

AUDITORIUM WILL HAVE SAENGER SERVICE.

Announcement of Deep Interest to Theatre Goers.

Mrs. L. King, proprietor of the Princess Theatre at Jennings and also of the theatres in Welsh and Lake Arthur, announces that she has closed a contract with the Saenger Amusement Company for the exclusive showing in the theatres mentioned of the Saenger bookings.

Those who are familiar with the motion picture business will fully appreciate the value of this connection. In short it means that the latest and best releases will be shown exclusively in the theatres controlled by the holder of the franchise.

The Saenger Amusement Co., owns and controls more than fifty of the south's leading theatres and their booking facilities are in consequence unsurpassable.

Patrons of the Auditorium will be well pleased with the service Mrs. King has presented since she took over the local theatre, and the deal she has closed promises greater attractions than could otherwise have been secured.

Presbyterian Church.

10:00—Sunday School.
11:00—Public Worship.

Subject "Addition." This will be a special service and everybody is invited.

There will be no service at night. You are invited to attend the Camp Meeting.

Regular mid-week service on Wednesday evening.

Subject: "The Bible in a Nutshell—The Dispersion."

F. W. A. Bosch, Pastor.

METHODIST CHURCH.

On account of Camp Meeting at Lake Arthur Sunday School at the Methodist Church will be opened at 9:30 a. m. instead of the usual hour. There will be no other services at the church on Sunday, July 27th.

REBEKAH INSTALLATION

All members of Welcome Rebekah Lodge No. 55 are urged to attend the next regular meeting of the lodge on Friday, night, August 1st, at which time officers for the ensuing year will be installed. Refreshments will be served, and all visiting members of the order are cordially invited.

"The Cavell Case" Five Months In the Making.

From the day the cast was first assembled to the day the first public showing was given, it took exactly five months to complete "The Cavell Case", the story of Edith Cavell, the British Red Cross Nurse, the woman the Germans shot, in which Messrs. Plunkett and Carroll present Julia

JULIA ARTHUR
"THE CAVELL CASE"
SELECT PICTURES

Arthur through Select Pictures at the Auditorium in Welsh on Tuesday night, July 29th.

It took 90,000 feet of negative film to make the picture, as a number of the most important scenes had to be made over several times before director John G. Adolff was satisfied with them. Altogether the picture is as near perfect as it is possible to make such a production, and in the hands of Mr. Adolff and Anthony Paul Kelly, the author, this means that "The Cavell Case" is ninety-nine per cent perfect in detail and truth.

With the aid of historical societies and newspaper dispatches describing the actual shooting of Edith Cavell, Mr. Kelly was enabled to make an accurate and faithful screen story from one of the most horrible of all German atrocities—the death of an innocent and loving woman. The star of the picture, Julia Arthur, is a well known stage celebrity, while Creighton Hale, who has one of the other important roles, is a former Pathe star and has also appeared in support of Pearl White. Other equally well known players are William H. Tooker, once a Fox and Metro star, and Paul Panzer, who has been seen in many Pathe serials.

BIRTHS.

Born, to Mr. and Mrs. A. R. McBurney, Friday, July 18th, a son.

Born, to Mr. and Mrs. F. J. Scoggins, Saturday, July 19th, a daughter.

Born, to Mr. and Mrs. Preston J. St. Romain, Saturday, July 19, a son.

When you get roasted worry like a peanut—that's its usual practical disappearance. It takes fate.

HOKE PLANTATION BRINGS HIGH FIGURE

New Owners Take Immediate Possession.—\$100.00 Per Acre Is Price Paid.

A deal was consummated early this week whereby Messrs. P. D. Watkins and Sherman Carter became the owners of the J. F. Hoke farm three and one-half miles east of Welsh.

The property embraces 472 acres of very fine farm land, well improved, on it being one of the finest and best equipped farm homes in this section, electric lighted and fully equipped with all modern conveniences. The price paid, \$100.00 per acre includes growing crops—150 acres of rice, corn and cotton, Mr. Hoke giving immediate possession.

Mr. Hoke announces that he will make his future home at Frederick, Md., where he will engage in raising thoroughbred Holstein cattle, the selection of his future home having been made after a thorough investigation of different sections of the north and east. His health is the main reason for the change.

In leaving this section, Mr. Hoke assures that he has nothing but good words for Louisiana and he will continue a booster for the state. He says further, that in leaving he is not burning any bridges behind him, reserving the right and privilege of returning.

