**THE RECENT
 FINANCIAL FLURRY**
 in the eastern banks and trust companies has once more de-
 monstrated the fact that "size" is not necessarily a feature
 of stability—that the larger banks and trust companies are
 not, as a rule, so conservatively managed as the smaller
 country banks—that they take larger risks.
 This bank makes no loans on so-called "Wall Street Se-
 curities"—our money is loaned to home people where it is
 used for the up-building of our own community.
 If you believe in building up your own town and vicinity,
 yet you want your money where you can get it at any time,
 we shall be pleased to have you join our large and growing
 list of depositors.

LETTER TO PROF. KELLER.
 Welsh, Louisiana.
 Dear Sir: Will you give your arith-
 metic class—and algebra class—this
 problem?
 If average paint is worth \$1.60 a
 gallon, and goes two-thirds as far as
 Devoe, and wears half as long, what
 is Devoe worth put on, painter's wages
 being \$3.50 a day and a day's work a
 gallon of paint?
 The answer is \$11.80 a gallon, but
 don't tell 'em that
