

NEIGHBOR ASKED FOR INFORMATION

Which Was Promptly Disclosed and She Lost no Time in Profit-ing Thereby.

Miami, Okla.—"One of my neighbors," says Mrs. Hannah M. Turley, of this town, "came to my house last week and said: 'Mrs. Turley, what did you take to help you so quickly? I told her it was just Cardul, the woman's tonic, and she said: 'I wish I looked as well as you do.' I told her if she would only get \$5.00 worth of Cardul, and take it, she would. So she sent her husband to town to get the Cardul, and commenced taking it. She looked so pale and sick all the time, but is beginning to look better already.

As to how it helped me—I suffered for about 5 years, with womanly troubles, and became so weak and nervous, and would suffer such pain every month, that I thought, at times, I would die. Was in such condition that I couldn't do my work half of the time, and would have awful smothering spells.

My husband bought me a full treatment of Cardul (6 bottles) and I can truthfully say that after I took the last bottle I was well. Am enjoying the best of health now, and am so thankful to Cardul."

Take Cardul for your trouble. You will never regret it. Begin today. Ask your nearest druggist.

R. B. Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for full instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request. Adv.

Tact is the leaven that prevents fattery from fallow flat.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules. Adv.

From All Sides.

"Can you send a dog by parcel post?"

"I'm afraid there would be a howl about it if you did."

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

After a Good Meal.

Hostess—Another piece of mince pie, George? To a small piece? George (reluctantly)—No, thanks, I could chew it, but I couldn't swallow it.—London Opinion.

Had the Right Idea.

Small Chris had been given a toy tank and was told to save all his pennies. The next day he said: "Mamma, please give me a quarter."

"What do you want it for?" she asked.

"I want," replied the young financier, "to get it changed into pennies to save."

Home-Made Humor.

There is a judge in a certain eastern city noted for his grouch. The most comical incident has no more effect on him from than upon a wood-chopper. But one day a lawyer, who had tried in vain to make the judge laugh, walked into court and found the jurist doubled up with mirth. The lawyer hurried to his colleagues.

"Dinner to the man responsible for that," he said. "Who told the story?"

Another lawyer drew a sheet of paper toward him and wrote the words, "The judge."

Grass Map.

Manuel L. Quezon, resident commissioner from the Philippine islands, has an interesting map sent him recently. It is one representing the islands of different colors, some tints showing the land and others water. Even titles are wrought in colored ink. The whole thing is about three feet long by two wide, and hangs from the wall of Mr. Quezon's room, a conspicuous object to every visitor.

It is the work of the pupils of the native colleges. Near by the painting of Wilson done by an artist, and admirably done, the frame is of different kinds of wood, all hand carved in graceful lines.

UPWARD START

Changing from Coffee to Postum.

A talented person is kept back from the interference of coffee in the nourishment of the body.

Especially so with those whose nerves are very sensitive, as is the case with talented persons. It is a simple, easy way to get coffee troubles a-tenn. Experience along with Postum is considering. She

from the beginning of the coffee it hurt my stomach. By I was fifteen I was almost enough to endure the most trivial either work or fun.

Farmers' Educational and Co-Operative Union of America

Matters of Especial Moment to the Progressive Agriculturist

A gate with a broken hinge may cause you a bad reputation for profanity.

For an amateur having a hive of bees is just a little more exciting than a bear hunt.

Lots of folks do not know that the best medicine for an unhappy mind is hard work.

Putting more sunshine into your barn by means of more windows makes your horse look better.

Whether or not you have an ear for fine music, the grunting of your own hogs sounds mighty good to you.

How the time drags when we are idle; but how it flies when we are working hard at something worth while.

Translate the bank of manure around the barn into your bank account. Scattering it on the fields will do the trick.

It takes a real Christian to drive two miles through the mud holes and arrive at the church in an exalted frame of mind.

A college education may not be necessary for the making of a fortune, but it makes a man rich in the things that are worth while.

One secret of success is to know how to make other people work for you and keep them thinking they are working for themselves.

Bad news always gets the right of way on the telegraph wire, but the good travels by freight train and then too often gets side-tracked.

