

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if kidneys feel like lead or bladder bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep the kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

TO ENLIST SERVICE MEN FOR LEGION

FORTY THOUSAND OF FORMER FIGHTERS ELIGIBLE FOR MEMBERSHIP IN LOUISIANA.

TWO WEEKS CAMPAIGNING

Posts Are To Be Formed In All the Towns and Cities of the State Begin in February—There Are Available 40,000 Men.

New Orleans, La.—The American Legion—13,000 strong by the time General Pershing gets to Louisiana.

The general will arrive here February 16. To have at least 13,000 members of the legion in the state to welcome him an intensive campaign for 10,000 additional comrades will be put on all over Louisiana February 1 to February 15.

New posts will be organized in every city and town in Louisiana, additional posts will be formed in those cities which already have one or more, and the enrollment of all posts will be doubled and tripled if plans announced at state headquarters in New Orleans Saturday by T. Semmes Walmsley, commander of the Louisiana department of the legion, are carried out.

Mayors of sixty-nine Louisiana towns without legion organizations will receive letters soon urging them to co-operate in the organization of new posts, and aid in increasing the membership. The mayors are to be given exact details of what the legion stands for, what it holds for the ex-service man and the man still in service who becomes a member. Campaign chairmen will be named for every parish during the next few days. Post commanders will be asked to get in line for the movement.

There are available for membership Turkish territory, in order to set up in Louisiana at least 40,000 men who gave their services to the United States in the great war, and less than 4,000 of these have taken advantage of the opportunities for self-protection and the advancement of the high ideals for which they fought.

The chief aim of the impending campaign is to tell these 36,000 what they are missing in not belonging, and what joining will mean to them, and to get them to join and take an active interest in the fight for their interests the legion is conducting and proposes to conduct in the future.

To the Louisiana posts returning at the end of the campaign the greatest number of new members elaborate legion standards will be presented by the Louisiana department. And in order that the small towns and sections will not be handicapped, the same awards will be made to the posts showing the greatest increased percentage in new members.

Sunday, February 15, post commanders from all over Louisiana will meet at a conference in New Orleans to plan an active fight for the legion ideals—the spreading of Americanism and the protection of disabled fighters and service men in general. Post commanders will bring with them figures on the campaign in their communities.

PEOPLE TALKED ABOUT

YOUNG MEN AND GOVERNMENT JOBS

Senator Smoot of Utah, in an address in the senate on the joint resolution for the reclassification of salaries, had this to say, among other things:

"In my opinion those employees were most unfortunate when they landed in positions in the departments of our government. They ought to have entered into affairs of everyday life and business to battle for positions with their fellow men; but they came here and entered one of the departments, thinking that the government was at least a safe and sure paymaster and would be as long as they remained. A man is not in the government service for many years, however, before he becomes an absolute machine; he loses confidence in himself; he is fearful that if he loses his job in Washington he can not make a living for himself or his family elsewhere.

"Any man who stands at the head of a bureau or department of the government who will kick a young man out of the government service and force him into the active business life of this country, unless he is here for the purpose of acquiring an education, will confer upon the employee the greatest favor that he could possibly render him."

ROGER SULLIVAN TO QUIT IN JUNE

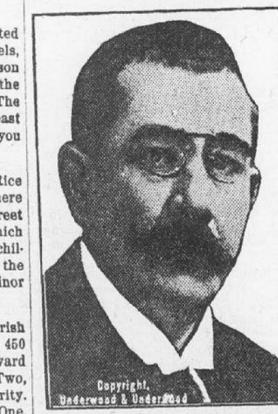

Roger C. Sullivan of Chicago announced that he is about to retire as an active leader in local, state and national Democratic politics. His official connection with inside management of party affairs is to cease with the adjournment of the national convention next June at San Francisco.

With the Democratic candidate for 1920 nominated, Mr. Sullivan proposes to step aside for younger blood. He will be one of the delegates at the delegation of fifty-eight from Illinois, and the delegation, under the unit rule, will vote just as Mr. Sullivan desires when the showdown comes at Frisco. That having been accomplished, Mr. Sullivan becomes an observer of matters political, always reserving, however, the right to a ringside seat at any major bout.

In this connection it is to be noted that Mr. Sullivan and former Mayor Carter H. Harrison entered the meeting of the Democratic national committee arm in arm. Mr. Sullivan and William Jennings Bryan have traveled together, ratified a peace treaty and settled all past differences. Terms have been settled up whereby there can be no Democratic primary fight in Chicago or Illinois during 1920, and the Sullivan organization takes unquestioned control of party affairs for four years.

NOSKE MUST KEEP BERLIN QUIET

Rioting in Berlin and other cities of Germany directs attention to Gustav Noske, German minister of defense. Martial law, which had been done away with, was again declared and Noske was appointed commander in chief for the greater Berlin district and Brandenburg province. Noske is generally regarded as a strong man for whom drastic measures and bloodshed have no terrors.

The first rioting, which resulted in the death of forty-two persons and the wounding of 105, resulted from an attempt to start a general revolution. The uprising was to occur in all Germany and was led by radical government officials, it is officially declared.

