EDUCATIONAL EXHIBIT CARS

Will Arrive in Tallulah on March 12th, at 11:23, A. M., for one day

Editor, Madison Journal,
Tallulah, Louisiana,
Dear Sir:

It gives me pleasure to advise that the Educational Hygiene Exhibit cars will arrive in Tallulah on March 12th, 11:23 A. M. and remain until March 18th

10:18 A. M.

On this trip we wish to make a definite effort toward the betterment of health conditions among the negroes. To this end health officers, municipal authorities, physicians, and other influential citizens are asked to assist in making most effective the visit of the car.

The exhibit car will be open to the colored people in the afternoon from 2:00 to 5:30 and in the evening an illustrated talk will be given them by a competent colored lecturer.

We have two motion picture outfits and can also give the usual evening program if desired.

Thanking you for past courtesies and hoping we may have your continued cooperation, I am

Yours very truly,
OSAR DOWLING,
President.

BUSY SEASON FOR FARMERS OF STATE

Inspector Sere Tell of Work of Agricultural Office. Praises Bruner.

Leon Sere, who is connected with the Agricultural Department and a brother of ex-Representative Sere of the 12th ward, is in the city on business and pleasure combined.

Mr. Sere is enthusiastic over the work his Department is doing and what Commissioner E. O. Bruner has accomplished since placed at the head of the Agricultural and Immigration Department.

Mr. Sere said:

"This is our busy season. We have our hands full filling and shipping orders and getting out reports. Last year the sale of tags fell off some, but from present indications we will do a big business this year, especially in the cane district. No doubt the cotton planters will use less fertilizer as they intend reducing their cotton acreage. Being Chief Inspector, I have to travel all over the State looking after the inspectors generally, and let me tell you we have a splendid system, one that gives the farmers the best protection I know of and one that is absolutely self-sustaining. Not only does the tonnage pay all of our expenses but has a surplus of several thousand dollars left over.

"Will Mr. Bruner be a candidate to succeed himself? I should say so, why not? He has made the greatest Commissioner the State has ever had, I think the South. His work speaks for itself. He has brought about more reforms, cut out some extravagances and built up and injected more life in the Agricultural and Immigration Department than all of his predecessors combined. I think I can easily show where he will have saved the State some fifteen or twenty thousand dollars when his term expires.

"Can you name any other commissioner in Louisiana who has ever had his inspectors taught how to administer anti-hog cholera serum and how to vaccinate against charbon and taught in entomology. The inspectors don't become veterinary surgeons or entomologists by any means, but they do learn enough to teach the farmers how to do those things: themselves, which will save them lots of worry and expense."

Mr. Sere said from his observations he was sure Mr. Bruner would be re-elected by a pronounced majority.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Colocynthis and does not grip or sicken. 25c.

Prompt Action Will Stop Your Cough.

When you first catch a Cold (often indicated by a sneeze or cough), break it up at once. The idea that "It does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my Cough" is one of many honest testimonials. 50c. at your Druggist.

FARMER RADFORD ON WOMAN SUFFRAGE.

The home is the greatest contribution of women to the world, and the hearthstone is her throne. Our social structure is built around her, and social righteousness is in her charge. Her beautiful life lights the skies of hope and her refinement is the charm of twentieth century civilization. Her graces and her power are the cumulative products of generations of queenly conquest, and her crown of exalted womanhood is jeweled with the wisdom of saintly mothers. She has been a great factor in the glory of our country, and her noble achievements should not be marred or her hallowed influence blighted by the coarser duties of citizenship. American chivalry should never permit her to bear the burdens of defending and maintaining government, but should preserve her unsullied from the allied influences of politics, and protect her from the weighty responsibilities of the sordid affairs of life that will crush her ideals and lower her standards. The motherhood of the farm is our inspiration, she is the guardian of our domestic welfare and a guide to a higher life, but directing the affairs of government is not within woman's sphere, and political gossip would cause her to neglect the home, forget to mend our clothes and burn the biscuits.

RURAL SOCIAL CENTERS.

We need social centers where our young people can be entertained, amused and instructed under the direction of cultured, clean and competent leadership, where aesthetic surroundings stir the love for the beautiful, where art charges the atmosphere with inspiration and power and innocent amusements in and about their lives.
