 in the grounds for several weeks, so

There is no Reason
 why your baby should be thin, and
 fretful during the night. Worms are
 the cause of thin, sickly babies. It is
 natural that a healthy baby should
 be fat and sleep well. If your baby
 does not retain its food, don't experi-
 ment with colic cures and other medi-

 Cream Vermifuge, and you will soon
 see your baby have color and laugh
 as it should. Sold by all dealers.
