

## COLONEL WM. WALKER'S SWORD

Daughters of Confederacy Receive Sword of Gallant  
Soldier for whom Chapter is Named--Will  
Arrange for Appropriate Presentation.

Wm. Walker Chapter U. D. C. met in regular session on Wednesday, February 16, at the residence of Mrs. S. S. Godfrey with a splendid attendance.

Meeting was called to order by the president, the ritual read and Lord's Prayer repeated in concert, after which the Chapter was opened for business.

Minutes of last meeting read and adopted.

The President having informed us that she now has Col. William Walker's sword in her possession, the question as to its proper presentation was laid before the Chapter; by a general vote it was agreed that it be formally presented to the Chapter at our entertainment for the Veterans, June 3rd.

On motion, duly seconded, it was agreed that we adopt resolutions of

respect in behalf of Mr. Butler, a Confederate Veteran, who recently died at the Soldiers' Home.

As we failed to elect an Historian at our general election and nominations now being in order, Mrs. Gamble was nominated and unanimously elected to fill this office.

Mrs. Gamble read an interesting selection.

There being no further business, refreshments were served and one of the most enjoyable and important meetings of the Chapter adjourned.

Those who enjoyed the hospitality of the gracious hostess were: Mesdames Nelson, Hart, Jones, Gamble, Drewett, T. J. Drewett, Mächen, W. K. Wright, M. A. Wright, Bailey, Moss, Heard and Misses Belle Heard of Ruston and Ollie Dean of Fairmount.

### Smith-Grisham Sells.

The old drug firm of Smith-Grisham will go out of business on March 1st, the stock of drugs having been sold to J. F. Whitley of Dodson. The passing of this firm obliterates one of the business landmarks of the town, as it has grown with the town since the advent of the railroads. After the death of A. Smith, last year, our friend J. R. Watts acquired an interest in the firm, and we regret that he and his associates have deemed it best to dispose of the business.

The Dodson Times has the following to say about the transaction:

J. F. Whitley spent several days in Winnfield this week where he bought out the stock of drugs from the Smith-Grisham Drug Co. He will take charge of the business March 1st. The business will be managed by H. C. Thomas, who has been with Mr.

Whitley for nine years. Mr. Whitley needs no introduction to the people of Winnfield, as he is well and favorably known there. He has conducted a drug business here for over four years and has been very successful.

### Seed for Corn Clubs.

Superintendent J. J. Mixon informs us that he now has at his office seed for distribution to the different Boys' Corn Clubs in the parish and it can be had on application to him.

Mr. Mixon has made every effort to make the boys' corn clubs a success and he is to be congratulated on the success that seems to be assured to the movement.

The drama entitled "The Old Maids Convention," which was to have been played on Feb. 22, under the direction of Mrs. J. T. Wood, has been postponed indefinitely on account of illness in families of some of the characters.

### Memorial Association.

A very interesting meeting of the Memorial Association was held at the opera house Tuesday, February 15, and the following officers were elected: Mrs. J. W. Teddlie, president; Mrs. B. W. Bailey, treasurer; Mrs. E. E. Kidd, Secretary.

The association decided to have a rummage sale Saturday, March 5, and the following committees were appointed: Committee to secure a building in which to hold the sale: Miss Nettie Bernstein, Mrs. Annie Drewett. Soliciting committee: Mesdames J. H. Matthews, G. P. Eagles; Mesdames J. H. Hart, J. T. Durham; Mesdames Winlock, Ira Dudley; Mesdames Lawson McDonald, R. W. Bnoe. The committees are requested to solicit second hand clothing, shoes, hats or any article for household use. These articles will be sold for the benefit of the cemetery.

The association will also give a white sale Saturday, March 20, and give an egg hunt for the children, of which more will be said next week.

## DOINGS AT THE HIGH SCHOOL

Matters of Interest on College Hill---The Athletic Events as They Occur and the Doings of the Literary Societies Told by Students.

Don't forget the Basket Ball game to be played here Monday, Feb. 21st, at 3 p. m., between Pineville and Winnfield. The game will be played on our grounds and promises to be a tight game as Pineville has played and beaten the State Normal and also the G. S. N., and our boys are determined to take their laurels from them. This will be the first basket ball game ever played here and the people of the town should help us to make it a success. The game is being recognized as the standard game between the football and baseball seasons. All up-to-date schools have their basket ball teams, and we want to be ranked as modern as any of them, but unless we have the support of the men of the town we never hope to rise out of the same old rut. We have proved that we are able to succeed when we are backed by the citizens and you ought to be willing enough to keep up your patronage. In plain words, we CANNOT pay the expenses of the teams that come here without your help.

Last week we made a mistake in the notes about that history answer being made by the 7th grade. They have made such an uproar about it that we feel compelled to correct the mistake. It was a brilliant student from the 8th grade who gave the an-

swer. We humbly beseech the pardon of the 7th grade and will try and not let a similar mistake occur again.

A list of the contestants for the Baton Rouge and Minden preliminary contest has been made and we will be well represented at both places.

Two tracks have been laid off on the football field for the boys to practice on, and they are taking advantage of this and training with a right good will.

The first program of the high school society under the changed conditions was rendered last Friday and proved a decided change for the better. The program for today is as follows:

1. Roll call. Quotations from Washington.
2. Life of George Washington, by Aubrey Orr.
3. Little Stories about Washington, by Lease Bailey.
4. Talk on Athletics, by Len. Allen.
5. Jokes, by Tom Huffman.
6. Debate: Resolved that women should have equal suffrage with men. Affirmative--Estelle Tannehill and Celeste Brian. Negative--Ruby Moss and Ruby Wasson.

Don't forget to buy a ticket to the basket ball game. You can get them at Randle's News Depot or from any of the pupils. "Buy one for each of family," as "Ram" Durham would say.

### Alfred Mead.

This gentleman, formerly General Passener and Freight Agent of the Tremont & Gulf Railway, with headquarters here, but who is now traffic manager of the Hiram Blow Timber Co., of Louisville, Ky., was in town Tuesday shaking hands with a host of old friends. He paid The Comrade an appreciated visit and left for Alexandria. Our people have a warm place in their hearts for this genial gentleman and he is always welcome here.

### Esteemed Visitors.

Mr. and Mrs. R. E. Grigsby, of Abbeville, La., have been visiting the family of Mrs. Grigsby, D. F. Shaw and family, for the past two weeks, and return to their home today. The father, Mr. Shaw, will return with them for a visit.

### Junior League.

The meeting last Sunday was very interesting and well attended. Several visitors were welcomed by the Juniors. The following is the program for next Sunday:

- Opening Song. Prayer.
- Roll call, scriptural response.
- Vocal Duet, Otis Barnes and Audie Williams.
- Scripture reading, Harlie Bozeman.
- Life of John the Baptist, Hverett Pick.
- Responsive reading XCV Psalm.
- Paper on Temperance, Ruby Wasson.
- Closing song. Benediction.

## It has been Positively Established that Lime Acts as a Fertilizer

Try a few sacks of this lime in your garden. The old method of applying lime by taking lump lime and piling it in heaps over the field and leaving it there until it air-slakes, is a very expensive and wasteful one. By using the Snow Drift Hydrated Lime which comes in uniform packages, is absolutely pure and full strength with all impure matter removed, you can figure out exactly what you are doing and can distribute it in an accurate and uniform manner.
