

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

RED CROSS NOTES.

New Iberia, August 9, 1918.
The following letter was sent to our sister Chapter at Lake Charles by your Chairman:
New Iberia, Aug. 6, 1918.
Chairman Lake Charles Chapter A. R. C., Lake Charles, La.
We have just learned how seriously your city has been damaged by storm, please accept our sympathy.
We are ready to answer any call you may make on our Chapter and offer all assistance possible.

Yours truly,
The following collections have been given us since last report:
Mrs. J. W. Viator\$3.00
Mrs. Julian Eves 1.00
Mrs. J. D. Reynolds 1.00
Miss Aubrey 1.50
Mrs. M. Abadie 3.00
Balance turned in from 4th of July 1.80
Our Juniors are now the only force doing steady work as the allotment last sent us was hardly enough to keep our rooms open for a week.

In reply to a letter asking the Chairman of the Woman's Bureau Mrs. Katherine Mobley if machine knitted socks would be acceptable to the Red Cross her reply follows:

"I am sorry we cannot let you have sweaters as requested. However next month, your knitting allotment may be changed, but this depends entirely upon Washington, and I am trying to carry our idea of giving only one kind of article in each department in Chapters of this Division.

Hand knitted socks are preferable as they last longer, having better wearing qualities than those made by machine."

We take this occasion to thank one of our doctors, and another member for the intended gift to the chapter of a machine each."

MRS. IRE MORITZSKY KILLED.

Mrs. Ire Moritzsky, a splendid woman of Jeanerette was accidentally killed last Wednesday afternoon between one and two o'clock by a Southern Pacific freight train. From what we have been able to learn there were no eye witnesses of the occurrence. According to the engineer

of the locomotive that passed over her body she was seen walking along side of the track of the approaching train apparently in no danger of being run over. The engineer suddenly lost sight of her and crossed to the opposite side of his engine to see whether she was on the other road between the two tracks and she could not be seen. He immediately applied the brakes and to his astonishment found her body was horribly mangled in between the wheels of the first box car. Mrs. Moritzsky had left her husband's place of business a couple hours before on business in connection with their mercantile store. In fact she made the rounds collecting small accounts from Mr. Moritzsky's patrons. This accounts for her being in that part of Jeanerette at the time. It is supposed she did not hear the train approaching and unconscious of her danger attempted to cross when she was instantly killed. Deceased was well-known and generally admired by all who knew her. Coroner Landry was called and held an inquest over the body. There were no eye witnesses to the unfortunate accident. She leaves besides her husband, one young daughter about eight years old. The remains were taken to New Orleans and interred on Friday morning in the family burial plot.

AMERICAN FORCES SENT TO SIBERIA.

Washington, Aug. 7.—First details of American military aid to be sent to Siberia for the protection of the rear of the Czecho-Slovak forces in their movement westward against Germans, Austrians and hostile factions were made public today with the announcement by General March, chief of staff, that Major General William S. Graves will command the American forces, the nucleus of which will be two regiments of regulars from the Philippines.

General Graves now is in command of the Eighth Division at Camp Fremont, Cal. The regiments to form the vanguard of the American contingent, General March announced, will be the Twenty-seventh and Thirty-first, neither of which is recruited to war strength. This force will be supplemented by additional troops from the United States, the number of which has not been revealed. The chief of staff said, however, that the American force would not be a large one.

In announcing the selection of General Graves to command the American forces, General March took occasion to state that so far as he knew no commander-in-chief for the whole expedition has yet been designated.

He recalled the fact that this could only be done by international agreement such as was found to be necessary to concentrate the supreme command of all the Entente and American troops in Europe in the hands of General Foch. From other sources it was learned that negotiations are now under way to this end and that the chief of staff to the Japanese army, General Baron Ueyehara, has been suggested and his name is now under consideration as commander-in-chief.

General March said that the sailing of the expedition or that of General Graves will not be announced, but upon the arrival of the force the news will be made public. It was not stated whether an announcement of the size of the American contingent may be expected. The Japanese force, in conjunction with the Chinese, who will act under Japanese direction, probably will be more numerous; in fact Japan is preparing to send into Siberia any number of troops necessary to carry out the declared purpose to give effective aid to the Czecho-Slovaks.

