Editor and Manager.

The Crowley Waste Paper Company is the name of a new concern just established in that city for the purchase of waste paper and paper-making materials.

Judging from present indications Crowley's new industry may flourish for a long time, and then there won't be any waste paper.

If wishes were autos, all hoboes might ride. Jeff Davis, King of the Hoboes, has been presented with a Woods-Mobilette. The next thing we anticipate the Standard Oil Company will offer a car free to all who agree to purchase its gasoline at market price.

A hot fight is being waged in East Baton Rouge between supporters of John M. Parker and Col. Ruffin G. Pleasant. Both sides are holding meetings in some part of the parish almost every day, and the regular Democrats are organizing campaign committees in every ward.

"We have undertaken to canvass every voter in the city," said Joe Ramirez, chairman of the campaign committee, "and our checking thus far shows two to one in favor of Col. Pleasant."

Crow's Raucous Voice.

The voice of almost every member of the crow family has in its very harshness an unbirdlike and partly human quality that could not fail to impress the primitive imagination. In spite of the common idea that crows do nothing but caw, the old augurers recognized no less than 65 intonations of the raven's voice, each with its special significance. From the ringing "Rah! rah! rah! rah!" of the hooded crow, the Swedes have borrowed their fierce cheer, the finest battle cry possessed by any people.

Where Many Make Mistake.

With a gentle heart and sound reasoning powers a man comes to admire in others the qualities which he himself lacks, but earlier wanted so much that he considered any one possessing them more or less of an enemy. It is only men who have done nothing with a single talent, or possibly a confusing group of talents, who remain to the end of life bitter toward those who have made good, having but one or two.

A PLAIN TALK TO VOTERS

I am a candidate for the office of Sheriff and I am very desirous of securing your votes and your active support. I will not insult your intelligence by handing you a lot of bunk which means nothing and commits me to less than nothing. That is not my way.

But if you vote for me it is my wish that you do so with the assurance that I have no masters other than the people and the laws of the people; that I will have absolutely no personal favorites after election; that I will strive to the utmost to honestly and fearlessly perform the duties of the office; that my only guide in the performance of those duties will be the law as it is enacted by those in power; that all men will look alike to me while I am in office; that the body politic is the master and that I am its humble servant, obeying its will as expressed by the law relating to the office to which I aspire.

If under these conditions you can consistently favor me with your support, then I will be profoundly grateful.

I can offer you no greater reward personally than my gratitude, for officially I can do no more for you than by those in power; that the law will apply to all persons alike, rich or poor; that all men will look alike to me while I am in office.

If in the exercise of the right of your franchise you feel it your duty to support some other candidate, be sure there will be no hard feeling on my part. Your own conscience is your guide, as mine is my guide when I go to the polls. It will not affect my friendship or good will toward you in the least.

But I do want and earnestly solicit your vote and your active support, and I am taking this public method of speaking straight to you over my own signature.

Eli Carrier, who has been confined in the new parish jail at Jennings for six months, charged with the murder of a negro, broke out of his cell Saturday night, dug through the basement and escaped. Another inmate followed the fleeing one out, and after notifying a deputy, returned to the jail unaccompanied to continue his slumbers.

Confusion of Tongues.

Most people are so sparing of the use of languages other than their own that they have little idea that there are more than 4,000 languages in the world. There are six languages common in Austria-Hungary, and Emperor Franz Joseph is master of them all. It is said that there are 60 vocabularies in Brazil. In Mexico the Nahuatl is spoken in 700 dialects. There are hundreds in Borneo, while in Australia there is no classifying the complexities. According to the latest statistics, English is at present spoken by 130,000,000, German by 100,000,000, Russian by 70,000,000, French by 40,000,000, and Italian by 40,000,000, and it is constantly on the increase owing to the increase in commerce in Spain.

Candidate for Sheriff

Solicits Your Support

To the People of Jefferson Davis Parish:—

I promise and pledge you in the event of my election to devote my every effort and all my time, that the affairs of this office may be conducted in a clean, honest and efficient manner.

As a public servant it shall be my care that the administration of the office of Sheriff shall be entirely unbiased, and to the interest of ALL the people of the Parish.

Sincerely yours, ALFRED J. BOURGEOIS.

Farmers' Wives.

In Farm and Fireside appears a little article entitled, "The Greatest Partnership in the World," in the course of which the author comments as follows on farmers' wives:

"The farmer's wife knows more about her husband's business than any other man's wife knows about his. She has a fairer, clearer and more helpful understanding of it than the average lawyer's, doctor's, or merchant's wife can possibly have about her husband's business, for she lives and works with her husband on their 'plant.' The farmer's wife is the farmer's partner in more senses than one. In the majority of cases she actually operates certain departments of the business.

"Most wives have genuine interest and some information about their husband's business, but the farmer's wife, living with her partner on their plant, occupies a unique position among all wives. With their greater opportunity for helpfulness than her city sisters, her responsibilities have increased proportionately. All honor and respect to her who carries this heavier burden."

Splendid for Rheumatism.

"I think Chamberlain's Liniment is just splendid for rheumatism," writes Mrs. Dunburgh, Eldridge, N. Y. "It has been used by myself and other members of my family time and time again during the past six years and has always given the best of satisfaction." The quick relief from pain which Chamberlain's liniment affords is alone worth many the cost. Obtainable everywhere. Apl.

Forty-two confederate veterans attended the annual reunion at Mansfield last Saturday. This reunion has been kept up since 1864 when the Confederate forces under General Dick Taylor turned the federal troops under General Banks, back at this place, and thereby saved Texas from an invasion by the army.

Told That There Was No Cure For Him.

"After suffering for over twenty years with indigestion and having some of the best doctors here tell me there was no cure for me, I think it only right to tell you for the sake of other sufferers as well as your own satisfaction that a 25 cent bottle of Chamberlain's Tablets not only relieved me but cured me within two months although I am a man of 65 years," writes Jul. Grobien, Houston, Texas. Obtainable everywhere. Apl.

A HOG SAVER

CHEER UP! I WAS IN YOUR FIX LAST YEAR, AND LOOK AT ME NOW! WHAT CURED ME? WHY, DR. BLACKMAN'S MEDICATED SALT BRICK; IT'S THE TRICK!

WE are having splendid results with Blackman's Medicated Salt Brick. Two farmers were cured quite a lot of hogs when they began using your remedy in the slop feed, also in the drinking water. After using it six or seven days, no more died. I am fully convinced you have the right remedy, and that if the farmers would feed it to the diseased hogs, they would save their hogs from the dreaded cholera scourge. GEO. R. WEBBER. San Jose, Ill., Oct. 18th, 1915.