A stiff upper lip does not always indicate success, but if maintained at a proper degree of rigidity long enough it will generally win out.

Just because a man is a poor farmer is no reason why he should seek to keep his boy down to his own level, by refusing him an education.

Now cometh the nurseryman with his book of pretty pictures of impossible trees, and his bottles of fruit, whose size is doubled by the liquid. Beware!

With all the little colts and calves and pigs coming to live on the farm nowadays the farmer has a right to a happy smile. Look at the price of live stock.

Money in itself is about as worthless as anything ever produced; but money combined with good sense and a Christian spirit, is capable of the greatest good.

FEW REASONS FOR SUCCESS

European Farmers Profit by Co-Operation Because of Willingness to Follow Leadership.

(By E. H. HIBBARD. Copyright, 1914.)

The question is often asked why European farmers co-operate while American farmers struggle along unorganized. It is not because of any fundamental differences in the men, but due rather to the widely different conditions under which the farming of Europe and that of America is done.

The European farmer was in desperate circumstances. Something had to be done. For example, the hard times of the middle of the nineteenth century left the German farmer in a fair way to lose the ownership of his farm, for he was without money and almost without credit. Fortunately a wise and benevolent man started a co-operative credit company and so marked was its success that there are today over fifteen thousand such companies alone, and they are still increasing in numbers at a rapid rate.

In the dairy business there was a similar cause for the development of co-operation. In Denmark, for example, there was no adequate market for the butter made on the farms. It was necessary that something be done, and about thirty years ago the Danes adopted the co-operative system of butter-making, which had been tried both in the United States and in Germany, and have made it one of the remarkable examples of agricultural co-operation in the world. Butter is one of their main products, and, finding it almost impossible to market it otherwise, they learned to market it so successfully co-operatively that Denmark, only one-third as large as the state of New York, and with a population equal to that of Iowa, exports \$1,000,000 worth of butter a week.

The success of co-operation in Europe, though due in the main to the dire need of the farmer, compelling him to submit to regulations not always to his liking, is due to other circumstances as well. For one thing, the European farmer is permanently located and rarely sells one farm and moves to another. This gives stability which an American community seldom has. Again the European farmers live in villages and are near neighbors, with all that that implies. No doubt, too, the European farmer is more inclined to submit to authority than his American brother who is traditionally independent. Finally, the European farmer has been willing to follow the leadership of men who have made it a life work to improve agricultural conditions, whereas the American farmer will not readily follow the leadership of his own type.

Plant Corn Shallow.

Remember that the early spring planting of corn should be shallow. It takes warmth and moisture to make seed germinate and grow. In the spring the soil warms from the surface downward, hence the advantage of placing the seed as near the surface as possible, being particular to keep it in moist dirt.

Clean the Hay Bills.

Save the waste places. Prepare for sorghum crops or milne for hay. Save that hay bill for 1914-15.

Prepare for Bugs.

Better think ahead of the inch bugs and grasshoppers and prepare some barriers.

Seed is Very Scarce.

Good cotton seed is very scarce, therefore greater care than usual should be taken to make replanting unnecessary.

Covering Cotton Seed.

It is not possible to cover early planted cotton seed too shallow if it is in moist dirt.

Save the Hay Bills.

Prepare for Bugs.

COW TESTING ASSOCIATIONS

Small Dairyman May Take Advantage of Co-Operative Society in Selection of His Animals.

In connection with the movement now assuming generality in its scope and influence and benefits to the producer and the consumer, viz., that of co-operation in distribution, we will do well to consider the value of the organization of cow-testing associations, official testing, as well as public sales, and community buying.

With the growth of the dairy industry in the several states, whether it be gradual or very rapid, there is always the problem of disposing of poor and unproductive animals and the purchasing of high producers and valuable stock as well as the starting of new dairies. This process goes on unnoticed in some sections while in others it assumes wholesale proportions and the value of efficient and reliable purchases is fully realized, writes C. C. Tolman in Kimball's Dairyman.

