**A Sensitive Soul.** "Why don't you give yourself up to the police?" asked the inferior intellect.

"Wight for!" exclaimed Bill the Burg. "I want to tell you some of those things about me that I don't feel like 'sociating with them.'"

## Lovely and Flattering Hats

SINCE it is the part of beauty and style in dress to impart pleasure, gifted designers of millinery are great assets to civilized peoples. In hats the fancy has freer play than in other apparel; they may be more unusual in shape and more colorful than almost anything else with which women undertake to express their love for beauty in color and form. Our respect for the milliner's art increases as we learn more and more about it and recognize the fine discrimination with which they clothe and adorn heads so as to reveal character, and express personality. At the same time they reflect in headwear "the glory of the year," the joys and vicissitudes of the seasons.

This is a hat that will be equal to the demands of formal dress. Just below it is another model for formal wear. It has a crown of satin folds veiled with malines and a brim of several thicknesses of malines that enclose gorgeous peacock feathers. There are flower-like fancy feathers on the upper brim and a scarf of malines that extends from the back of the crown and swathes the throat. This same idea appears with flowers instead of feathers, showing through the malines.

## For Every Day the Year Round

FOR every day and all-the-year-round wear, sensible mothers put their tiny boys and girls in rompers or overalls that give them perfect freedom and keep them clean. More or less heavy cotton goods, fast color and sturdy, are used for these garments and they are commendable from every point of view for youngsters from one or two years to seven or eight. They save darning and washing and foster self-reliance and independence in their small wearers.

Some little girls are self-conscious and uncomfortable in overalls or knickerbockers and some mothers prefer skirts. In either case the little one-piece dresses with bloomers to match solve the difficulty and these are provided for little ones of kindergarten age. But for the green fields, the sands of the shore or mountain roads there is nothing so practical as skirtless garments like that pictured overalls.

**Neckwear for Summer Frocks.** Two lengths of plaited frilling, drawn neatly together down the middle with a tiny blanket of velvet ribbon, and leaving long ends, will make an attractive little bit of neckwear for your summer frock.

**For the Trousseau.** A pretty new idea for the trousseau is the white crepe de chine bathrobe with black hem and quiltings and white embroidery.

### THE SALAD.

"I am very proud," said the salad, "and when you look at me I think you will understand it." It added, "Oh, yes, you have a great deal of reason for being proud," said the roses.

"I Hope They Will Like Me." and there is cake on many of the plates which are covered up, and there is cocoa coming to be put into all the cups you see and the cups will stay right on the saucers you see them on.

"We below," said the roses, "to the Blue Rambler Rose family. There aren't many of us about. As I said before most of the members of our family wear either pink or red. And they dress very handsomely. I'm fond myself of both red rambler roses and pink rambler roses.

"Then on top of me I have a banana standing up to make it look like a candle and on top of that there is a little red cherry which is supposed to be a light on the top of the candle.

But ere was no more talking after that, for the salad was being quickly eaten and it was almost gone the banana on the top said: "Oh, it's fine by me to be a salad and to be a successful one!"

**Depends on Fitness.** A great deal is made of the fact that most occupations are open to women and formerly, but this is interestingly to the girl who is ready to fit herself for these occupations.

**Something for Nothing.** The people who expect something for nothing are doomed to disappointment as a rule.

## False Claims.

WE hope there is no Mother who thinks she can treat her sick baby without calling in a Physician, or with remedies that she uses for herself.

Most Mothers know that Baby requires remedies especially prepared for babies, yet there are some who think that what is good enough for them is good enough for Baby, and it is to these Mothers we appeal to give nothing to their babies that is not specially prepared for babies or recommended by their Physician.

False claims may kill, but false claims can never restore your child. For over thirty years Fletcher's Castoria has been aiding in the reduction of the deaths among infants as Mothers have become more and more acquainted with it. Always keep it in the house.

## Children Cry For

# Fletcher's CASTORIA

### Mothers Must Use Care.

Why do we so often call your attention to imitations of Fletcher's Castoria? Because it is a baby's medicine and imitations are always dangerous, particularly imitations of a remedy for infants.

Your druggist may not keep an imitation but they are to be found on drug-store shelves. Reliable druggists think only of the welfare of their customers. The other kind only of the greater profit to be made on imitations.

Your own judgment tells you that Fletcher's Castoria having for over thirty years at great expense built up its reputation, must jealously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs. Must retain skilled chemists in its manufacture.

Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Castoria.

## "DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—Adv.

Too Expensive. "Throw any old shoes at the bride?" "Not much. If I had any old shoes to throw away I'd get 'em fixed up and wear 'em."

Minnie Duly Warned. A little friend of ours had just received a bicycle for his birthday, which he greatly prized, and was riding up and down in front of the house on it. The maid was washing and leaning out of the window when she heard a little voice call up to her: "Be careful, Minnie. Don't fall out of the window and break my bicycle!" —Chicago Tribune.

## ITCH!

### A WAR-TIME ILL THAT'S SPREADING HUNT'S SALVE CURES IT!

BRED in the war trenches of Europe, a wave of ordinary ITCH is spreading over the country. This skin disease, history shows, has always prevailed, following wars and the concentration of armies. It was common during the Civil War and following that conflict. There was an epidemic of the Itch after the Spanish-American War. Now history is repeating itself after the great European struggle.

Returned soldiers and those with whom they come in contact will find a recognized remedy for the Itch in Hunt's Salve, commonly known as "Hunt's Itch Cure." Many a veteran of the late '90's will testify to its merits. If directions are followed HUNT'S SALVE will prove a never failing cure for all forms of the Itch, and your druggist will tell you so. He sells HUNT'S SALVE under a strict guarantee to refund the purchase price to any dissatisfied user.

A Medford, Oklahoma man, among thousands who praise HUNT'S SALVE, says: "Some people dislike to call it the Itch, but candor compels me to admit I had it badly. Your Hunt's Salve, however, cured me after many other remedies had totally failed. One box completed the cure—the first application afforded wonderful relief. My advice to those who have to scratch, is to use Hunt's Salve."

Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter and other itching skin diseases and is sold on our guarantee by all reliable drug stores, or it will be sent direct by mail if your local druggist cannot supply. Price 75c per box.
