—On Wednesday night about 7:30 little Jeffrey Folsce came near meeting with a fatal accident by being run into by an automobile. It seems the car was driven by Mr. Vic Erath who was traveling North while the boy was seated on top of his father's animal riding towards his home, little thinking that he and the horse would collide with an auto. The accident happened in the twinkling of an eye, when the horse was knocked down and the front portion of the car completely hid his head and shoulders from view. Both the boy and animal had a very narrow escape from instant death. The boy received several bruises and a shoe on his left foot was ripped open without any other apparent injuries.

Sash, Blind and Door Factory, special work of all description. Cisterns and Tanks.—Bertrand Lumber Co.

—In our mention last week that the Duperier property on the corner of Main and Bridge Streets had been purchased by the Dative Furniture Co. the impression was created that the premises would be vacated in the very near future. This is an error, as the Minvielle furniture and grocery store have a lease on the property until the middle of next summer and will remain there until then. In the meantime it is Mr. Minvielle's intention to enlarge the building adjoining the People's National Bank and transact his regular business there until he can get possession of the McMahon property recently purchased by he and Mr. DeBlanc.

—The interest of Mr. Gaston Mestayer in the Teche Laundry was transferred this week to Mr. August A. Drouet. Messrs. Rene Mestayer and Mr. Drouet will continue the business in the future and they assure us that they will make every effort to improve the class of work entrusted with them.

—Our fellow-townsmen Dr. J. Arthur Goodwin and Mrs. Andrew LeBlanc of Youngsville were joined into holy wedlock last Wednesday, October 8th, 1919 at the home of the bride's aunt, Mrs. P. B. Roy in the presence of a few friends and relatives. After the ceremonies were concluded, Dr. and Mrs. Goodwin left for New Orleans for a few days, after which they will return here to take up their residence on Lee Street.

—The Bithuletic Company, contractors for the paving of upper Main Street from the corporate limits to Railroad Avenue have been making very good progress, considering the shortage of labor and the inclement weather we have experienced since the work was started. Nearly all of the surface drains have already been completed and the laying of the concrete will be on in earnest in a few days. On the other hand that portion of our Main thoroughfare from the Post Office to the Southern Pacific depot, a separate contract to be of vitrified brick, awarded to Mr. Ritchie of Lake Charles, remains statu quo in a great respect. Not even the surface drains have been attended to as yet, and it is something like three months since the contract was signed. The users of Main Street, as well as the property holders are becoming impatient, to say the least. We have not been in position to study the contract as it was awarded, consequently we are not in position to say just what time they have in which to begin its construction. Steps should be taken by those in authority to compel the contractor to get busy, or else call for new bids. What the people want is action. They have waited long enough and none of our citizens care to see New Iberia's streets covered with mud any longer than what is actually necessary.

The work will be very simple, directions will be furnished each worker. The work of the Red Cross must go on for a little while longer. It is probable that a great many women or young ladies will be glad to help in this good work. Mrs. Howell is Supervisor of Knitting. All her workers are requested to be present on next Wednesday, between four and five o'clock P. M. at Red Cross headquarters.

HENRY L. FULLER.

The sudden death from apoplexy of our fellow citizen, Mr. Henry L. Fuller, which occurred on Friday, October 3d at 6:30 o'clock at Houston, Texas was a great shock to his numerous relatives and friends in New Iberia.