In many, in fact, in most instances, the individual is forced to purchase personally, and with much expense to himself, and make his purchases. He necessarily adds much in this way to the price of his stock, especially if he purchases but few animals. Besides the expense of travel in the selection of his stock, he has always the risk of dealing with unscrupulous breeders and this again may result in a very high price for an animal of average value. I am speaking, of course, of the man who is beginning his work of selection and is not familiar with the names of the best breeders and perhaps thinks he can do better by buying from some one who is not so well known, but just establishing a reputation. Again, the purchaser must transport his animals and if he has but four or five, for example, he has an additionally higher expense as compared with purchasing in carload lots.

In accordance with the national as well as local movements for co-operation in the various phases of agricultural endeavor, let us realize how we can co-operate in the organization of cow-testing associations, official testing, public sales and community buying. Besides the realization of thousands of dollars in the production of butter and cheese, we have the opportunity of introducing among average farmers and dairymen, highly bred or pure bred stock at prices which he can well afford to pay. The small dairyman can go to the stables of the co-operative society and select his animals at will with a large number to select from and at his inspection will be pedigrees and records of all animals. He may even have the benefit of the counsel and advice of the officers of the society.

Examples of local societies of this kind are already quite numerous in the state of Wisconsin, as, for example, the Guernsey Breeders' Association of Waushara County. Some of the members of this society have actually moved their herds from other parts of the state to Waushara county. This is not necessary and means a great expense. Sales stables of a society which might serve a whole state or more may be the place where periodical opportunities for purchasing stock may be taken advantage of. The buyers may gather at such times and whether the stock is on exhibition or not, they can make their purchases. In case the animals are not on exhibition, the buyer can easily learn where such animals as he wishes are located. This does away with the expense of travel to the buyer; expense of advertising to the breeder and many other expenses which now result in a high price for the stock.

LIVE STOCK MEANS SUCCESS

No Place Where Farmer Can Market His Corn and Roughage So Profitably as to Animals.

On nearly every farm live stock raising is merely a side line when it should be the main thing. There is no place where the farmer can market his corn and roughage so profitably as feeding it to good live stock, says the Kansas Farmer. The market is right at home in the feed lot and no long hauls to town are necessary. If a farmer can feed his 60-cent corn to good hogs which will pay him 80 cents for it, does he not make an advance on the price of his corn and a profit in the fertility returned to the soil, as well as a saving of expense in the hauling? Breeding pure-bred live stock is a business which should be entered gradually and retired from reluctantly. Improving the common stock a little each year will lead up to the pure-bred business. There can exist no permanent system of agriculture without live stock and, on high-priced land, pure-bred stock is the only kind to have.

Good Hog Notes.

The feeding and care are as important as the breeding in producing a good hog.

Always keep plenty of good fresh water where the hogs may drink at any time.

Lice prevent a hog from doing well. Keep a mixture of wood ashes, charcoal, lime, sulphur, salt and coppers where the hogs can get it.

Silage and Milk.

The man who has silage now and who feeds some cottonseed meal has the full milk pail. One bucket used to hold the milk in winter and it often wasn't over half full. Now it takes two buckets, and both have more than one use. There is a reason—corn silage and cottonseed meal.

Seed is Very Scarce.

Good cotton seed is very scarce, therefore greater care than usual should be taken to make replanting unnecessary.

Covering Cotton Seed.

It is not possible to cover early planted cotton seed too shallow if it is in moist dirt.

Save the Hay Bills.

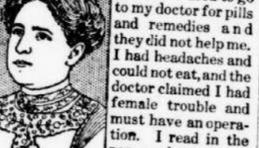

Prepare for Bugs.

Better think ahead of the inch bugs and grasshoppers and prepare some barriers.

TWO WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I must thank you with all my heart for Lydia E. Pinkham's Vegetable Compound. I used to go to my doctor for pills and remedies and he did not help me. I had headaches and could not eat, and the doctor claimed I had female trouble and must have an operation. I read in the paper about Lydia E. Pinkham's Vegetable Compound and I have taken it and feel fine. A lady said one day, 'Oh, I feel so tired all the time and have headache.' I said, 'Take Lydia E. Pinkham's Vegetable Compound,' and she did and feels fine now."—Mrs. M. R. KARSCHNICK, 1438 N. Paulina Street, Chicago, Illinois.

