**DON'T SCOLD, MOTHER!  
THE CROSS CHILD IS  
BILLIOUS, FEVERISH**

Look at Tongue! If Coated, Clean Little Stomach, Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, don't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and ferment-

ing food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly upon the bottle. Remember that there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

**HOW WILL YOU SPEND YOUR VACATION? THINK IT OVER.**

Young men and women who are ambitious to achieve success should not waste the summer months. One vacation properly spent will prepare you for a profitable life. Many who, at the close of school last year, entered the Tyler Commercial College to spend the summer months, are now holding splendid positions or attending a University, paying their way with the commercial training they received. Every year we have more than a thousand students who finish during their vacation to take good positions during the big fall business. It is useless to idle away the summer months. Business men in all lines are busy, and ambitious young people would rather be with a large, enthusiastic student body in a big school building under electric fans mastering Bookkeeping, Shorthand, Telegraphy, Business Administration and Finance, Penmanship or Cotton Classing than to be idle and blighting their future. Write for a large illustrated free catalogue of the Tyler Commercial College. Read of the advantages of our splendid course of instruction and of those who have graduated and are now holding good positions and what they say of our college and what their employers think of their efficient training. Read how some have worked their way through school, how others borrowed the money to pay board and gave the college their note for tuition and made it pay them big dividends, how others quit jobs at small salaries, completed courses with us and went back to the same firm at two or three times their former salary. Some who were unable to come to our school finished our Home Study Course and never quit drawing their salary. Make arrangements to enter as soon as your school closes. The United States Government holds Civil Service examinations in Tyler enabling our graduates to go in positions at salaries from \$900 to \$1800. There is a great demand for clerical help in government reconstruction work and our graduates are receiving prompt appointments. The salaries are advanced after three months of satisfactory service, and the pay is sure and prompt. We not only make a specialty of preparing our students for positions with business houses but to pass the Civil Service examinations for Stenographers, Bookkeepers, Typist and Clerks. Fill in for free catalogue and mail to Tyler Commercial College, Tyler, Texas.

It might pay Germany to place its movable government on a truck.

We didn't go into the big war to get anything, neither did we go in it for the proud privilege of giving up all we've got.

Auto and Tractor Hospital.

As will be observed by his announcement appearing in another column in this issue of the Journal, Chas. C. Carlisle has leased the building formerly used by the Armstrong Machine & Well Works as a garage where he will conduct an auto and tractor repair business. Mr. Carlisle is one of the most widely experienced machinists in this section. With his father began the acquisition of mechanical experience during the early 90's, being thus connected with the establishment of one of Crowley's first general machine shops at a time when the rice industry was in its infancy. Later they superintended the erection of many of the large irrigation plants throughout the rice belt.

Leaving business aside Carlisle's many friends will receive with pleasure the announcement that he has decided to locate permanently in Welsh.

Congress may feel a trifle squeamish about investigating the packers, congress having itself done a little business in "pork."

**UGH! CALOMEL MAKES YOU DEADLY SICK.**

Stop Using Dangerous Drug Before It Salivates You! It's Horrible.

You're bilious, sluggish, constipated and believe you need vile dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping you or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children at any time. It can't salivate, so let them eat anything afterwards. Adv. Dod 11
