

SCIENTISTS LOOKING FOR POTATO WARTS.

Mr. E. V. Hallis, Pathologist, U. S. Department of Agriculture with headquarters at Baton Rouge spent a few days in the Parish looking into the condition of the potatoes in this section. The potato wart is considered one of the most serious potato diseases. The wart is believed to have come to the United States on potatoes imported from Europe. Mr. Hallis has just completed a five weeks survey in Louisiana and stated that he found no disease of that nature in the State.

The first evidences of wart are small spongy outgrowths on the potato, especially at the eyes. These increase in size and may grow as large as the potato itself. Not infrequently a number of warts may arise at different places on the same tuber, causing the whole potato to become a spongy, warty mass. In the early stages the warts are light brown, the color becoming darker and finally black with age. Badly diseased potatoes decay in the field and those less seriously attacked are extremely susceptible to rot in storage. Wart does not kill the potato plant and seldom interferes seriously with the growth of the potato vines; therefore the detection of the disease is difficult or impossible before digging time. This disease also attacks the common nightshade and the bitter-sweet.

What Causes Wart?

Wart is caused by a parasitic fungus (Chrysophlyctis endobiotica Schilb.) which penetrates the outer layers of the potato and stimulates them to abnormal development, thus causing the characteristic warty outgrowths. Millions of reproductive bodies, called sporangia, are formed in the wart tissue and are released into the soil when the wart decays. Some germinate as soon as mature, releasing millions of spores which may reinfect the potatoes and cause new warts. Others are resting sporangia, which may lie dormant in the soil for many years until by cultivation or other means they are brought into suitable conditions for germination.

How the Fungus May Be Spread.

The wart parasite may be carried into clean soil (1) by drainage water from infested fields, (2) by the distribution of infested soil (as on agricultural implements or on the feet of men or animals), (3) by the use of manure from animals to which diseased tubers have been fed, (4) by garbage into which peelings from diseased tubers have been thrown, and especially (5) by the planting of diseased tubers or of tubers which have been grown in infested soil and carry the infection on their surfaces.

Rheumatism Relief--25c.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism, due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

ESTORGE DRUG CO.

ESTORGE DRUG CO.

This parish has received two tractors from the government, to be used in road construction. They are powerful machines, capable of going over any kind of roads, and the power is attached to the front and rear axle, insuring a full development of strength. Twelve more of these great machines have arrived in Lafayette for distribution to St. Martin, Lafayette, St. Mary and Acadia parishes. This will likely give us four more, which will make it possible for the road building program to be prosecuted at high speed when it does start, and at several places at once. They are equipped to grade and ditch the highways, haul and distribute gravel and roll the road as fast as it is finished. They are the Nash pattern and said to be the most powerful truck made. They were not sold but given to the district where road building and repairing are being done, for the purpose of developing the country and make travel convenient, regardless of weather conditions.—Franklin Watchman.

Aged Resident Has Narrow Escape.

"I was at my work, my limbs became numb, I got dizzy and faint, my ears seemed stopped up. I had been troubled with gas on my stomach and severe bloating after meals. Doctors failed to help me. One dose of Mayr's Wonderful Remedy, recommended by the corner druggist, proved a life-saver to me. I am continuing with it with splendid results." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Estorge Drug Co. and all druggists.

The farmers of Bayou Sale, who own the land formerly composing South Bend and Ellerslie plantations, have had their barns screened to protect the animals from flies and mosquitoes, and so far, have succeeded in protecting them from the visitation of diseases that killed out the work stock in that district last year. They made a good investment, and the cost in each instance represented approximately the value of one mule, while it protects the whole herd. Others will have to do the same thing if they hope to win in the game of agriculture.—Franklin Watchman.

Lame Shoulder.

This ailment is usually caused by rheumatism of the muscles. All that is needed is absolute rest and a few applications of Chamberlain's Liniment. Try it.

The Tablets That Does Not Affect the Stomach because of its tonic and invigorative effect. LAXATIVE BRONCHO GUARDIAN is better than ordinary Quinine and does not cause nervousness nor tingling in head. Remember the full name and look for the signature of E. W. GROVE. 30c.

BASE BALL BOX SCORES.

New Iberia defeated Rayne last Friday the first game of the series by the score of 7 to 4. Rain interfered Saturdays game which was played Sunday morning, the score being 3 to 2 in favor of the visitors and the afternoon game resulting in favor of Rayne by the score 4 to 0. Following is the box scores of the three games:

FRIDAY'S GAME.

Rayne	AB	R	H	PO	A	E
Wade, s. s.	5	1	2	0	2	0
Andrus, 2b	4	0	1	5	3	1
Truath, l. f.	4	0	1	3	0	0
Kelley, c.	3	0	0	6	2	0
Salazar, c. f.	4	1	1	1	0	0
