Remember when the first automobile came to town

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

that we sold them to you.

III

U. S. Tires have a record behind them.

They are built by the people who perfected the first straight side automobile tire, who produced the first pneumatic truck tire.

Two of the greatest contributions to tire and motor economy ever made.

IV

As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of standard quality.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results everywhere—U. S. Royal Corda.

ROYAL CORD - NOBBY CHAIN - USCO - PLAIN

The first thing a man wants to know nowadays, when he starts out to buy a car, is how much it is going to cost him to keep it running.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.

Our object in selling U. S. Tires is to have you come back for more—and be glad
