Monday while hurrying to get out some washing Mrs. E. E. Kimball accidentally got her hand caught in her electric wringer tearing the thumb partly from the hand and causing a very bad and painful wound. When Mr. Kimball was called by the neighbors he was unable for some time to get a physician on account of the telephone operator refusing to call the doctor without his phone number being given. Having no phone directory at hand he finally thought of the Drug Store number and had them get in touch with Dr. Martin, who called and dressed the wound after taking several stitches. She is doing very well at this writing. We would think that one who got hurt in such a manner that they would be unable to see or find a Physician's phone number would be in a very bad way if they had only THE PLANTERS TELEPHONE FORCE to depend on for help.

NOTICE! For some years past it has been the custom of the local insurance agents to carry accounts for sixty days and often times longer. In spite of the fact that we have been confronted with increasing costs of nearly every commodity on the market, neither insurance nor the agents commissions have advanced. The insurance business is conducted upon small margins and this makes it necessary for the business to be conducted upon nearly a cash basis in order to meet the increasing demands for cash settlements in other lines of business. On and after July 10th. all insurance business of the undersigned agencies will be conducted on a strictly 30 days basis and all policies not paid for within 30 days from the date of issue will be promptly cancelled. We believe that this arrangement will enable us to give your insurance needs closer personal attention and we will appreciate your cooperation in this important matter. W. M. COLBERT, Agent. F. G.
