levels are not like yours, they are small, about one inch long and is riveted to the cannon. The cross level is used when one wheel of the cannon is lower than the other. It is used to level out the body or cradle of the cannon. Tell Pete he ought to be out here with me, he would actually learn a lot of things he never dreamed about and also "Join the Army, see the World." Well I will close for this time. Answer soon.  
Your soldier boy.  
"JACK."

**Ugh! Calomel Sickens; Salivates!**  
**Please Try Dodson's Liver Tone**  
I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into our bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.  
When you feel bilious, sluggish, constipated and all knashed out and believe you need a dose of dangerous calomel just remember that your druggist sells a new coin a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.  
Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.
