WE HEAR
Of a game of seven-up played to win a dance, but the prize was not forthcoming.
That the teachers have not decided whether the pickles are green, sour, dried up, fresh or sweet.
That a dance with only one beau for all the girls is too much greatness thrust upon the bean.
That some one who used to take all day to eat, now consumes his repast in ten minutes. No cause assigned for the change, but surmise is busy with the fact.
That there was a grand rush on the Chancellor Commander for the pass-word.
Of one lass, who is making a study of when to stay home from the Normal. Is it when the lessons are too hard?
It took all the reception committee to do Saturday's work.
That 'tis a problem to the Normal strangers, how Miss is changed into Mrs, but it will leak out yet.
That the Normal is developing some wonderful snake stories. There's no question of whiskey about them, though.
That he says he would have to grow more to wear that linen suit since it came from the laundry.
Mr. George Baier has begun work on the Rosenthal residence. Has any one ever noticed how vent he always looks, when he comes from work? To see him then, one would not suspect how busy his days are.

A neighborhood fish-fry and picnic at Horse-shoe lake on Dr. Ball's place was arranged for yesterday, the 3rd. Particulars cannot be given to day, but no doubt it was as pleasant as such affairs are made each year, it being the annual "event" to have this neighborhood gathering on the banks of this popular fishing place. We hope there was "a chief among yo takin' notes" so we can have a full account next week.

The old, reliable school for boys, the Chamberlain-Hunt Academy at Port Gibson, Miss. has a card in this paper to-day. It is not too early, for the question of the proper school for one's boys cannot be too well considered in every particular. That the C-H can stand the test of the most thorough inspection can be confidently promised any parent. Send for catalogue.
One hardly realizes how well our young men ride the wheel, how erect their figures, how lithe and graceful their motions until one sees a rider, who has adopted the "scorching" posture too prevalent in the cities. Such groveling contortions give cause for the objection some persons make to bicycling. We hope the fashion will never prevail here.
Do Not Experiment in so important a matter as your health. Purify, enrich and vitalize your blood with Hood's Sarsaparilla and thus keep yourself strong and healthy.
Hood's Pills are the best After-dinner pill; assist digestion, cure headache. 25 cents.
There was a delightful fish fry at the Chas. Percy ford on Bayou Sara Creek, last Saturday, composed of the following party: Mrs. S. T. Allain, Misses Lillie, Annie and Sarah Allain, Rowena Percy, Margaret Stirling, Messrs. L. Lobdel, C. Argue, W. Wilcox, M. R. Jackson, R. H. Stirling, E. B. Fort, V. F. Allain, Felix Gilmore, Eddie Percy and Willie Row. Much sickness was the cause of no larger attendance, but those present were merry enough for their number. Some fine fish were caught—our correspondent does not say whether on land or water—at any rate there was "an elegant sufficiency" as the poet Thomson puts it, of the finny tribe for dinner, for which every one had found a marvelous appetite.
\$100 Reward \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength and building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

The Bank of West Feliciana.
The statement of our local Bank published in to-day's paper, is certainly a flattering showing of the confidence it has won. And that this confidence is deserved, the conservative management shows. A cash reserve for deposits of over 45 per cent or 20 per cent more than the bank need carry as a legal reserve, is evidence of the fact that the bank directors believe the first duty is to the bank's depositors. The earnings for the six months past should be satisfactory to the stock holders as well, since the bank after paying a semi-annual dividend of 4 per cent and charging off all expenses and taxes carries forward over 6 per cent earnings to its profit account.
It is no longer an experimental or untried institution, but one of our most solid business enterprises in whose growth the entire community should take pride, and aid by doing their entire banking business with it.
