

THE JOKER'S BUDGET.

THE LATEST GOOD THINGS SAID BY THE HUMOROUS MEN.

Her Foolin'-A Leap Year Story-It Was Returned-Mr. Perkins Left-Why She Formed It-He Still Had Hope, Etc., Etc.

THE ONLY REMARK.

"I say, Bobby," whispered Featherly, "did your sister Clara seem pleased when she learned that I intended to call last night?"

REVENGE IS SWEET.

"Mother," said Miss Clara, "do you think Bobby ought to lounge in that handsome chair?"

THE EDITOR'S WEARY SON.

Editor's Wife.-Well, what do you look so happy about?

A CHANCE.

"Do you think, Miss Ethel," he inquired, tremulously, "that I could see your father this evening?"

THE CRITICIAN.

"So you want to join my company?" said the manager of an unsubstantial theatrical company to a young man.

LOST ON HER.

Obliging Guest (to friend)-By Jove, my little attentions have completely vanished here. Isn't she charming?"

A CHILD'S MISTAKE.

Grandmother (to young girl)-Ha, Tommy! wonder what makes your cheeks look like that?"

THE CRITICIAN.

First Omaha Man-You seem to feel jolly, John.

PERKINS LEFT.

"Miss Laura," said the young man smilingly, "may I ask why you have that string tied around your finger?"

A CONDENSED MILK COW.

"The cow that gives condensed milk, I suppose you have one on the place, Farmer Robinson?"

THOUGHT TO BE DEAD FOR YEARS.

It may seem strange to some of our readers that a man after he is reported dead, should come to life, but it is, nevertheless, true, and here it is written sitting by the fire in Ordinary Hill's office.

REPROBATION.

BENEATH AN AVALANCHE OF LOGS.

Hundreds of them Rush Over William Jacques.

On Pine Creek, just below Livepool Mills, Pa., a jam of logs occurred on the bank of the creek.

At last three men, William Jacques, aged 30, his younger brother, Juan, and a man named Ryan, volunteered to go out on the logs, find the key log, and remove it.

"PNEUMONIA."

Why not Call this Terrible Scourge by its Rightful Name?

Many a person who leaves home in the morning, before night he will have a chill and in a few hours will be dead!

It is the way the dread pneumonia takes its toll.

It sweeps over the land like a scourge and despoils the human race.

Evermore dreads it. Its coming is sudden, its termination usually speedy.

Pneumonia, we are told, is invited by a certain condition of the system, indicated if one has occasional chills and fevers, a tendency to cold in the throat and lungs, rheumatic and neuralgic pains, extreme tired feelings, headache and neuralgic stitches in the side, nervous unrest, scalding sensations, or scant and discolored fluids, heart fluttering, sour stomach, distressed look, putty eyes, snags, hot and dry skin, loss of strength and virility.

These indications may not appear together, they may come, disappear and reappear for years, the person not realizing that they are nature's warning of coming calamity.

In other words, if pneumonia does not claim as a victim the persons having such symptoms some sudden but quietas fatal malady will certainly follow.

A celebrated New York physician told the Tribune that pneumonia was a secondary disorder, the exposure and cold being simply the cause, the disease being already dormant in the system, because the kidneys have been partially doing their duty. In short, pneumonia is but an early indication of a bright's disease, one who is impaired of his organs may expect to have pneumonia, but it is not a disease of the lungs, it is a disease of the kidneys, and it can be detected only by chemical and microscopic examination.

Nearly 150 of the 740 deaths in New York City the first week in April (and in six weeks 781 deaths) were caused by pneumonia.

The disease is very obstinate, and if the accompanying kidney disorder is very far advanced, recovery is impossible, for the kidneys give out entirely, and the patient is literally suffocated by water.

The only safeguard against pneumonia is to maintain a vigorous condition of the system, and thus prevent its attacks, by using whatever means radically and effectually restore full vitality to the kidneys, for if they are not sound pneumonia cannot be prevented.

When a physician says his patient has either bright's disease or pneumonia he confesses his inability to cure, and in a measure he considers his responsibility ended.

Little Walter is a very active boy, and takes no account of his steps when playing and amusing himself, but a call in the midst of fun to do some trifling errand for any member of the family produces an immediate change of pace as face.

As a NERVE TONIC, it strengthens and quiets the Nervous System.

As an ALTERNATIVE, it purifies and Zantizes the Blood.

As a LAXATIVE, it acts mildly, but surely, on the Bowels.

As a DIURETIC, it regulates the Kidneys and cures their Diseases.

As a PLEASANT AND EFFECTIVE REMEDY, it is highly recommended by all the leading Physicians and Surgeons of the World.

That Tired Feeling

Experienced by almost every one at this season, and many people resort to Hood's Sarsaparilla to drive away the languor and exhaustion.

It is the way the dread pneumonia takes its toll.

It sweeps over the land like a scourge and despoils the human race.

Evermore dreads it. Its coming is sudden, its termination usually speedy.

Pneumonia, we are told, is invited by a certain condition of the system, indicated if one has occasional chills and fevers, a tendency to cold in the throat and lungs, rheumatic and neuralgic pains, extreme tired feelings, headache and neuralgic stitches in the side, nervous unrest, scalding sensations, or scant and discolored fluids, heart fluttering, sour stomach, distressed look, putty eyes, snags, hot and dry skin, loss of strength and virility.