The Other Case.

Dayton, Ohio.—"Lydia E. Pinkham's Vegetable Compound relieved me of pains in my side that I had for years and which doctors' medicines failed to relieve. It has certainly saved me from an operation. I will be glad to assist you by a personal letter to any woman in the same condition."—Mrs. J. W. SNEER, 126 Cass St., Dayton, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

PAYMENT OF DEBT DEFERRED

Borrower Willing to Live Up to Conditions Made, but the Time Had Not Arrived.

Secretary of the Treasury McAdoo heard all sorts of tales about the country going to the bowwows because of the decision to put out fifty million dollars in southern and western banks to help move the crops.

"To hear the tales of calamity that was to befall the United States," said the secretary, "one would think there was nothing to it. It reminds one of Tom and John.

"Tom, who had lent John five dollars, one day asked, 'John, ain't it time you paid me that five dollars?'"

"'Tain't due yet,' said John.

"'But you promised to pay me when you got back from New York.'"

"'Well, I ain't been thar yet.'"—Sunday Magazine.

FACE COVERED WITH PIMPLES

214 Brevard St., Tampa, Fla.—"Some three years ago I commenced to suffer from a rash on my face and back. Before the pimples came on my face there were a lot of blackheads. It looked as if the blackheads turned into pimples because after a little while all of them were gone and my face was covered with pimples. They were small at first but gradually grew and right at the end of each pimple it was all white. I carelessly picked them with my finger nails, which made them spread, and I soon discovered them on my back. My back was covered with pimples and my face the same way. At night I could hardly sleep on account of the burning and itching sensation they caused. I did not like to go out because the pimples caused disfigurement.

"Seeing the advertisement of Cuticura Soap and Ointment in one of the magazines I sent for a sample. I bought some Cuticura Soap and Ointment, and I am glad to be able to say that I am entirely cured of pimples." (Signed) Jno. O. Darlington, Jan. 25, 1913.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Unfortunate Gallantry.

To his native town a busy city man recently returned for a visit. As he had not seen the place nor its people for a long time, he was kept pretty busy greeting old friends. Among those whom he encountered was an elderly spinster, who beamed upon him with:

"Oh, Mr. Smith! I am sure you don't remember me!"

"Remember you!" gallantly exclaimed the city man, quite carried away by his wish to be friendly. "As if I could forget you, Miss Dixon! Why, you are one of the landmarks of the old town!"

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of Dr. J. C. Watson.

In Use For Over 30 Years.

Children Cry for Fletcher's Castoria

An Association Favored.

"Aren't you afraid politics will get into big business out your way?"

"I'm hoping it will," replied the man who refuses to be scared; "may-be it will improve politics."

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Kill the Flies Now and Prevent disease. A DAISY FLY KILLER will do it. Kills thousands. Lasts all season. All dealers or six-cent express paid for. H. SOMERS, 150 De Kalb Ave., Brooklyn, N. Y. Adv.

Cut and dried is the way a man feels after a barber school student gets through with his complexion.

DIDN'T GET THE SITUATION

Well-Meaning Man Not Exactly Wise to the Methods Peculiar to Up-to-Date Femininity.

"I don't live in this town," he said, as he halted before a policeman on the corner.

"Well?" was queried.

"I think I made a mistake back there."

"What's the matter with your chin?"

"A woman bit me, and that's why I think I made a mistake."

"How was it?"

"Down on the next block the sewer is stopped up and there's a lot of water ever the crossing. A woman stood with her toes in the edge of it, and thinking she wanted to cross I picked her up and carried her over."

"And she bit you in return?"

"She bit me and called me names. Can you see where I made a mistake?"

"Um! I can. She didn't want to cross."

"But she stood there?"

"Yes, but she was simply getting her feet wet."

"What for?"

"That she might go home and tell her husband that she had got to have \$8 to get a pair of the spring and summer style of shoes, or go into quick consumption!"

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Adv.

Witte on War.

Count Witte, the famous Russian statesman, estimates that 40 per cent of the total income of the great powers is absorbed by their armies and navies. Of the consequences he writes: "When and how will it all end? Unless the great states which have set this hideous example agree to call a halt, so to say, and knit their subjects into a pacific, united Europe, and when I say war, I mean a conflict which will surpass in horror the most brutal armed conflicts known to human history and entail distress more widespread and more terrible than living men can realize."

