

**IF THE FRAME IS BUILT** with sound, well seasoned lumber the building will be good for years and years of service or occupancy. A good solid frame can be re-covered with new siding again and again as the old becomes weather and time worn. Our heavy timber for framing and sills is selected from the very finest lumber cut. It is thoroughly seasoned. It is the kind of timber that spells durability.

**BOUTTE & COURREGE,  
CHOICE LUMBER.**

Office and Yard: Corner Chestnut and Washington Avenue.

—Mayor La Salle had a force of men busy this week clearing off the rubbish on the Sabatier lot which is being turned into a temporary playing ground for the children by the Women's Council of New Iberia. The ladies have purchased an elegant sliding board for the amusement of the younger tots. Benches will be placed around the grounds and it will be used by the children until the Park is opened to the public.

**WINNIE VIDA MAXFIELD.**

Died, at Lake Charles on Saturday, Sept. 10th, 1921 at 3:30 o'clock A. M., Miss Winnie Vida Maxfield, daughter of Mr. and Mrs. A. P. Maxfield, formerly of New Iberia. Deceased was born in this City on January 4th, 1904 and took up her residence in the above place some years since with her parents. On Saturday evening the remains arrived here and were taken to the home of Mr. Earl Hall on Julia Street and on Sunday morning the funeral services were conducted by Rev. Roberts at nine o'clock A. M. in the presence of a large concourse of relatives and friends.

—On Thursday the cotton gin of Messrs. Bergerie & Voorhies steamed up for a few weeks ginning. This we believe is the only cotton gin in Iberia Parish that will be in running order this season. From what we could ascertain they are paying for cotton in the seed the price of \$55.00 per thousand pounds. It is estimated that there are not over two hundred and fifty bales available in the Parish this year. With the boll weevil out of the way and the price for the staple anywhere near the present price there should be several hundred bales raised in 1922. Some fifteen years ago there was always as much as five and six thousand bales of cotton grown by our small farmers. Those were prosperous days for the small farmers and we would like to see the same conditions prevail again.