Having set the pace in advanced farming methods in this vicinity, Mr. Hoke will be greatly missed in the farming life of the community, and it is certain that he and his estimable family will be missed socially. Their neighbors attest to the latter fact.

Mr. Hoke expects to leave with his family for their new home in about ten days. He is leaving his herd of Holsteins and other farm animals in the care of the new owners of the farm and will return during the fall and close them out at public auction.

The Ocean Shrunk.

The impression of the ocean flight of Commander Read, as he says, is "to the effect that the Atlantic ocean has greatly shrunk." The enormous saving in time is astounding, the voyage taking only a minor fraction of the time that a steamer would require.

The enthusiasm of the British and the French for aviation surprised the Americans. Everywhere the future is looked into for great development, and Great Britain and France, having tasted war-bombing realize what an important factor the air has become. Senator New, of Indiana calls attention to the appropriation of \$300,000,000 by the British for the aerial navigation work, and recalls bitterly that he could not secure a \$50,000,000 appropriation for the American army. Just as certainly as nations exist today their future rests in the air, for works of war and peace will be carried forward with rapidity. We hope something can be done to arouse the American people to the importance of this new development.

A Business Change.

Friends of Clopha Benoit will be pleased to learn that he is again engaged in business in Welsh. Mr. Benoit has purchased a one-half interest with T. F. Ewing in the Peoples' Meat Market, and will be actively associated in its management and conduct. He is experienced in the market business and a congenial business man. His connection with the market will be appreciated by his many friends.

Under the new partnership the market is operating a delivery, assuring of prompt service.

Some ideas of indoor sports include fly-fighting.

The summer days are here, all right, the hottest in the year.

LODGE NOTICES

Special Price on New Waterloo Boy Tractors.

I have four new tractors, two 2-speed and two 1-speed, never run. See Welsh Machine Shops.

"The Proof of the Pudding is in the Eating."

There is no question but that the Byrne Shorthand is the greatest system in use today. It makes better stenographers in less time and with less cost than any other. It may be written either in pencil or any typewriter. It has over 30,000 enthusiastic writers; it holds the world's record for speed in a given length of time, is the most simple legible, and rapid system in use, as is shown from the following remarks by our students who first studied other systems:

"I take pleasure in telling the public that the Byrne Shorthand is the only system. I previously studied Pitman eight months, used it in actual practice for four months. At the end of six weeks study of the Byrne I was a better writer than I had ever been with the Pitman."

"I have been a Sloan-Duployan stenographer for 15 years; found the system inadequate. I then took the Gregg under Mr. Gregg of Chicago, but found it illegible. I then took up the Byrne, which I consider the stenographic marvel of the age."

"I first studied Pitman Shorthand, then took up the Byrne, and found the Byrne to be 35 per cent shorter and that it could be written at a much higher rate of speed and read like print."

"I studied Pitman four months, gave it up in disgust; I then took up Pernin and studied it almost night and day for six months, but was not competent to hold a position. I then took up the Byrne for three months and find that I can hold any kind of a position."

"I graduated in Graham Shorthand, writing 100 words a minute, after 9 months study. After studying the Byrne Simplified together with the Byrne Practical Book-keeping, for 4 months, I could write Byrne much faster and regard it superior to any other system."

"I thoroughly mastered 14 systems, seven of the most prominent Pitman systems, Gregg, Chartier, Byrne, and four minor systems, and find the Byrne much easier to read, that it can be written with one and one-half times the speed that can be made with any of the other 13 systems."

"After studying six different Pitman systems, I was unable to hold an ordinary office job, but with five weeks study of the Byrne I went into the District Court and did reporting successfully, and was appointed official court Stenographer."

Why study any system of Short hand, other than Byrne, when the Byrne can be learned in half the time, or less, read with greater ease, and written at a higher rate of speed which means better salary and promotion? It does not cost half as much to complete a course in our school as it does one of the other systems in other schools. We hold the exclusive right to teach the Byrne in this section. The author is the president of our school.

Write Tyler Commercial College, Tyler, Texas, for large free catalogue containing full endorsements and names and addresses of the above, and of others who have tried other systems and abandoned them for Byrne. Our Bookkeeping, Cotton Classing and Telegraphy are as far superior to the other systems as is the Byrne Shorthand.

AGRICULTURAL YEAR BOOK HAD FOR THE ASKING.

Congressman Lazaro Offers Limited Number to Farmers Who Are Interested.