Developments indicate that President Ebert and Premier Bauer invited the trouble by the raising of the state of siege which had been hanging over Berlin since spring and in other wise moderating the regulations calculated to restrain the independent and Communist agitators.

WALLACE ANSWERS FOR UNCLE SAM

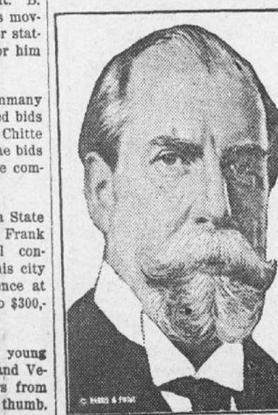

Hugh C. Wallace, ambassador to France, is much in the public eye these days, inasmuch as he now represents the United States in connection with the activities of the supreme council of the allies at Paris. For instance, it was he who informed the council that the United States government has refused to accept any of the indemnity to be paid by Germany for the destruction of the German fleet in Scapa Flow.

Germany, in compensation for the Scapa Flow sinkings, is requested to deliver to the allies certain inland steamers, floating docks and tugs, and the council had awarded 2 per cent of this material to the United States.

State department officials have not explained the American government's objection, but it was recalled that American peace representatives favored destruction of the German ships on the ground that their division among the other powers would make it necessary for this country to greatly enlarge its naval building program.

WHAT RIGHTS HAS A SOCIALIST?

Charles E. Hughes of New York (portrait herewith) is a champion of the five suspended Socialist members of the New York assembly. The bar association of New York city adopted a resolution by a vote of 174 to 117 condemning the action of the New York assembly in temporarily denying seats to its five Socialist members. The resolution was proposed by Charles E. Hughes and was supported by George W. Wickersham, Charles S. Whitman, Henry L. Stimson, Morgan O'Brien and several other leaders of the New York bar.

In the New York assembly Mr. Hughes was denounced, by inference, as "pro-German" and "disloyal" by a Tammany assemblyman.

This case is different from the case of the Socialist Berger, who was denied a seat in congress. Senator Lenroot of Wisconsin, in a public address, said Berger had been unseated for a specific act for which he had been tried, convicted and sentenced to prison. Senator Lenroot said he could not see any justification for the ousting of the five Socialist members by the New York state assembly.

NO BASIC WRONG IN GOVERNMENT FOUND

Government Ownership of Rails Opposed by Farm Organizations.

Washington.—There is nothing fundamentally wrong with the government of the United States, and there is no need of change in existing social standards and economic laws, representatives of seven national farm organizations declared in a memorial adopted at a conference Friday and presented to congress.

The organizations subscribing to the memorial are the International Farm Congress, National Farmers Congress, National Grange, American Farm Bureau Federation, National Farmers Union, American Cotton Growers Association and National Federation of Milk Producers.

"The frequent assertion," the memorial states, "that the war has brought fundamental economic and industrial changes and that we are born into a new world is without foundation. The same social standards and economic laws will continue to prevail."

In a discussion of national issues the memorial declares the farmers are emphatically opposed to government ownership of railroads on the ground "that it is against good policy and the principle of sound Americanism."

The memorial denounces government price-fixing as an interference with the law of supply and demand, and declares that it was dangerous discrimination to compel any group of citizens to sell their products in a regulated market and to buy their supplies in an unregulated market.

Profiteering is condemned by the farmers, and opposition is voiced to universal military training.

The practice of indiscriminate striking for trivial causes and regardless of distress or damage is indefensible, the memorial says, but the right to cease work, individually or collectively, is unassailable.

Woman Suffrage Act Is Sustained by Court

Austin.—Answering a certified question from the first court of civil appeals at Galveston in the case of Mrs. Alma Koy vs. William Schneider, tax collector, from Fayette County, the supreme court Wednesday in a majority opinion, written by Assistant Justice Thomas B. Greenwood, upheld the constitutionality of the act of the Thirty-Fifth Legislature, granting to women the privilege of voting in primary elections. Associate Justice William E. Hawkins concurred in the opinion. Chief Justice Nelson Phillips dissented in a written opinion.

The court also refused the application for a writ of error in the case of Tom M. Hamilton vs. Lee R. Davis, tax collector, from McLennan County, which in effect sustained judgment of the third court of the civil appeals at Austin, which declared the woman's suffrage act to be valid. Chief Justice Phillips also dissented in this case. Practically the same question was involved in the two cases decided by the supreme court Wednesday. In other words, the constitutionality of the woman suffrage act was upheld twice by the highest court of the state, it being the first time that the court has spoken on the question.

Harry New Gets Life Sentence.

Los Angeles, Cal.—Harry S. New, convicted of murder in the second degree for shooting Miss Freda Lesser, was denied a new trial Friday. He was immediately sentenced to serve not less than ten years, with a maximum of life imprisonment, in San Quentin prison.

New drove to the police station on the morning of July 5 last, bringing the body of Miss Lesser in an automobile. New signed confessions admitting that he killed her, and claiming he did so because she refused to marry him.

French Cabinet Sustained.

Paris.—The cabinet of Premier Millerand was given a vote of confidence Friday in the chamber of deputies at a session attended by virtually all the members. The vote was 510 in favor of the ministry to 70 against it, with no abstentions from voting.