DON'T STOP WORK

Because of Biliousness, Constipation, Headaches, Indigestion, etc. Just take one BOND'S LIVER PILL and go on with your duties.

You will be well shortly and your troubles forgotten. Or, if you take one Bond's pill at bedtime, you will wake up well with no unpleasant memories. Send for free sample.

Beware of imitations and the host of "new-fangled," "just-as-good" so-called "liver remedies" that crowd the newspapers and the drug stores. Stick to the HONEST and WELL-PROVEN BOND'S LIVER PILLS, Little Rock, Arkansas.—Adv.

No Better, But Worse.

Apropos of a policy of trust reformation, ex-Mayor Shank of Indianapolis said at a banquet in New York: "If a trust is inherently bad, kill it. You can't reform it. It's like the singing lady. One man said to another: 'I hear your wife has been taking singing lessons.' 'Yes, was the reply. 'Well, what do you think of her voice, since it's trained?' 'It's no better, but there's a lot more of it.'"

SEARCHING THE COUNTRY.

The manufacturers of Ross' "Dead Quick" Spray are searching the country for an insect it will not kill. Write them if you find one. If insects are in your home, on your plants, shrubbery, vegetables, among your poultry, this spray will destroy them. Sold by your druggist. W. C. Ross Manufacturing company, Little Rock, Ark.—Adv.

Too Much.

Booth Tarkington was asked recently for an original sentiment by way of autograph. He replied:

"If you had asked me for my autograph, I would have sent it to you gladly. But to ask for a specimen of my work, that is a little too much. Would you ask of a doctor for one of his corpses to remember him by?"

Only Too Willing.

Optimist—Be a hero and always pay your taxes with a smile.

Taxpayer—I would like to, but they won't accept them. They insist upon money.

Good Cheer Aids Digestion of Food

Dyspeptics Can Make the Rest of the Family Happy by Using a Laxative-Tonic.

MAJ. S. MARTIN

The temper of the family and the good cheer around the table depend so much on the good digestion of each individual present that the experiences of some former dyspeptics who overcame their trouble should be of interest to those now suffering in this way.

The best advice one can give—but it is advice that is seldom heeded—is to eat slowly and masticate each mouthful carefully. However, if slow eating and careful mastication fail the next aid is one close to nature, Dr. Caldwell's Syrup Pepsin. This remedy is an excellent digestant, and in addition to helping in the digestion of the food, acts gently on the liver and bowels, ridding them of the accumulation of waste that should long ago have been passed off. It is safe, reliable, pleasant-tasting, and results are guaranteed.

Maj. S. Martin, of Joplin, Mo., now 77, thinks Dr. Caldwell's Syrup Pepsin has helped him to a longer and happier life. He has not felt so good in years as he has since taking this excellent medicine, and in spite of his 77 years he says he feels like a boy.

It is the ideal remedy for indigestion, no matter how severe; constipation, no matter how chronic; biliousness, headaches, gas on the stomach, drowsiness after eating and similar annoyances.

Snow Will Not Quench Thirst.

The water which will allay our burning thirst augments it when congealed into snow, so that it is stated by explorers of the Arctic regions that the natives "prefer enduring the utmost extremity of thirst rather than attempt to remove it by eating snow."

Yet if the snow be melted it becomes drinkable water. Nevertheless, although, if melted before entering the mouth, it assuages thirst like other water, when melted in the mouth it has the opposite effect. To render this paradox more striking, we have only to remember that ice, which melts more slowly in the mouth, is very efficient in allaying thirst.

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid Which Clogs the Kidneys and Irritates the Bladder.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Usual Combination.

"Young Jenks, I'm afraid, is a bad egg."

"Yes, and he's a fresh one, too."—San Francisco Chronicle.

Switzerland's wood-working establishments produce great quantities of excelsior.

Red Cross Ball Blue, much better, goes farther than liquid blue. Get from any grocer. Adv.

Most of us have to struggle along without the things we really want.
