

# ROOSEVELT PARTY SAILS ON AFRICAN EXPEDITION

New York.—The Hamburg-American liner Hamburg sailed from this port Tuesday bearing Theodore Roosevelt and party, who are headed for British East Africa on a hunting and scientific expedition, which has aroused the interest of the civilized world. Mr. Roosevelt occupies the so-called imperial suite on the steamer.

On the dock was a large assemblage of Mr. Roosevelt's friends, who had gathered to bid him God-speed, and who cheered him as he stood at the rail of the steamer waving his hand and smiling with delight. Beside him stood the three men selected from hundreds of applicants to accompany him and assist him in collecting the specimens of African fauna which he hopes to send back for the enrichment of the Smithsonian institution. These fortunate individuals were Maj. Edgar A. Mearns, J. Loring Alden and Edmund Heller. They comprise the Smithsonian's expedition. The fifth member of the little party, and not to be considered of least importance, was the ex-president's second son, Kermit, who will be the official photographer of the expedition and, next to his father, the chief hunter.

**Change Ships at Naples.**  
Mr. Roosevelt will go via Gibraltar to Naples, where he will board a steamer of the German East African line for Kilindini harbor, the port of Mombasa. At the latter place the party will be joined by R. J. Cunningham, an Englishman of long experience in Africa, who has been engaged as general manager and guide. The party will spend a short time in Mombasa and then proceed by train on the Uganda railway to Nairobi, headquarters of the administration of British East Africa Protectorate, a city of 13,514 inhabitants, of whom 579 are Europeans.

**MacMillan to Entertain Them.**  
William Northrup MacMillan, formerly of St. Louis, owns a large

Uganda to the Nile will be begun. It is expected that the White Nile will be reached about the first of the year 1910. Lake Albert Nyanza will be touched at Kibira.

In a general way the course of the Nile will be followed to Gondokoro, and thence to Khartoum. At this city Mr. Roosevelt and Kermit will be joined by Mrs. Roosevelt and they will continue down the Nile slowly to Cairo, visiting many points of interest on the way.

**Roosevelt in Europe.**  
Plans for the remainder of the ex-president's two years' tour have not been decided upon definitely, but the time will be spent in Europe, and several matters of importance have been announced. He will visit Berlin at the invitation of Emperor William and while there will deliver an address upon the one hundredth anniversary of the founding of the University of Berlin.

From Germany he will go to France and deliver an address at the Sorbonne. It has not been learned how long Mr. Roosevelt intends to stay in Berlin and Paris. After his visit in France, Mr. Roosevelt will go to England, where a reception of great warmth undoubtedly will be accorded to him. He has accepted an invitation to deliver the Romanes lecture at Oxford university and in all probability the honorary degree of D. C. L., which Oxford has bestowed on Emperor William, will be conferred on Mr. Roosevelt.

**Will Write About Trip.**  
The versatility of Mr. Roosevelt will be shown by the fact that he will speak German in his address before the students of the University of Berlin, French in his lecture at the Sorbonne, and English in delivering the Romanes lecture at Oxford.

**MacMillan to Entertain Them.**  
Mr. Roosevelt will defray the expenses of himself and his son on the African trip, but those of the scientists and the cost of preparing the

ROUTE OF THE ROOSEVELT PARTY IN AFRICA.

estate near Nairobi and his big, luxurious farmhouse will be headquarters for about six months while the hunters and scientists make trips of varying length in all directions. It is in this section that Mr. Roosevelt hopes to obtain most of his specimens, for it abounds with animals of all kinds. The smaller mammals will be trapped. The supplies of the party are packed in tin-lined boxes. These boxes when they have been emptied will be used as packing cases for the various specimens. Many valuable natural history specimens have been spoiled by ants and other insects, it has been found from experience on other expeditions, and it is to guard against this that the tin-lined boxes are being taken along.

**To Ship Back Specimens.**  
When the specimens have been prepared they will be carefully packed in the boxes and shipped to Nairobi, where they will be forwarded to the United States. One of the taxidermists will always be with Mr. Roosevelt, and as soon as any big game is shot by him it will be skinned and prepared on the spot.

Mr. Roosevelt will be greatly disappointed if he fails to kill several specimens of the white rhinoceros. This animal is the same as the square-mouthed rhinoceros and is the nearest living ally to the type of the extinct Tichorhine or woolly rhinoceros which lived in England at the close of the Glacial period.

Through Uganda to the Nile. Leaving Nairobi in October, the party will proceed by the Uganda railway to Port Florence, on the shores of Lake Victoria Nyanza, where a short stop will be made; then a steamer will be taken to Entebbe, 150 miles away. There a caravan will be formed and the journey across

specimens and shipping them to America will be paid out of a fund secured for the purpose by the Smithsonian institution.

One of the objects of Mr. Roosevelt in taking this trip is for the purpose of collecting material for writing several books regarding his experiences. During last summer he contracted with Charles Scribner's Sons, of New York, giving that firm all the rights for the serial and book-form publication of whatever he might write on his visit to Africa. It is said that the contract price agreed upon is \$1 per word, but this never has been verified.

**Game Not to Be Butchered.**  
Even if the British colonial government should offer to throw open to Mr. Roosevelt and his companions the African game preserves under its control, the ex-president will refuse to take advantage of this opportunity. Like other true sportsmen, he believes that the utmost protection should be given to wild animals on reservations and that permission to kill them should not be given or accepted under any circumstances unless, possibly, when predatory animals are becoming too numerous.