The Journal is indebted to Congressman L. Lazaro for a copy of the latest issue of the Agricultural Year Book issued by the Department of Agriculture. The volume is considered a choice addition to our library, and also the following letter from Congressman Lazaro in reference to a number of the books which he has for distribution:

Washington, D. C.
The Rice Belt Journal,
Welsh, La.

I have secured from the Government a number of the latest issue of Agriculture Yearbooks for distribution. These books contain interesting and valuable information, not only to farmers but to anybody interested in agriculture. They are attractively bound and represent quite a cost value to the Government.

As long as my supply lasts, I shall be glad to mail a copy of this publication to anybody who will request it, so shall therefore very much appreciate if you will kindly give notice in your columns that these books may be had by writing to me before my quota is exhausted.

I take pleasure in mailing you, under separate cover, a copy of the publication for your office.

Yours very truly,
L. LAZARO.

Another War Romance.

Mr. and Mrs. R. Smith take pleasure in announcing the engagement of their daughter, Edythe, to Mr. Peter M. Shamray of Los Angeles, California, who has just returned from overseas.

Mr. Shamray is a well known motion picture laboratory expert. Prior to his entry into the service where he had charge of motion picture section of the Signal Corps Photographic Laboratory in Paris, he was connected with the world's greatest producer, Mr. D. W. Griffith, as laboratory superintendent.

The young woman whom he has chosen for his bride, Miss Edythe Smith, is too well known in this community to need any introduction. She has grown to young womanhood here. She has sterling qualities, is popular and attractive. The announcement of her coming matrimonial alliance will be received with pleasure by her many young friends.

This engagement is the culmination of another war romance, the couple having first met in Washington, D. C., where both were actively engaged in war work.

Mr. and Mrs. J. T. Smith are at home in their residence recently purchased from H. F. Arnold, one block west of the Domestic Science building of the Welsh High School.

OBSERVATION TOUR FOR DAIRY FARMERS

The dairy farmers of Louisiana are being urged by C. H. Staples, dairy specialist, Extension Division, Louisiana State University, to enroll in the Dairy Farmers Observation Touring Party which will attend the National Dairy Show to be held in Chicago, October 6 to 12 inclusive. The object of this trip is to stimulate interest in the dairy industry and give the farmers the privilege of visiting some of the best dairy sections in Wisconsin and Iowa. Two similar trips have been made and from the experience gained from them it has been found that much time and expense can be gained by traveling with a party of this kind. The entire trip will require about ten days.

Every detail in regard to the itinerary of the trip will be worked out before the party leaves and all accommodations planned ahead. The trip will be both profitable and pleasant and the expense in comparison to the value received will be relatively small.

It is hoped that a large number of dairy farmers of Louisiana will make their plans to take their annual vacation at this time and spend a few days seeing the largest dairy show in the world and visiting a number of the most progressive dairy sections in the United States.

Among the dairy farmers enrolled to go are: L. K. Williams, proprietor of the Idlewild Dairy Farm, Patterson, La., W. B. Smith, manager of the Idlewild Dairy Farm, Patterson, La., A. H. Henderson, president of the Louisiana Jerseys Breeders Association, Ruston, La., J. M. Cadwallado, manager Louisiana State University Creamery, Baton Rouge, La., and W. A. Dougherty, manager of United States Demonstration Farm at New Llano, La.

You have tried the rest, now try the BEST—buy Welsh Special Bread, at Welsh New Bakery, also Hot rolls and all kinds of Pies.

Jos. D. Hebert, formerly in the employ of the Signal Publishing Co., at Crowley, has accepted a position with The Rice Belt Journal and is making his home in Welsh.

Coal operators predict a shortage the coming winter unless production increases the remainder of the summer.

Twins.

Richard Spillane, of Commerce and Finance, says "there probably is nothing more interesting than twins, unless it be triplets and quadruplets" but he stops there as it would be scandalous to go further.

Continuing Mr. Spillane says someone has figured that the chance of being born a twin is one in about 140. The chance of a new born twin to live to the age of 89 is one in 55. In the case of twins a gambler would lay 2,500 to one at their birth that both would not survive 89 years. Multiplying 280 by 2,500 it would seem that the chance of finding a pair of twins alive at the age of 89 is one in 700,000.

Hazlehurst, L. I., has such a pair, both being ladies, one a spinster and one a widow. Has any town in this section twins to beat this pair?
