CHILD CROSS? FEVERISH? SICK?

A cross, peevish, listless child, with coated tongue, pale, doesn't sleep; eats sometimes very little, then again ravenously; stomach sour; breath fetid, pains in stomach with diarrhea; grinds teeth while asleep, and starts up with terror—all suggests a Worm Killer—something that expels worms, and almost every child has them. Kickapoo Worm Killer is needed. Get a box to-day. Start at once. You won't have to coax, as Kickapoo Worm Killer is a candy confection. Expels the worms, the cause of your child's troubles. 25c. at your druggist.

A BETTER SUMMER SCHOOL

One of the defects of our State systems of summer schools has been that teachers have not been benefitted financially by attending. Too often, their attendance has only enabled them to renew their certificates without obtaining more pay. This summer, at the six and ten weeks summer school which will be held at the State Normal at Natchitoches, two improvements will be found: First, the course of every student will be carefully advised by faculty members with a view of strengthening his scholarship where most needed; secondly, normal credits will be allowed for all work done in courses comprised in the Normal curriculum, and these credits will count towards obtaining a normal diploma. Those in attendance will therefore derive a double benefit. The summer school pamphlets of the Normal School explain the importance of this plan.

"Worth More Than it Costs" Lots of farmers declare their telephone service is worth more than it costs. J. W. Harris, a well-known farmer living near Choccolocco, Ala., writes: "I had occasion to call our doctor not two hours after my telephone was connected with your exchange. My mother, who is very old, fell down the door steps and broke her arm, and I called the doctor. He was at my house before I could have gone to his residence, as he has an automobile. "We would not be without our telephone for more than it costs and appreciate the assistance you rendered us."
