TWELFTH TEACHER ADDED TO FACULTY

Winnfield's High School Now Has an Even Dozen Teachers.

The faculty of the Winnfield High School now numbers twelve, another teacher having been added Monday at a meeting of the Board of Trustees.

The school was crowded to the limit, and beyond, before the holiday vacation and when the school re-opened a number of new pupils entered. This made it necessary to employ another teacher. The Board of Trustees was called together Monday and the twelfth teacher was employed, Miss Grace Hyde being selected for the position.

The matter of room was another subject which the Board had to consider, every class room in the building being filled to an uncomfortable degree. It was decided to use the auditorium for a class room and the situation is now partly relieved. This arrangement will probably do for the present term but it is conceded that something must be done before the next session opens in the fall, and a new building seems to be the only remedy.

Postoffice Receipts.

The gross receipts at the Winnfield postoffice for the month of December, 1906, amounted to \$386.33; for the same month in 1905, \$258.22; an increase for December, 1906, of \$128.11.

The gross receipts for the quarter ending December 31, 1906, were \$1255.18; for the same period in 1905, \$869.44, an increase for 1906 of \$385.74.

The total gross receipts for the year 1906 were \$4,668.22; for 1905, \$3,069.33, an increase for 1906 of \$1,598.89, or a little more than fifty per cent. The total gross receipts for the year 1904 were \$2,300.92, an increase during the two years of \$2,367.30, or a little over one hundred per cent.

All other business in Winnfield has increased in about the same ratio. The figures are, of course, not available, but the freight receipts, the bank statements and the statements of leading merchants show that business has increased in about the same ratio as the receipts at the post office.

Most Excellent Dinners.

The editor of The Sentinel has been the recipient of many invitations to enjoy the hospitality of many of our neighbors and friends and while we could not accept all, we did accept some, and we thoroughly appreciate the courtesies thus extended. As the saying goes we have been "on the go" for the past two weeks, but we are indebted to the following friends for most excellent dinners: Mr. and Mrs. H. P. Gamble, Mr. and Mrs. P. Bernstein, Mr. and Mrs. J. M. Belcher, Mrs. S. A. Wright, Mr. and Mrs. T. J. Drewett. Last Sunday we attended a family reunion dinner at the home of Mr. and Mrs. A. J. Long at which there were present Mr. and Mrs. H. P. Long, Mr. and Mrs. G. P. Long, Mr. and Mrs. W. K. Wright, and Mr. J. R. Bick. Mrs. Long had prepared a most excellent dinner and the family reunion was a pleasant feature, where reminiscences of the past were recalled and discussed.

THREE KILLED IN A SAW MILL BOILER EXPLOSION

The boiler in the Wainwright saw mill at Atlanta, twelve miles southwest of Winnfield on the Valley railroad, exploded at 8 o'clock Monday morning, completely wrecking the plant and killing T. D. Wainwright, one of the owners of the mill; John Gafford, the fireman, and Monroe Plunkett, a 12-year old boy, the son of Widow Plunkett. B. Grissom received painful bruises and scalds. One arm was broken and he was scalded about the face. Two other young men were working on the lumber yard but escaped injury.

The boiler burst into three pieces. The steam dome was found about 150 yards to the south of the mill, one end of the boiler with the flues was found 200 yards north, while the furnace end was found about 100 yards away in a different direction.

At the time of the explosion Wainwright was on the log ramp some distance away. After the explosion he was found on the

hill above the log ramp. He lived about ten minutes after the explosion. The fireman was instantly killed and was blown several yards from where he was standing when the explosion occurred.

The boy was in the dust pit and was buried in dust, dirt and debris. He breathed for about ten minutes after being rescued. Grissom was working on a pump within a few feet of the boiler and his escape from instant death was miraculous. He was knocked unconscious for several minutes and horribly scalded, but his injuries are not considered very dangerous.

The first news of the accident was received here in a telegram to Hon. J. M. Webb, president of the Police Jury, he being here in attendance upon that body. Grissom is a son-in-law of his. He left immediately for the scene of the accident.

The explosion was terrific, several parties in Winnfield stating that they heard it.

THE ICE PLANT WILL SOON BE COMPLETED AND IN OPERATION

Mr. L. M. Moorehead, who will superintend the construction of the plant of the Winnfield Ice Company, has arrived and will make his home in Winnfield.

Monday morning he started to work unloading the machinery and materials to be used in the building of the plant and will go right along with the work until the plant is making ice, which, it is thought, will not be longer than two months.

The ice plant will be located near the plant of the Dalton-Clark Stave Company between the main lines of the Louisiana

and Arkansas and the Tremont and Gulf railroads. It will have a capacity of twenty-four tons daily and besides the manufacture of ice the company will also do a bottling business on a large scale, having taken over the plant of the Winnfield Bottling Works. The plant will be improved and all kinds of carbonated beverages will be manufactured.

