## TUB COSTUMES

AVARY FROM THE SEVERE TO THE ORNATE.

Surely a Season of Extremes Tinted Border a Thing to Avoid, as It Will Not Wash.

...this season go to extremes. Either they are extremely severe, or extremely ornate. For street, morning purposes, tailored lines apply. Trimming applied as to silk. In the typical lingerie process lines prevail with such insertion, both embroidery that the term "tub frock" almost a misnomer, and the dry cleaner are more necessary those of a laundress.

Wash Suit of Ecu Linen and White Braid.

...noted for both morning afternoon wear, some stunning effect. The half-line stripes, dots and other goods are also displayed. The tub who invests in a bordered tub must expect to patronize the laundress when her suit needs re-cleaning. The exception, however, is the fabric with a single tone border, and vice versa, the single fabric with white border.

## DO NOT OVERDO DUTY.

More Than Their Share Is Required of Anyone.

...a wise woman who knows how to draw the line on just how much she requires of her to do in the home. It is really not helpful to expect others to do more than they are under any circumstances. These women who always tell you they are and how little they have to do and how little they have for the really pleasant life.

...when they are young they wish they were for the theater or a little excitement. If they are married, they had the energy to be bright when their husbands come in the evening, or to see to the girl friends they had.

...over all the missed joys of life. "If I only didn't have to do to keep me from being happy things."

## Little Girl's Slip.

...A nice warm slip to be worn under a little girl's apron may be made out of an old sweater. Cut off the neck and bind. Open down the back and hem. Add buttons and button holes. Make the sleeves the right length.

dress lengths of 12 yards each and the border appears about 46 or 47 inches apart, which, for a short woman, will admit of a princess effect.

The preferred trimming for tailored linen suits is braid and buttons. For dressy afternoon wear, coats and entire suits are inset with quantities of heavy lace to which fancy wash braids and buttons are added.

Wash braids come in many styles, from the narrow soutache and flat hercules braids to marvelous combinations of cotton or linen braid and lace, the latter set on the edge or in medallions surrounded by braid.

Buttons for trimming may be made from molds covered simply with linen like the costume, or the linen may be crisscrossed with narrow braid, or the buttons may be crocheted or embroidered. For very fancy frocks you see buttons covered with crocheting or lace or embroidery and then finished all the way round with a flat frilling or plaiting of val lace.

Pink and blue in half a dozen shades, lavender, green and yellow are shown in linens for suits, but for smartness this season are the soft shades of gray and tan made up with heavy white lace or bias bands of soft tone or even white.

For tailored wash suits, plaited skirts, either with or without the yoke, according to the height of the wearer, and enway coats are shown. In more fancy costumes the looser lous coat is offered, with the circular skirt.

The shirt waist suit is extremely natty and shows how a little of the popular braiding can be used to relieve an otherwise severe costume. This skirt of ecru lawn was laid in plaits stitched very flatly over the hips with many rows of stitching above the hem.

The shirt waist was laid in broad tucks front and back, with a double box plait down the front. The shaped collar, cuffs of the plain shirt sleeve, the double box plait and the girdle were all braided in a simple but effective design in white washable soutache.

The braiding on the box plait was finished with two ornaments of white mercerized floss which will wash nicely. This style would be effective if developed in pale gray with white braid or any of the more delicate tones, like blue, pink or lavender. Lawn, linen, batiste, zephyr gingham, percales, almost any of the tub fabrics will work out well in this design.

A remarkable feature of the present season is the use of bretelles in wash fabrics, and while this means work for the expert laundress, it certainly adds to the effectiveness of the average wash costume for the slender girl.

## KEEPS COLLARS IN SHAPE.

Useful Article for Anyone Who May Be Going on a Journey.

A useful bag for holding collars is shown in the accompanying sketch. It can be quite simply and easily made, and will prove of the greatest use when traveling in the way of keeping collars safe from being crushed and soiled.

Any round cardboard box from which the top has been removed will make the foundation, and should be covered smoothly with silk or linen. A separate lining to fit the inside of the box is then made, and tacked securely all round. It is made sufficiently large to be gathered up on a ribbon string, and it should also be bound at the edge with a colored ribbon to match.

The word "collars" might be embroidered on the silk or linen which covers the lower part of the box.

If a round box is not obtainable a circle of card may be cut for the bottom, and the sides composed of a strip of card about five inches deep.

## Clinging Petticoats.

Gone are the fluffy petticoats of the summer girl. The clinging skirt is a necessity, and the effect must be obtained, whether it necessitates doing away entirely with the underskirt or substituting a flat affair of crepe de chine. Women no longer select a silk for its stiffness and rustle, but for its softness and clinging qualities.

## Reband Petticoats.

To replace a worn band stitch the new band on the wrong side of skirt a seam width below the old one, then cut off the old band, turn new band over, and stitch on the right side.

## ECZEMA ALL OVER HIM.

No Night's Rest for a Year and Limit of His Endurance Seemed Near—Owes Recovery to Cuticura.

"My son Clyde was almost completely covered with eczema. Physicians treated him for nearly a year without helping him any. His head, face, and neck were covered with large scabs which he would rub until they fell off. Then blood and matter would run out and that would be worse. Friends coming to see him said that if he got well he would be disgraced for life. When it seemed as if he could possibly stand it no longer, I used some Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. That was the first night for nearly a year that he slept. In the morning there was a great change for the better. In about six weeks he was perfectly well. Our leading physician recommends Cuticura for eczema. Mrs. Algy Cockburn, Shiloh, O., June 11, 1907."

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. # STAR PLUG CHEWING TOBACCO

STAR has for years been the world's leading brand of plug chewing tobacco. Statistics show that about one-fifth of all the chewers of plug tobacco chew STAR. There's a reason for this enormous and constantly increasing number of STAR chewers, and it's just this—Star Plug has always been manufactured with one sole object in view—to give chewers the best chew of tobacco it is possible to produce, yet to sell this STAR chew at a moderate price.

More chewers are learning every day that STAR, considered from the standpoint of true merit, has no competitor, and is the one best chew.

For a long time there was a prejudice (which probably still exists) among certain chewers against the use of what is generally termed "Navy Tobacco," because of the impression that all tobacco of that character is too sweet.

It is true that some brands of tobacco, similar in appearance to STAR, are too sweet to please chewers accustomed to the use of tobacco manufactured in thin plugs, but we know that STAR is right in every way.

You use tobacco for the pleasure it gives—**increase your pleasure by chewing STAR!**
