

POLITICS IN NEW ORLEANS.

The Hammond Vindicator says: "Politics has been rather rotten in New Orleans lately. Candidates have been forced on the people. Disqualification of one candidate occurred. Power of the State Democratic Central Committee was set at naught by those desiring to dictate. The jurist, Judge Hall, was robbed of his rightful seat on the very bench that this same element had him to sacrifice. And as a last resort Charles Rosen was picked as the man to lead the army out of the wilderness. He led them, but not quite far enough. His defeat is a stinging one, but in the estimation of those acquainted with politics and its penalties and rewards, a most deserved defeat. The treatment accorded Judge Hall now comes home to those guilty of trespassing on his rights and the rights of those who believed in fairness in politics.

The election of Judge St. Paul and Edward J. Ryan is a great victory for the independent voters of New Orleans, a great victory for the Daily States and a stinging slap at the "greatest morning daily south of the Tangipahoa river," as well as the item, which attempted to dictate the election of Rosen and which, after jumping-jack fashion, was instrumental largely in causing the late Judge Hall to go to his grave with intense bitterness in his heart."

THE DOOR SLAMS ON HAPPINESS.

Poor Blood Makes Bad Health—Then Come the "Blues."
Once the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form. Adv.

Medicinal beer is considered a terrible crime by prohibitionists. If they knew what a sure enough joke prohibition is throughout the country, they would give themselves the horse laugh.

Overpowering Strength

There's an untold satisfaction in the consciousness of superior physical power. Mere knowledge that your strength, mental and physical, is equal to the occasion, places you in a zone of safety, protected from the opposing currents of life.

FORCE makes men and women equal to emergencies, enables them to subdue obstacles and override the barriers which stand in their way to a field of larger development and wider usefulness, by building up within their bodies a surplus of energy, strength and endurance.

Your Druggist has **FORCE**.

"It Makes For Strength"

CHRISTMAS MESSAGE.

To the Boys and Girls of the United States:

Christmas is almost here. Your great Post Office Department has a big job ahead and needs your help. Think what it means to be Santa Claus to our 100,000,000 people and to deliver Christmas parcels to every family in this great country within the short space of a few days and without disappointment. It can be done, and we're going to do it if we may have your help. I want to enlist the active assistance of every boy and girl in the schools of our country in getting parcels mailed this week to relieve the rush that comes directly before Christmas. Will you go home to-day and take this message to your parents and friends; "Our postmaster has asked us to mail parcels this week, for, unless we do, Uncle Sam's load may be so heavy the last few days before Christmas that he won't be able to deliver all the presents by Christmas eve." The parcels must be well wrapped and tied and addressed plainly in order that they may arrive in good condition with their Christmas appearance unspoiled. You can put on your packages, "Do not open until Christmas." And, there must be a number on your house and a mail receptacle, too, for, if there isn't Santa Claus's messenger, your letter carrier, may not be able to find the house where the present belongs. There are some other things, too, in which you can all assist in improving the mail service and in saving our great Government millions of dollars a year that is now wasted because of our carelessness—yours and mine. Every day that you drop a letter in the mail box 40,000,000 other letters are already pushing and jamming through the postal machinery. One letter a day for each family of five persons in the United States is given to Uncle Sam to deliver. When you send a parcel to the post office for mailing any day there are about 8,000,000 other parcels ahead of yours passing through the postal hopper. This

is ordinary days; at Christmas time it is multiplied many times. One family in about every ten puts a badly addressed letter in the mail every day. Put the proper amount of postage on your letter and wrap the parcels carefully. Avoid fancy writing, which causes post-office clerks and letter carriers to stop and study, and thus lose time. Make the address plain and easily read, and always use pen and ink or typewriter and light-colored envelopes, so as to save the eyes of the post-office clerks. Do not use envelopes of unusual size. The little ones that are so frequently used for cards and notes at Christmas and other holiday times cause an untold amount of trouble and labor, as they will not fit our canceling machines and must therefore be canceled by hand. Because of their size and tendency to slip out of a package, these small envelopes are more overlooked or lost. Mail your letters and packages early in the day, because this avoids overloading and delaying mail at the end of the day. Your local postmaster and your teachers will tell you more about the Postal Service. Do these things and you will win the grateful appreciation of the people in your post office and especially of your Postmaster General Will H. Hays.

P. S. Don't forget to mail Christmas packages this week.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is some degree of nervous disturbance. GUY'S TASTELESS ORANGE PULVER given regularly for two or three weeks will catch the blood, improve the digestion, and cause a general strengthening of the whole system. Mothers will then know if or how often their babies and children will be in perfect health. Payment in 10c. 60c per bottle.

The man who thinks that he can evade the prohibition law by drinking moonshine and white lightning or made overlast-night, is warned by a liquor expert, that over 90 per cent of the stuff contains a poison known to chemists as fusel oil. In Arkansas it was found that certain moonshine whiskey contained lye. The lye was used no doubt to kill the fusel oil and perhaps it did but it also got the fellow who drank the stuff.—Pioneer.

WHEN SILENCE IS GOLDEN.

The belief that the rice country has gone to the dogs is shared by a great many pessimist who gather daily around the cracker boxes in the grocery stores, and mourn sadly over the country's plight as compared with the other days of milk and honey. At the other extreme, we find many of our friends vociferously proclaiming their belief that all these hard times are but imaginary, and that the moment we forget them they will cease to exist.

Somewhere between these two plans of thought is a middle ground represented by the opinion of those who, while, fully realizing that the depression of the day is real and not imaginary, and striving to prevent that realization getting the best of them, and crippling their efforts to retrieve what they have lost as a result of it.

Under the circumstances it may appear a shallow procedure to picture the situation as a roseate hue; but, if a choice must be made, our over-optimistic friends will assuredly be ranked superior to those who hang crape upon our hopes. If we can't say something constructive, let us maintain a dignified and impressive silence.—The Crowley Signal.

Route No. 3 New Iberia, La. 11-5-21.

What Kind of a Day Do You Wish Yourself?

Suppose you could make a wish at the breakfast table and finally have the wish come true. Would you say,

"I want this to be a good day," or—"I am willing for this day to drag along?"

If you keep on wishing your days with the food you eat, finally the wish is likely to come true.

Grape-Nuts helps your wish for a good day. Nothing miraculous; just the natural result from right food with the right taste.

There is a charm of flavor and crispness in Grape-Nuts that is like the smile of a good friend at the breakfast table—

And Grape-Nuts, with cream or milk (fresh or tinned), is fully nourishing—feeding the tissues and glands, the bone and blood, with just those elements which Nature requires—building strength without any "heaviness."

Grape-Nuts is the perfected goodness of wheat and malted barley, scientifically developed—ready to eat from the package. A Grape-Nuts breakfast or lunch is a practical wish for good luck.
