The reformers have been quiet as the grave, lately.

It is a good plan, to not bite off more than you can chew.

Some other fellow, got the consignment to Hayne, a New York man.

Up to date, Mr. Houston's charges have not been denied. Why?

If you don't subscribe for the TIMES you will never have good crops.

A sober, reliable, fast-working carpenter could make money in this section.

"Strange such a political difference there should be."

Twist twiddle-dum and twiddle-dee."

Vicksburg will get the ships if two thirds of the voters, will vote for the agreement made by the State Committee. We would be pleased to give our spleen contemporary more of it, whenever it wishes.—Capitoline Advocate May 16.

Mr. and Mrs. S. B. McClellan left for Hot Springs Tuesday, where they expect to stay about a month, and then go to Tennessee. They will probably remain away until fall.

C. W. Ross, who is gardening for Mr. Beer, brought to the TIMES office a nice lot of snap beans Tuesday, and reports that he has had them a week previous to that time. They are full size and were much enjoyed.

You had better file away for future reference this, and the two previous numbers of the TIMES. They will be handy to have about next election, when some of the loud mouthed reform democrats begin to shout.

Two negroes on Maj. Lucas Waterford place, got into a difficulty last Monday, in which one shot the other with a shot gun loaded with squirrel shot. The wound was not fatal.

Mr. J. M. Stanbrough brought to the TIMES office, early this week a small branch of a thorn tree on which were the shells of 25 locusts. He reports "the woods full of them." Prof. Riley predicted their arrival, last week.

The writer met Mr. S. D. Pearce of the Ruston Caligraph on the train last Saturday. He was returning from the Exposition. Mr. Pearce says it requires at least three weeks to see the Exposition. A pleasant chat of half an hour or more was greatly enjoyed.

Mr. Fried's potatoes on May 9, were pretty early, but Mrs. Dr. Trezevant, had new potatoes long before that. They were eating new potatoes at Dr. Trezevant's house on April 26, and have been keeping it up ever since. The potatoes were planted Feb. 7. Thanks for a sample lot of them.

Mr. C. A. Rose, in order to place photographs within the reach of all, has determined to make what might be called excursion rates. He therefore, on Thursday and Friday next, will take photographs for \$1. per dozen. This price is only for these special days, and the pictures will be fully up to the standard.

May 16-17. JAMES FORDISH, Mound, La.

"The Ring Tot of Democracy." In an article under the above heading, the Picayune of the 2d inst. says:

"And let it be borne in mind that while Hunt and Nichols and Kennerhead and others split around the Democratic wire, nothing else was right and nothing the people to stand by the National Democratic Standard. Mr. Nichols and the State Central Committee were still around soliciting Mr. Cleveland's cause take care of itself. Not one man of the gang who took the field in his behalf, and but a solitary meeting was held in the state under their auspices, that we ever heard of."

It should be borne in mind at the same time, that at the camp fires alluded to by the Picayune, although no State or local officers were to be voted for at the election, the speakers took pains to "pitch into the ring" every time and express the fear that the ring would seek to occupy the Federal offices in the State, along with the hope that Mr. Cleveland selected would legitimate them. At one of those meetings, Gov. Nichols went so far into this theme as to say that he would ally himself with men of all colors and opinions to defeat "the ring." He canvassed the First District in Mr. Hunt's interest and the Third in Mr. Gay's and seldom failed to make violent attacks upon "the ring" when nothing else was involved in the campaign. It was evident that the impression existed that Mr. Etling would be elected. The patriots were slow to come forward until the news of Cleveland's election flashed through the land. There are lessons of them now, and we dare say that any amount of money would induce to give him a cordial welcome if he should visit Louisiana.

The article of the Picayune makes necessary this brief explanation of the conduct of the campaign by the State Committee. We would be pleased to give our spleen contemporary more of it, whenever it wishes.—Capitoline Advocate May 2.
