The Guild.

The regular monthly meeting of The Guild was held yesterday afternoon at the manse, with Mrs. E. M. Stewart, as hostess.

After the devotional exercises and some business matters connected with the study of the lesson, the usual needle work was taken up and pushed vigorously, while a pleasant social hour was enjoyed at the same time, until in response to the call from labor to refreshments they all assembled around the table in the dining room and enjoyed the delicious refreshments served by the charming little hostess.

Up stairs and around could be heard the patter of little feet and the merriment of little voices. The children had gathered for a good time and they had it.

Those present were Mesdames Greer, Shearer, Peck, M. L. Prentice, A. T. Jones, Davidson, O. C. Yantis, J. Alf. Martin, Zim Todd, Bradford, Phelps, Gabler, Carroll, Bates, Stockton, C. B. Moore, Jas. You Are Cordially Invited.

We will be at the following State Fairs: Texas, at Dallas; Louisiana, at Shreveport; and Arkansas, at Hot Springs, also the E. Texas Fair at Tyler. We invite all our former students, their friends and those contemplating entering our school to visit our booth in the Exposition Building, and see our splendid exhibit, which has won first honors at all these state fairs. Our exhibit this year will be more extensive than ever before. It will be interesting and educational to old and young. We will have demonstrations on some of the most modern office appliances which are taught in our school. Speed demonstrations on the typewriter, adding machine contests, exhibit of students' work in Bookkeeping, Business Training, Shorthand, Typewriting, Penmanship and Telegraphy. A visit to our exhibit will show you why we have the largest school of the kind in America, when you are shown clearly why it is that we can make you a more practical and thorough stenographer in three and a half months, with the famous Byrne Simplified Shorthand than other schools teaching other systems can in seven months, and why it is with our original copyrighted systems of Bookkeeping and Business Training that we can give you both a course of Bookkeeping and Business Training in less time than other schools can give you a mere theoretical course of Bookkeeping, and why it is that our practical department of Telegraphy, the largest in the United States, with a loop of the Cotton Belt train wire, giving every message to our students that goes from Mt. Pleasant to Waco; a loop of the Western Union wire; every station blank and record book that is used by Western Union or Cotton Belt Railroad, turns out practical operators and station men; and that we place our graduates promptly into good positions.

We had nearly 200 new enrollments during September, and yet they continue to come in from many different states. From present indications we will easily enroll 2000 students this year.

If you cannot see our exhibit at one of these State Fairs, be sure to write for catalogue and read what we guarantee to give you, what our former students say we have given them, and what their employers say of their proficiency. Address Tyler Commercial College, Tyler, Texas.

Helps With the Lessons

At night when the children gather around the sitting-room table studying their lessons for the next day, the telephone often rings. A little neighbor a mile down the road wants help from his school-mates. Children as well as grown-ups get pleasure and profit from the farm telephone. Do you know how little this service costs and how valuable it is?

See the nearest Bell Telephone Manager or write for our free booklet. A postal will do.