Moreover, the killing of animals for sport is not the main object of his trip. Mr. Roosevelt hopes to send back to the Smithsonian institution two adult specimens, one of each sex, and a specimen of their young, of animals he meets with on the Dark Continent. Beyond this the killing will be limited to the demands of the commissary.

In selecting the three scientists to accompany Mr. Roosevelt, Secretary Walcott of the Smithsonian institution chose some of the best naturalists in the country. Their chief, Maj. Mearns, is a retired officer of the medical corps of the army.

## PREVENTING PAINT TROUBLES.

It's easy enough to recognize the symptoms of poor paint, after it has been on awhile—after its inherent tendency to crack and peel and scale and blister, etc., has developed into trouble. You know these paint "diseases" usually indicate adulteration or substitution in the paint materials. And you know the only remedy is repainting.

A little knowledge of paint and painting requirements, and how to make sure of the purity and quality of materials, would prevent all trouble, and save the big extra expense of repainting; just as a proper knowledge of simple health-laws, and observance of them, prevents sickness.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in paint materials, with directions for using it, can be had free by writing National Lead Co., 1902 Trinity Bldg., New York, and asking for Houseowner's Painting Outfit No. 49.

A very simple guide in the purchase of white lead (the only sure and safe paint material) is the famous "Dutch Boy Painter" trademark; that trademark is an absolute guarantee of purity and quality.

### EXPERT ADVICE.

Butler—Pardon this interruption, but there is a deputation of unemployed waiting for you at the door. His Excellency—Tell the people to go home quietly. (Drains a glass of champagne.) People in this world can get on very well without work—at least I find it so.

### COVERED WITH HIVES.

Child a Mass of Dreadful Sore, Itching, Irritating Humor for 2 Months—Little Sufferer in Terrible Plight.

### Disease Cured by Cuticura.

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. George L. Fridhoff, Warren, Mich., June 30 and July 13, 1908."

Potter Drug & Chem. Corp., Sole Props., Boston.

### Lots Easier.

Bobby rushed out to meet his father the other night as he was returning from work and said, breathlessly: "Oh, papa, I won't have to study nearly so hard at school any more." Now, Bobby had been doing far from well, and his father was pleased to hear of the new interest, hoping for better things.

"How's that, my son?" said he.

"Oh, I got put back a class."—The Housekeeper.

### We Reiterate.

That for more than fifteen years Hunt's Cure has been working on the afflicted. Its mission is to cure skin troubles, particularly those of an itching character. Its success is not on account of advertising, but because it surely does the work. One box is guaranteed to cure any case.

### Bank Balance and Independence.

Business women have evolved the idea of saving, and the thrifty incentive was not inspired by their brothers, but rather envelops the girl with prudence which evolves the girl with \$300 or \$400 to her credit and spurs her on to add more and more to the reserve.

### Don't Delay.

Save a possible serious spell of fever later on by cleansing your system now of its accumulation of impurities. Simon's Sarsaparilla will do it. It makes fine blood, fine appetite, great strength and grand ambition.

### Something at Least.

Wife—What would you men have had if God had not made us? Husband (quietly)—One more rib.—Widow.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

A man's idea of values depends on whether he wants to buy or sell.

Use Allen's Foot-Ease. Cures tired, aching, swelling feet. 25c. Trial package free. A. B. Olmsted, Le Roy, N. Y.

Travel expands the mind, but contracts the pocketbook.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. At druggists.

It is what it is "cracked up to be," if it is ice.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product, has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

### TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed, because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co., and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States, in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

## CALIFORNIA FIG SYRUP CO.

ADDRESSES: San Francisco, Cal. U. S. A. London, England. INCORPORATED New York, N. Y.

Adversity is a searching test of friendship, dividing the sheep from the goats with unerring accuracy; and this is a good service.—John Watson, D. D.

Thousands of country people know that in time of sudden mishap or accident Hamlin's Wizard Oil is the best substitute for the family doctor. That is why it is so often found upon the shelf.

Women would have no use for mirrors that would enable them to see themselves as others see them.

"Brown's Bronchial Troches" give relief in Bronchial and Lung Troubles. A simple remedy. 25 cents a box. Samples sent free by John I. Brown & Son, Boston, Mass.

The assistance we get is seldom satisfactory. The best way is not to need it.

A pessimist needs Garfield Tea, the Herb laxative which regulates the liver, corrects constipation and brings good health and good spirits.

A good sermon is often spoiled by a bad dinner.

Naturally So.  
"That new play ought to have panned out well."  
"Why."  
"Because it had all fresh roles."

**For Headache Try Hicks' Capudine.**  
Whether from Colds, Heat, Stomach or Nervous troubles, the aches are speedily relieved by Capudine. It's Liquid—pleasant to take—Effects immediately. 20, 25 and 50c at Drug Stores.

When a woman goes away on a visit for a few days, never ask her why she takes so many clothes with her, for how else could she show her friends that she has them?

**Red, Weak, Watery Eyes**  
Relieved by Murine Eye Remedy. Compounded by Experienced Physicians. Conforms to Pure Food and Drug Laws. Murine Doesn't Smart; Soothes Eye Pain. Try Murine in Your Eyes. At Druggists.