Rapid developments of the revolt in the northern provinces of Russia against the Bolshevik rule is noted with keen interest by the officials here. Though not necessarily bound by the solemn pledge of the American government as set out in Acting Secretary Polk's statement last Saturday to refrain from any kind of intervention in the political affairs of Russia, the British and French military commanders of the comparatively small forces operating in the stection of Russia appear to have confined their activities to military and naval movements. So if the rapid rise of anti-German sentiment, extending to other elements in the Bolshevik faction which had been charged with surrendering Russia's independence to Germany, has been attributable largely to the presence of the Allied forces in Northern Russia, that fact is declared by officials, while very welcome, to be purely incidental.

NOT THE ONLY ONE.
There Are Other New Iberia People Similarly Situated.

Can there be any stronger proof offered than the evidence of New Iberia residents! After you have read the following, quietly answer the question.

W. T. Moss, bricklayer, West Main St., New Iberia, says: "A number of years ago I was troubled with my back, sharp pains darted through my kidneys very frequently and when I worked in a stooped position any length of time, it was hard for me to straighten up. My kidneys were disordered and caused me much annoyance. I had those dull, achy feelings all over my body until I began using Doan's Kidney Pills. Doan's helped me very quickly and when I had used them for a few weeks, they entirely cured me of the trouble. I have never had any return of it since that time and am glad to give this endorsement."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Moss had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—Adv.

THOUSANDS OF PRISONERS ARE ADDED TO LIST.

London, Aug. 8.—Seven thousand prisoners and 100 guns have been captured in the Franco-British offensive, Andrew Bonar Law, chancellor of the exchequer, announced tonight.

London, Aug. 8.—Harbonnieres, six miles east of Villers-Bretonneux, has been reached by the British, according to The Evening News.

London, Aug. 8.—Several thousand prisoners have been taken by the Franco-British forces in their offensive in Picardy, the Evening Standard learns.

According to reports received this afternoon the Allies have captured the towns of Moreuil, Demuin, Ablancourt and Marlaucourt, the heights west of Cerisy and the heights south of Morlaucourt.

News from the Soissons-Rheims front this afternoon is that the Germans are holding the northern bank of the Vesle in considerable strength with a large number of guns. They are believed to have destroyed some of the bridges over the isme and to have taken some of their heavy guns across that river.

London, Aug. 8.—According to advices received in London, the French and British forces, which opened a new attack this morning in the Picardy sector, have advanced at points to a depth of more than three miles. The attack must have taken the Germans by surprise, as the weather has not been such as would generally be chosen for the commencement of new operations.

On Monday there was a continuous downpour of rain along the Amiens front, but advices state that the British troops were congratulating themselves that the ground was not as bad as they had experienced in Flanders, where shell craters were filled with water and there was no means of draining them.

On the Amiens front the men had little trenches in the wheat fields.

SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month.
French Pound and Half,
Italians One Pound.

GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration enforced by rigid governmental order in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on nearest possible equal terms the hardships imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little saccharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them if they wish to have sweetened tea while visiting friends.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 120,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually buy sugar. To buy it, one must first find it.

City and Farm Property For Sale.

We have on our list a large tract of land suitable for stock raising. The Pascal property comprising ninety-seven and one-half arpents, more or less, with elegant residence, situated one mile from Court House. Large tract of timber near N. I. & N. R. R. spur. An excellent opportunity for right man to get out stove wood which will be in great demand this winter.

An elegant 2 story residence on East Main St. Can be bought at less than cost. If in the market for real home, see us at once. Another nice property on Charles St. splendid residence.

Talk Into Your Telephone

There are two ways to make a telephone call and to carry on a telephone conversation.

The *wrong* way is to mumble the number to the operator, to be inattentive to her repetition, and then, when you get the connection, to talk *at* your telephone without regard to its distance from your lips.

The *right* way is to give the number to the operator *clearly* and *distinctly*, to listen for her repetition of the number and *acknowledge* it, and then to talk *directly into* the telephone, with your lips close to the transmitter, giving your whole attention to the telephone conversation.

The *right* way will help you to get even quicker and more accurate connections and will make your telephone conversations more efficient.

Always talk DIRECTLY into your telephone