Ample capital is behind the enterprise and a first class modern ice plant will be erected and that it will be a paying proposition is evident when the large territory it will have is considered.

Dunn-Sanders

Wednesday evening, Jan. 9, 1907, at 7 o'clock Rev. R. A. Holloway performed the ceremony which joined in holy wedlock Mr. Horace C. Dunn of this city and Miss Olye A. Sanders of Fayette County, Tennessee.

After the ceremony, which took place at the residence of the bride's brother-in-law, Mr. T. H. McGowan, the bride and groom and the guests repaired to the residence of the groom's parents, Mr. and Mrs. D. F. Dunn, where a sumptuous feast was enjoyed.

The bride has been in Winnfield since last summer visiting her sister and has made many friends by her charming personality. Mr. A. T. Sanders, a member of the Fayette County, Tennessee Court, and father of the bride, attended the marriage.

The groom is a popular young man. He was reared in this city and has hundreds of warm personal friends who wish for him and his fair bride all of good things of life.

The Citizens Won.

The suit entitled R. E. Milling et als vs. Sulphur Timber & Lumber Co., Ltd., was concluded and a decision rendered yesterday. The plaintiffs won the case. The case will go to the Supreme Court.

ANOTHER LETTER FROM UNCLE BOB

Compliments The Sentinel and Asks Some Pertinent Questions.

EDITOR SENTINEL:

I received a copy of The Sentinel yesterday and to my great surprise I found it to be a parish paper that will measure up with almost any of our country papers. It is newsy and interesting. Roosevelt's stinging message certainly did interest me. His head is level and he certainly stands square to his opposers. I glory in his manhood.

But as to The Sentinel. It does seem to me that every man in the parish ought to take The Sentinel and keep posted as to the parish news. Not that I am prejudiced, but it does seem to me that the people ought to take a paper published at the parish seat. I like the Union Banner. It is an up-to-date paper published in the cause of the union and the farmer. but we want the political news as well and I am satisfied that The Sentinel will give satisfaction if any paper will.

Now, Mr. Editor, I want to ask you, did you ever hear of such a thing as "hush money," that is money paid to any one to "dry up" and not advocate an enterprise that would be detrimental to the large property holder? Don't you think such a thing could be? I am satisfied that large real estate holders could unite and stop any effort on the part of the public officials to levy a tax that would pull money from their pockets to benefit the common people. I am also confident that there are voters who could be pulled the same way with a few dollars. They would let their children grow up in ignorance for a few dollars.

Now for instance, how easy could a five mill tax to work the public roads be pulled off by a few dollars, and a school tax the same way.

It frets me to see the children growing up in ignorance and the old oxen, horses and mules dragging through the mud under lash when it could be better.

UNCLE BOB.

Francis Liles Killed at Georgetown.

Francis Liles, a young white man, was killed Monday evening in the planing mill of the Georgetown Lumber Company at Georgetown, twenty miles east of here on the Iron Mountain and Louisiana & Arkansas railroads.

The young man was a son of Mrs. Dougherty, who resides near this place, and the meagre news of the accident was received in a telegram to her. She left on the 3 o'clock Louisiana & Arkansas train for Georgetown.

None of the details are at hand, but it is stated that the young man's death was accidental. He was employed in the planing mill when he was killed.

Notice to Knights of Honor.

Tuesday night January 15 being the regular meeting night of the Woodmen of the World and as we are using their hall, the Knights of Honor will meet in that hall on Wednesday night, January 16, at 7:30. Knights will take notice and be governed accordingly.

Dictator.

BANK OF WINNFIELD'S SPLENDID SHOWING

Board of Directors Declares a Dividend and Increases Its Surplus.

The Board of Directors of the Bank of Winnfield held a meeting in the offices at the bank Monday night to look into the affairs of the institution and to declare the semi-annual dividend.

The affairs of the bank were found to be in splendid condition, the profits on the paid in capital for the last half year being 19 3-4 per cent. The Board of Directors declared a dividend of 7 1-2 per cent, to be paid to the shareholders, the balance to be placed in the reserve fund, which will make the surplus or reserve fund of the institution about \$15,000.

It was also learned that the deposits in this popular financial institution reached on January 1, 1907, the quarter of a million mark, all of which is certainly a fine showing for the management.

THE POLICE JURY REGULAR SESSION

A Partial Report of the Work Done at the Present Meeting.

Winnfield, La., Jan. 7, 1907.

The Police jury of the Parish of Winn, met today in regular session. Roll call showed all members present except J. M. Webb, president. D. B. Williams was called to the chair to act as president pro tem.
